CHERRY MOVEMENT NOW IN FULL SWING

The following gives number of cars of deciduous fruit shipped from all points in California for the week (7 days) ending Friday morning, June 2, 1911.

Cherries, 22 cars. The cherry movement is now in full swing with cars being forwarded from all the cherry shipping points in the state. In the early section Royal Anna, Bing, Tartarians and Centennials are going forward, while in the Santa Clara section the movement is restricted to the early varieties. In the Vacaville district this fruit will last for a week or ten days, but will probably be available from the Santa Clara districts for the next three weeks.

Apricots, 1-4 cars. This fruit is now moving from Vacaville and Winters. Pringles are nearly done and Royals are increasing in quantity every day. There will be no considerable shipments, however, for another week.

During the last week there has been no change in the fruit situation except that all crops continue to look better and show increased quantity. Grapes are now blooming and promise to set well. Bunches are unusually large and fine and the crop could not look better.

ELECTING SUCCESSOR TO WALTER I. SMITH

COUNCIL BLUFFS, Iowa, June 5.

The first congressional election since President Taft raised the Canadian reciprocity issue is being held in the Ninth Iowa District today to choose a successor to Walter I. Smith. Politicians all over the country are watching the result very closely, looking for straws which may indicate which way the wind is blowing. While reciprocity is the principal issue, the question is considerably confused owing to the fact that W. R. Green, the republican candidate, is opposed to the treaty, and W. A. Cleveland, the democratic nominee, favors it.

Beautiful plowing weather was expected to cut down the farmer vote, in spite of the fact that fully 1,000 automobiles are being used in dragging voters to the polls. In the 129 precincts of the district.

Today's election was occasioned by President Taft's appointment of Congressman Smith as judge of the United States court for this district. Taft's Chicago speech on reciprocity is expected to aid Green, notwithstanding Green's opposition to the proposed agreement.

CLEVELAND, Ohio, June 5.—Suit to break the will of Valentine Christ, an eccentric property owner who died recently, leaving an estate valued at \$1,500,000 was begun yesterday by Henry Shrist, a nephew and other relatives. Christ's will provides that the estate shall remain in the care of trustees for ninety-nine years before being divided among the heirs. It is estimated that the accumulated surplus income, together with the natural increase in values of the properties, will bring the total value of the estate at least \$100,000,000 by 2009. The heirs want an immediate distribution.
