LEFT MEXICO JUST IN TIME

Mr. and Mrs. George F. King Arrive Again in Medford—Heeded Warning and Escape From Town Which Was Sacked.

Mr. and Mrs. George F. King and little daughter arrived in Medford Thursday, coming from Los Angeles by Automobile. They have been located in Mexico for some time and expect to spend the summer at Derby where they have a summer home.

With Mr. and Mrs. King is a little Mexican boy whom they have brought here to educate. He is a bright little chap eight years of age and is a staunch adherent of President Diaz and is strictly averse to hearing the name of Madero spoken. Abram Carrillo is the name he was known by in his Mexican home.

In an interview this morning Mr. King said that he could say but little of the conditions in Mexico at the present time as they left there May 11. Coalcoaman, where Mr. King was located, was not in the revolutionary zone while they stayed there but the town was attacked a few days after by the revolutionists who killed a number of soldiers. Shortly before the party left that place the revolutionists warned the townspeople that on the following Thursday they would attack the city. Only 12 federal soldiers were stationed at Coalcoaman, and these only as a means of precaution. Mr. King and family left on Sunday and in accordance with the warning the place was sacked a few days later.

Mr. King said that in his opinion the ascension of Madero to the president's chair would do a world of good for Mexico. President Diaz had these same reforms in mind but waited too long as the Mexican people are better educated than he realized and insisted upon their just rights. He also said that Mexico Mexico is very rich in minerals, timber and agricultural resources and only needed to be kept peaceful to develop these resources. He has extensive timber interests along the western coast and has no fear but what they will prove profitable under the new government.

Petition Asking for Passage of Ordinance Stopping Sale of Wares on Streets of City is Being Generally Signed by Business Men.

The business men of the city have started an active crusade against the peanut and other vendors on the streets of the city and are circulating a petition to the city fathers asking that an ordinance be passed to prevent anyone engaging in any merchantable pursuit on the streets of the city.

The petition which is being generally signed reads as follows:

To the Honorable Mayor and City Council of the City of Medford: We the business men of Medford do believe that the streets and alleys of this city should be used exclusively for the purpose of travel and not for business purposes and that the parties wishing to engage in business should be required to rent buildings and do business in same on the same basis as all other legitimate business houses of our city are doing.

We have various amounts of capital invested in our fixtures and stocks, and are paying taxes, rent and insurance on the same which goes to keep up the expenses of the city and make the town one of the best on the coast.

Hence we feel that all business should be on the same basis. To this end we, the undersigned, most respectfully petition your honorable body to cause such an ordinance to be passed to prohibit the transaction of carrying on of any kind of merchantable business in any of the public streets or highway of the city of Medford.

BURGLAR GETS EIGHTY CENTS

Breaks into Golden Rule but Secures Little Loot—Cuts Hole in Rear Door With Pocket Knife.

The Golden Rule department store at the corner of Main and Holly streets was broken into some time Thursday night and a pair of shoes and 80 cents in change taken. Nothing else is missing.

The burglar gained entrance by cutting a hole in the rear door with a pocket knife and turning the lock. Mr. Benton, one of the proprietors, discovered the burglary when he opened the store. The police have been notified, but no clue to the identity of the burglar is had.

The desk in the office on the upper floor was tampered with, but nothing was taken. The money was extracted from the cash register and the whole proceedings show the work to be that of an amateur.

COMING AT THE OPERA HOUSE, THE GORMAND-FORD CO.

Sunday, June 11, the Gormand-Ford company will begin a six night engagement at the Medford opera house. This is an eastern company which has been for seven years under the successful management of Harry Gormand. Featuring Little Miss Mildred Ford in standard repertoire. The company has of late finished a six weeks' stock engagement at the Margarite theater at Eureka, where they are well spoken of by press and public.

Sunday night they open up in the four act rural comedy drama "Wedded, but No Wife," which, is full of good, clean comedy and at the same time gives Miss Ford an opportunity to show her dramatic ability in the part of Elinor Howard.

The company carry their own orchestra and vaudeville people and there are no waits between acts, and from the time of the opening overture till the final curtain there is not an idle moment. The Vallejo Chronicle has the following to say of the opening bill:

"Farragut theater was crowded to the doors last evening when the Gormand-Ford company opened its engagement at the Georgia street show house. Many people were turned away, as the seats were sold out long before the show began.

"The opening bill was "Wedded, but No Wife," a screaming comedy, which proved to be all that the press notices claimed it to be. The company is a capable one, composed of clever people, and should have a successful engagement in this city. During the progress of the play some clever specialties were introduced, which made a big hit with the audience."

Is marriage a failure? Yes, is the reply of pretty Miss Genevieve Cunningham, leading lady at the U-Go theater.

For when playing the star role in the problematical drama recently Miss Cunningham became so imbued with the intensity of her part that she wrenched her spine and yesterday was packed in ice at the doctor's orders.

Efforts were made to secure an understudy, but it was impossible in the time allowed, so the U-Go theater

GERMANY MAY SEEK ALLIANCE WITH JAPAN

BERLIN, June 9.—"If America shows signs of adopting an unfriendly attitude toward Germany, we Germans will seek an alliance with Japan."

This statement is attributed here today to Count Von Reventlow, the naval expert. Americans, he says, are inclined to erroneously assert their strength on the basis of wealth and frequently take an exaggerated view of their power and influence which is almost humorous.

"The American people might well reflect," Count Von Reventlow adds, "whether their interests would be served by forcing Germany into a community interests with Japan."

was dark last night.

If the ice pack is as effective as the doctors predict, however, it is expected that Miss Cunningham will be able to continue tonight in her part as the mouse in the "Lion and the Mouse," which has been pleasing large audiences since the first of the week.

Sunday evening in addition to the regular performance, Mr. Klein will render a violin solo, playing the popular piece, "Silver Threads Among the Gold."

I am staunch, a fashionable chap—the famous, reliable swell Heidcap once caps were worn by the frowsy kid, or teamster or tough so the face was hid but now I'm in the ultra and classy lid. For the good Heidcap has swagger and snap, and makes of a chap an aristocrat. Of English cloth I'm made for they in England can beat us any day, at wearing cloth in a wearable way but I'm fashioned here in the U.S.A. I'm fashioned here with a sort of go, and swagger and lines that makes you know, that I am the sort that a fellow ought put on his head if he'd look just so. There isn't a thing that a cap should be, that you won't find built into humble me. Best of cloth and best of care in making a cap that's fit to wear—and the owner looks like a millionaire. There's an inference plain from what we said—the Heidcaps place is at the head.
