

GLEE CLUB WILL TOUR SOUTHERN OREGON

UNIVERSITY OF OREGON, June 13.—It has been definitely decided that the University of Oregon Glee club will tour southern Oregon next season. The manager, James Cecil, made this decision because it has been two years since the Varsity club made the trip through the southern part of the state.

No arrangements for the program have been made as yet, but the club will undoubtedly be better than ever. William Lal, the Chinese tenor soloist, who has had several very flattering offers from the Orpheum circuit, will be the feature of the concert.

Two years ago, when the club toured southern Oregon, Medford, excepting Portland, turned out the largest house of any town in the itinerary of the club. Furthermore, the trip through southern Oregon was the first in 16 years to prove financially successful.

WASHINGTON, D. C., June 13.—A large number of democratic congressmen are believed to favor the proposal to make the Panama canal free of all toll charges to coasting vessels. The democratic caucus, it is said today, soon will take action on the matter. If favorable consideration is given the measure by congress, it is understood the United States Steel corporation will build a big fleet of new vessels.

This committee will be known as the national committee on the regulation of railroads and public utilities. Among its members are Oscar Straus, former secretary of commerce and labor; B. H. Meyer and Franklin K. Lane, interstate commerce commissioners; Attorney General John C. Bell of Pennsylvania; B. E. Eckart, chairman of the Illinois railroad commission; Warren S. STREET VENDORS TO FIGHT ORDINANCE

The street vendors affected by the recent ordinance passed by the city council prohibiting them from selling refreshments in the streets are up in arms and intend to fight the matter in the courts if necessary.

Lawyers have been consulted and the vendors are of the opinion that they can sell their goods until their license expires and will not have to shut up shop June 20, as the ordinance requires.

E. L. Clark, peanut vendor, James Delaney ice cream distributor and A. Weston, also a cone man are the ones affected. Clark's license expires July 8 while the other two have a contract permitting the mto sell for one year.

They assert that they will sell until the license expires and not quit until then.

CRATER LAKE SEASON LATE

Will Be Impossible to Reach Lake Until Late in July Owing to the Large Amount of Snow Which Fell This Year.

The Crater lake season will be fully a month later than usual this year owing to the great amount of snow still remaining in the hills, due to the heavy fall of last season. Last year an auto reached the rim on June 16 but this year it will be much later.

There is still 10 or 12 feet of snow on the ground at Arant's camp while for miles in each direction the snow is too deep for travel either by team or automobile and this snow will remain for some time on the ground. A cold spring made the season late.

Canada to Fight Mormons.

OTTAWA, Ont., June 13.—The menace of the Mormon community to Canada was emphasized at the Presbyterian general assembly today, which went on record in favor of an active campaign against it. The matter came up on the report of a special committee which was presented by Rev. Dr. W. J. Clarke of Montreal.

That Mormons were, as a rule, sober and industrious people was the opinion of Rev. Dr. McLaren of Vancouver, B. C., but their religion pronounced some abominable principles and their morals were a positive danger to Canada.

FISH AND GAME BOARD COMING

Will Spend Several Days Inspecting Conditions in Southern Oregon in July—Will Test Aitkin's Fish Screen.

The state board of fish and game commissioners will visit Jackson county early in July for the purpose of inspecting conditions here, and will at that time also ask for a denunciation of J. C. Aitkin's fish screen on which he recently obtained a patent. If it is successful as claimed, the board will probably adopt it and have it installed in irrigation canals over the state.

The commissioners will convene at Salem July 5, after which they will start on a tour of inspection going direct to Klamath Falls. After spending two or three days there they will return to Klamath river where they will be shown over the country.

"I am going to build the finest, most up-to-date, and best fishway in the northwest at the Ament dam. It will be the best money can buy and then I hope that the Jackson county anglers will let up on this constant stream of criticism which has been directed at the dam and myself."

Such were the words of George E. Sanders, manager of the Chicago-Rogue company, owner of the Ament dam while in this city Monday, in response to a query regarding the passage of fish over the dam.

"For two years," he continued, "criticisms have been directed at the dam. Now I am going to end it all and build a fishway of concrete and of such size that it will end once for all all criticisms. It will be built under plans and specifications furnished by the master fish warden."

Medford, Or., May 16, 1911.—

This is to certify that about November 1 my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner of Tenth and Front street, Medford, Or.

CALDWELL, N. J., June 13.—Planted while the revolutionary war was in progress, by Josiah Bartlett, one of the signers of the declaration of independence, the Bartlett Oxheart cherry tree at Roseland today lays broken on the ground. The ancient tree was snapped off near the base by a heavy wind.

The tree was more than 15 feet in circumference and was one of the most noted landmarks in the district. It is probable that the trunk of the tree will be placed in the city hall as a relic.
