WASHINGTON, D. C., June 24.—Chester Morey of Denver, president of the Great Western Sugar Company, a \$30,000,000 New Jersey corporation, today told the Hardwick committee that Henry O. Havemeyer in his life-time had furnished great sums for the establishment of beet sugar factories in Colorado. Morey was president and a director of the most sugar factories before the consolidation.

### TRADE WINNERS

People pass by the windows that are gloomily lighted and are naturally drawn to the windows that are cheerily and radiantly lighted.

Which shall yours be?  
Night is the time your windows most appeal to most people, especially the people who work daytimes.

Night is the time these folks look around and decide on their purchases, largely.

You take pains in dressing your windows.

Why not take pains to light them with the light that is inviting, cheering, enticing, above all other lights—Electricity? We'd like to talk to you about the cost, which is agreeably little.

Ma yve send our representative? And if so, when?

### FAILED TO REACH CRATER IN AUTO

Party of Tourists Start for Lake But are Forced to Turn Back a Short Distance Beyond Whiskey Creek—Snow Still Heavy.

Dr. and Mrs. R. E. Golden of Marshfield and their daughter, comprising a party which is touring southern Oregon and northern California, failed to reach Crater Lake by auto being forced to turn back a short distance beyond Whiskey Creek. The car was stalled by heavy snow drifts which still remain in that district. The party was also forced to camp out one night in a snow storm.

The party left Thursday for the lake but after getting beyond Whiskey creek found the snow too deep for progress. Thinking they were near the lake they walked several miles over the snow and then turned back. They reached Medford Friday evening. They may make the trip to the lake on their return from California.

### SEVEN WET BOTH INSIDE AND OUT

Blaming the wetness of the heavens for their plight seven laboring men appeared before Mayor Canon Saturday morning and pleaded guilty to a charge of drunkenness. Hizer annexed \$35 or five bucks each.

The men through a spokesman all plead guilty. They explained that they were employed on various jobs about the city and that the rain had caused them to lay off. Not wishing to get wet outside they went inside and got wet anyway but inside not outside.

Home prosperity depends upon home industry, and state-wide prosperity will be greater if factories selling "Made in Oregon" goods are patronized by the local merchants.

### HOSPITAL NAMED "SACRED HEART"

Work of Excavating for Foundation is Progressing Slowly Owing to the Nature of the Formation—Institution Given Name.

Work is progressing very rapidly on the excavation for the 100 room Sacred Heart hospital which is being erected in this city by the Sisters of Providence on Nob Hill. The formation is a peculiar one and has held the contractors back to some extent as it the material seems too hard to pick and get not solid enough to use powder to advantage.

Many brick have been delivered on the ground preparatory to starting the walls. The foundation will soon be laid.

The Mother Provincial of the Sisters of Providence has settled upon the name "Sacred Heart" for the new institution, and by this appellation it will be known in the future.
