EARLY PEARS ARE GOING FOWARD

California Bartlett's Will Make Their Appearance About July 1—Crop Is Looking Fine—May and June Have Been Cold.

The California Fruit Distributors under date of June 24:

The following gives number of cars of deciduous fruit shipped from all points in California for the week (seven days) ending Friday morning, June 23, 1911.

Cherries: Forty-six cars. This week's report shows a gain of practically three cars over last week. The crop is now past its zenith and shipments may be expected to decline from this time on. The Santa Clara valley is the only section shipping at the present time.

Appricots: 78 1/2 cars. The apricot movement shows a heavy gain this week. Fruit is coming from several different sections and is being widely distributed. Up to the present there have not been enough cars of this fruit to go around. No difficulty will be experienced in future, however, in supplying the demand. Movement will continue for the next week for about the same volume if the demand justifies, after which time a material falling off will undoubtedly be noted. Fruit is of good quality, free from defects and is giving splendid satisfaction.

Peaches: 37 1/2 cars. Peach movement now consists very largely of the Triumph, of which variety straight cars are now available for quotation. Fruit is of fair size and good quality. Hales and St. Johns will follow. A few of them will probably make their appearance the latter part of next week. Crop of early varieties of peaches is very good.

BETTER PRICES FOR PORKERS

Last Week Saw An Advance Ranging From 10 Cents to 25 Cents—Demand for Swine Is On the Increase.

PORTLAND, June 26.—Receipts for the week have been: Cattle 1750, calves 248, hogs 2571, sheep 9808, horses and mules 64.

Best steers on the market this week sold for 6.15. Quite a bunch of light topky California steers brought this price. The majority of receipts in the cattle line have been of very mediocre quality and prices ranged accordingly from 5 to 5.75. One feature of the week's trading was the strength of the veal market. Receipts in this line were heavier than for some time past. One bunch of extra good stuff brought \$7.50, while another lot of 45 head not quite so fat brought \$7.00. Heavier calves range from 5 to 6. Top cows are quoted from 5 to 5.25 with very few of that quality offering.

The hog division continues to occupy the center of the stage, week marked by an advance of 10c on light hogs and about a quarter on heavier stuff, making tops respectively \$7.10 and \$6.40. Demand for swine is on the increase and local dealers are prophesying a steady advance in prices during the hot months of July and August when it is very hard to make eastern shipments.

Receipts in mutton remain heavy and prices have declined at least a quarter on heavier grades while top lambs are now quoted at \$5.85 as the extreme top for choice stuff. As feeders and buyers alike have predicted this decline for some time no surprise is occasioned by this slump which is due to come as a seasonal condition.

Several cars of horses have been received throughout the week and prices continue steady to strong on drafters and driving horses of quality.
