Iris, fourteen weeks old daughter of Mr. and Mrs. C. A. Peterson, died Sunday morning after a brief illness of intestinal trouble. The funeral was held Monday morning, services being conducted at the residence by Rev. E. C. Richards. Four little girls. Velma Davidson, Letsy Hodges, Blanche Harvey and Pearl Nowles, served as pall-bearers. The little casket was covered with flowers brought by sympathizing friends. Interment was made in the Rock Point cemetery. The entire community joins in

The valley, while it will not have a full crop of fruit, will make a pretty good showing in this regard. The Shipley, Miller and Fitzgerald peach orchards promise a half a crop of more of excellent size and quality.

The city council, at its regular meeting Monday evening, heard the report of the charter commission, appointed to draft a new charter for Gold Hill. The commission, composed of J. H. Beeman, W. G. Myers. J. Q. Jarvis and J. L. Hammerly, recommended that under the new charter the city should be governed by six councilmen, two from each of the three wards, and a mayor elected at large, the mayor to appoint the marshal and fire chief. The new charter will embody up to date features not possessed by the present one. It was decided to hold an annexation election for that part of town lying south of the Southern Pacific track and west of the south line, at present not included in the corporate limits. California Fruit Distributors Report Shipment of Twelve Cars During Past Week-Fruit Still Too Green

to Be Attractive. The California Fruit Distributors

inder date of Sacramento, July 8 re

The following gives number of cars of deciduous fruit shipped from all points in California for the week (7 days) ending Friday morning, July

7th, 1911. Cherries: 17 cars. This fruit is now early done.

Apricots: 37 1-2 cars. A little more han half as many cars were shipped this week as during the preceding one. Scattering shipments will continue to go forward for the next few days, Movement last year was 290 cars. It is doubtful if it will reach FOR RENT-Nicely furnished room a total of 225 cars for the present

Peaches: 63 cars. Again this week slight increase in shipment is noticed. It probably will be considerab ly greater during the coming seven days, when a movement of approximately 100 cars is expected. St. John and Hales now constitute the bulk of the movement. They will continue in ample supply during the next ten days and will be followed by Imperial and Early Crawford. A few boxes of the former have already made their appearance.

Plums: 141 3-4 cars. The plum movement is now in full swing. All plums being shipped now are of fine quality and many of them grade as fancy. The crop of plums in the river districts, and in Placer county, will not be as heavy as expected earlier n the season.

Pears: 12 3-4 cars. A few Bartlett are now going forward, but the fruit is still too immature in most cases to terially increase during the coming week, and the quality will improve from day to day.

There is no change in the grape situation, which continues generally very fine. A little mildew is being reported in the irrigated districts, but having been quickly cared for, will probably not affect the output Thompson Seedless Grapes are expected to move out of the Imperial district next week.
