Eating is Dangerous.

PORTLAND, Or., July 12.—"People must learn that eating is absolutely dangerous."

This somewhat startling assertion served to hold the attention of delegates to the annual meeting of the Oregon State Medical association, in session here today, and the address of Dr. J. N. Hurly, who made the statement, is being discussed with interest. Dr. Hurly, who is state health officer of Indiana, said that poor food or gorging causes self-poisoning among 90 per cent of the people, and declared that the unwise use of foods has caused more deaths

and suffering than all the wars and pestilence in history. Wrong eating, he said, is the source of nearly all prevalent diseases.

Moderation in eating and a greater degree of cleanliness in preparing for orders are the remedies advocated by Dr. Hurly.

HAMMOND FAMILIAR WITH KING; GETS AWAY WITH IT

LONDON, July 12.—Although John Hays Hammond and family are today harrying on their way to Scotland, a story has leaked out about the American envoy to the coronation which exemplifies that royalty likes to be treated as ordinary humanity. It seems that during a dinner of Sir Edward Grey's to the king at the foreign office, Hammond casually touched the elbow of the king and said:

"I should think, sir, that you would be gratified that everything passed without a hitch."

The king replied with a smile that he was glad to hear Mr. Hammond say that.

Following the dinner Hammond was severely criticised by a number of the guests for his rude action, but the pleasing manner in which the king replied has caused the remark here that even royalty likes to be treated informally on occasions.

THINK DYNAMITE SUSPECT WILL BE NABED SOON

LONDON, July 12.—That Bernard Kaplan and M. A. Burns prior to his preparations for his departure tomorrow for the United States.

Burns said Kaplan and Schmidt are near the end of their run and that detectives are today so close on their trail that capture probably will be effected before the end of the week.

"I would have had them long ago," said Burns, "if the newspapers had not warned them that I was on their track."

AMBULANCE SERVICE

PLAN CONTROL FRUIT SHIPPING

CHICAGO, Ill., July 12.—With the opening of a new fruit auction warehouse here by the Illinois Central lines, it became evident today that the Harriman system plans to haul the bulk of the fruit shipments to Chicago. The Union Pacific and the Southern Pacific lines, through the Pacific Express Refrigerator Line, carry about four fifths of the Pacific Coast fruit and the Illinois Central hauls ninety-five per cent of the fruit from New Orleans to Chicago. By this system of fruit auction rooms and refrigerator cars it is easily seen that the Harriman lines are now in control of the fruit shipments.

BOX OF MATCHES IN CONGRESSMAN'S POCKET IGNITED BY HEAT

WASHINGTON, D. C.—When the heat ignited a box of matches in the pocket of Congressman Willis of Ohio there was a near-panic on the floor of the house today. Willis was uninjured.

The mail order houses of the East would not be so prosperous if the people of this community would insist on having "Made in Oregon" goods from the local merchants. The business of this community would be better conserved if the buying public and the merchants would help along the "Made in Oregon" idea.

DRESSING YOUR HAIR FOR GRAND OPERA

(Annie Bly in N. Y. Graphic.)

"After studying the gowns and noting the jewels I gave my attention to a comparison of the different coiffures. I have heard so much about dry shampooing being all the rage this season that I wondered if there would be any difference in the styles of dressing the hair by the grand ladies whose beauty adds so much to the attraction of grand opera for everybody.

"A dry shampoo once a week keeps the scalp soft and pliable and the hair fresh, clean and beautifully lustrous. A little of the powder can be dusted on the hair and thoroughly brushed out whenever an especially elaborate coiffure is desired. The powder is a simple mixture of four ounces of orris root and four ounces of therax.

"One realizes why dry shampooing is so popular when one considers that too much moisture makes the hair dull, coarse and faded looking, and the long hours of waiting for the hair to dry are avoided."

STILL ARGUING ON INDICTMENTS

LOS ANGELES, Cal., July 12.—Judge Bordwell announced today that the defense had not furnished sufficient proof of grand jury bias to warrant the quashing of the indictments against the McNamara brothers, and stated that he was ready to hear additional arguments on other affidavits on which the defense asked that the indictments be quashed.

This means that while the indictments will not be quashed on the ground of bias, there is a possibility of them being quashed for other reasons.

Judge Bordwell then asked to hear from both the defense and prosecution on the defense's motion to quash the indictments on the ground that Earl Rogers, engaged by the Merchants' and Manufacturers' Association to probe the destruction of the Times building had no regular right to present the prosecution's case to the grand jury as the defense alleged that he was not a legalized district attorney.

FIFTY LOSE LIFE.

(Continued from Page 1.)

Oscoda included Mrs. Dris Diamond, who was a survivor of the Iroquois theater fire in Chicago. Describing the disaster at Oscoda, Mrs. Diamond said:

"The flames spread so rapidly that people by hundreds were compelled to rush from their homes to nearby lakes and swamps. I saw many women and children fall exhausted and it is incredible that all could have escaped alive. My sister became separated from me in the awful rush and I do not know whether she is living or dead."

Reports reaching here today from the fire zone are that flames are raging in the outskirts of Traverse City; that most of the town of Trowbridge has been destroyed; that Millersburg, Larouque and Onaway are gone and that LeGrange, Lewiston and Bay Shore are in desperate straits. Fires are gaining on the fire fighters near Lake City and that town, too, is in danger.

LANSING, Mich., July 12.—So serious is the danger to Michigan towns throughout forest fires today that the entire National Guard of the state is to be called out for service in the fire swept region.

The mayor of Oscoda has asked that a company of infantry be sent at once to patrol his ruined town.

He is one of the leading progressive business men of southern Oregon and has lived his entire life in Jackson county. The other officers of the institution have long been associated with the bank and the only change made at the annual meeting was the substitution of Mr. Gore as president.
