

NEW BUILDING FOR CHAUTAUQUA

Billings Is Re-elected President—Is Given Ovation—Will Raise \$20,000 for Erection of New Building—Work to Start Soon.

ASHLAND, July 22.—The closing of Chautauqua was more in the nature of a real jollification and good fellowship meeting. All present were filled with rejoicing because of the educational, social and financial success of the session, and because of the promise of a fine new building for the 1912 session.

At the annual meeting of the life members resolutions were adopted to the effect that a new building should be erected not to exceed a cost of \$20,000, this sum to be raised by subscription and bonds.

The directors plan to raise sufficient funds this summer that the concrete work can be completed before the fall rains. Fortunately the concrete foundations for the new structure is of such proportions that it can be constructed around the present building, and then the old auditorium can be used while the new one is being built.

The election of officers took place Tuesday, and when it was announced that the veteran president, G. F. Billings, was re-elected he was given a veritable ovation by the large audience who had assembled for the closing of the session. Other officers were elected as follows: Vice president, J. S. Smith, secretary, W. H. Gillis, treasurer, F. H. Carter, trustees, W. A. Patrick, H. L. Whited, C. W. Root, E. E. Bagley, G. W. Trefren, honorary vice presidents, H. C. King, Grants Pass, Mrs. F. D. Lawton, Medford, W. D. Holdridge, Talent, A. J. Hanby, Central Point, Mrs. W. A. Gridley, Edgewood, Mrs. W. R. Parshall, Montague.

CAST HIS BREAD UPON THE WATERS: IT RETURNED

ATLANTA, Ga., 21.—Because he surrendered his lower berth to J. T. Young of Oakland, Cal., four years ago while en route to Florida, William R. O'Neal of Bainbridge, Ga., has been remembered in Young's will to the extent of \$20,000.

MORRILL FIRST AT RIM WITH CAR

Returns From Trip to Crater and Says Roads Are Not Bad—Only Difficulty Was Experienced Near Rim in Snow Banks.

Jack Morrill returned Thursday evening after a short visit at Crater lake, being the first man this season to drive a car to the rim. The car reported to have reached the rim at the first of the week failed to do so by a quarter of a mile. No trouble is reported by Mr. Morrill aside from the fact that bucking snow drifts with a car is hard work. He reports the roads in excellent condition and is loud in his praises of the Pumice hill grade.

Mr. Morrill reports that within three days autos can make the rim of the lake with comparative ease. He says the Crater Lake company today moved its hotel supplies up to the rim with rigs and are preparing to open the hotel on top of the mountain. The snow is going very rapidly during these hot days and while there is several drifts yet on the last mile this can easily be driven through with a team now and a few more days will leave the roads open to allow autos to make it easily.

The telephone line has been repaired to the headquarters and men are working on it to the rim. This will be completed within a few days so communications will be had with the outside directly from the lake rim.

WICHITA PEOPLE TO RECALL THEIR MAYOR

WICHITA, Kan., July 21.—Sufficient signatures to ensure an election for the recall of Mayor J. H. Graham, prohibitionist, have been obtained by Graham's opponents. Petitions against City Commissioners Leach and Campbell are also being circulated.

McLaughlin Wins Match.

BROOKLINE, Mass., July 21.—In the tennis matches here today in courts of the Longwood Cricket club, M. E. McLaughlin of California, defeated R. C. Seaver, champion of Massachusetts, in straight sets. M. H. Long also defeated W. M. W. Hall of New York in straight sets.

'DEAR PUBLIC' IS ONLY SUFFERER

So Declares John E. Parsons, Who Claims to Have Organized the Sugar Trust On Its Present Basis—Probes of Little Value.

NEW YORK, July 21.—Grim declaration that "the dear public" is the only sufferer as the result of government attempts to prevent trusts was made today to the Hardwick house committee which is investigating the sugar industry by John E. Parsons, the New York lawyer, who claims to have organized the industry on its present basis.

"The sooner the politicians realize that their efforts to prevent combinations of capital from increasing the prices of all commodities," said Parsons "that the dear public is the only sufferer by their attempts, the better it will be for the country. Capitalization of corporations on the basis of actual physical valuation of their property is a joke. The future must be capitalized, as must also opportunities. The government must keep its hands off."

On cross-examination Parsons launched into a complete defense of trust methods. He said that "meddling politicians" were the curse of the country, and that the regulation of capital was "almost a crime."

Parsons declared that the sugar trust, as constituted in 1887, was the first sugar monopoly organized in America.

SPOKANE CITY HALL BOND ISSUE FAILS TO CARRY

SPOKANE, Wash., July 20.—The city of Spokane today faces the prospect of having no building in which to transact its business next year as a result of the failure of the \$650,000 bond issue for a new city hall, to carry. Yesterday the city commissioners declared the proposition had carried by 17 votes, but today it developed that the state constitution requires a three-fifths majority, hence the bonds are defeated.

The old city hall has been sold to the railroads and must be vacated next March. No new hall can be built this year, because there are no funds.

DR. MURPHY IS CHARMED BY LAKE

Declares It to Be Most Beautiful Spot He Has Ever Seen—Its Beauty Cannot Be Explained in Words, He Says.

Dr. John H. Murphy of Chicago, president of the American Medical association, and inventor of the famous "Murphy button" for use in operations for appendicitis and diseases of a like nature, has been captivated by Crater lake. Dr. Murphy returned from the lake Thursday night and declares that its vivid beauty cannot be adequately voiced. Dr. Murphy will leave this evening for Portland where he is scheduled to deliver an address Saturday.

Dr. Murphy on his return from the lake declared that national wonder to be the most beautiful spot he has ever visited. He intends to induce a number of his friends to visit it in the future.

MODEL CLOTHING STORE TO MOVE

Will Occupy Quarters to Be Vacated by Medford Furniture Company One Door West of Their Present Location.

The Model Clothing company expect to move to their new quarters within the next 30 days. The store they will occupy will be the building now occupied by the Medford Furniture company and is one door west from their present location.

The new quarters will be overhauled and made new in many ways. A new and modern front will be put in, new floors will be put down and the walls kalsomined.

The Model company will occupy the first and second stories of the building and they will add a little gent's department to their present line.

CARE OF THE HAIR IN COLD WEATHER

(From the Southern Christian Chronicle.)

"Many women take a needless risk in caring for the hair and scalp in cold weather. In spite of the utmost precautions danger of catching coughs and colds is always present when the hair and scalp are washed.

"It is said that too much moisture is bad for the hair because it makes the scalp hard and sealy and the hair coarse and brittle. A dry shampoo not only removes all dust and excess oil, but is soothing, refreshing and invigorating to the hair follicles. Some use plain orris root for shampooing but it is not so satisfactory as a mixture of four ounces of orris root and four ounces of therox.

"If anything will grow hair, therox will and it at least will make any hair light, fluffy and luxuriantly glossy. Just sift a tablespoonful on the head once a week, or whenever you wish to dress the hair for a special occasion, and brush the orris root and therox completely through the hair."
