

ERICKSON'S WORK IS APPRECIATED

Gets Out Data on Forest Fire Fighting for Guidance of His Rangers and It is Sent Throughout Entire Northwest.

Owing to the excellent instructions contained in a pamphlet prepared for the use of his rangers in guarding the Crater Lake national forest, M. L. Erickson, the supervisor of the local forest, has been paid a signal honor by the department. His pamphlet has been prepared and sent throughout the northwest to all of the forest officials in Oregon, Idaho, Washington and Alaska for their guidance. The department at Washington will later probably send this pamphlet to every forest official in the United States.

The pamphlet prepared by Mr. Erickson was sent by him to all of his rangers. A copy was also dispatched to the district headquarters in Portland from which office it was distributed. District Forester Cecil compliments Mr. Erickson very highly on his work.

RATE RULING WILL APPLY TO THIS CITY

(Continued from Page 1.)

If the application was a blanket request for relief of the entire tariff without any provision or specification as to routing or community, the commission's order disposes of the complete tariff. There does not seem to be available to anyone in the west copies of the applications so as to determine the language used and exactly what relief was sought.

All Interior Affected.
If the applications passed upon in the opinions of the two cases cited include all those made by the carriers covering the interior Pacific coast country, and these applications simply identified tariffs under which relief was asked, the opinions and orders of the commission clearly indicate that all interior sections east of California and North Pacific coast terminals directly upon a main line are included in the order of the commission set out for Spokane and Reno, and in such event Medford and all southern Oregon is accorded the rates from the various zones through the El Paso gateway, commonly known as route 66.

In other words, this would mean that one rate from Texas Medford would get the Portland rate, on canned oysters from Louisiana points 107 per cent of the Portland rate, and upon class rates Portland rates from all zones.

Of Great Importance.
This is a matter of tremendous importance and absolute certainty as to the intentment of the commission's orders will be early sought. At present the carriers desire not to believe the ruling includes the "Shasta Route," and Portland argues likewise. But when it is considered the applications were filed independently of all cases before the commission and specifically under the amended fourth section, and that consolidation in hearing and argument with the Spokane and Reno cases was only for facility and convenience in their disposition, the ruling of the commission upon the applications were independent of the Spokane and Reno cases; therefore, the denial of allowing higher charges to intermediate points upon the commodity tariffs naming rates to all Pacific coast terminals must include the "Shasta Route" as provided in those tariffs.

Medford Will Secure It.
If the commission should interpret its orders as not including territory north of Marysville intermediate with Portland, relief upon the principle set down in the Reno case will be granted to this section by bringing action before the commission praying that this be done. Therefore, in either event, that of the order of the commission now grants the principle to this section, or will be granted by petition, Medford will secure the adjustment ordered in by the commission in the Spokane and Reno cases.

NINE MILES OF EXPOSITION SITE

Beginning at Telegraph Hill Harbor View, Presidio, Lincoln and Golden Gate Park Will All be Connected by Boulevard.

SAN FRANCISCO, July 29.—The site which the directors of the Panama-Pacific International Exposition Company have selected for the exposition grounds in 1915 is described as follows:

Commencing at Telegraph Hill and by means of a boulevard along the bay front connecting in turn, with the Harbor View site, the Presidio, Lincoln Park and Golden Gate Park. The length of the proposed boulevard is estimated at between eight and nine miles.

These various sections of the site will be connected also by an inter-mural railroad, which, according to present plans, will run along the south sides of Harbor View and the Presidio and then break off, skirting Lincoln Park and running through Richmond district to Golden Gate Park.

The various features of the exposition grounds will be distributed as follows, according to the tentative plans under consideration:

Several Novel Features.

Harbor View: Of the territory bounded by Fort Mason, Lombard street, the Presidio and the bay front it is proposed to utilize between 250 and 300 acres. Here will be located such heavy exhibits as the transportation (locomotive) machinery and, perhaps, the manufacturers' building; also the concessions and other features that will constitute the night life of the exposition. It is not proposed to do any filling in at the water front, but to construct there a yacht harbor, an aquatic park and other water front features of the exposition. An aquarium is suggested for the present site of the Fulton Iron Works.

The Presidio: It is expected that the United States government will erect here its government buildings and exhibits, which, it is suggested, could be afterward used for division headquarters.

Lincoln Park: Lincoln park is to be devoted to scenic features, and for that purpose improved and beautified. A giant commemorative statue at the summit, commanding the entrance to the harbor, is contemplated. Picturesque cafes and gardens are to be located here.

Various State Buildings.
Connecting Lincoln Park with Golden Gate Park it is proposed to utilize some 200 acres of land in the Richmond district. Here will be located the foreign, state and counties' buildings and the horticultural, electrical and other exhibits.

Golden Gate Park: Golden Gate park is reserved for the construction of only permanent features that are calculated to add to its attractiveness without destroying any of its natural beauty. Here are to be located the museum and art gallery, also Japanese and Chinese gardens, fountains and statuary. It is proposed to make the Stadium the finest in the world and to build a Coliseum around it. Another feature will be a miniature Panama canal connecting the lakes. Only the section west of Twentieth avenue is to be used for exposition purposes.

Telegraph Hill: It is proposed to commemorate the use to which Telegraph Hill was put in early days by erecting thereon a large wireless telegraph station. The hill is to be terraced and a permanent observatory erected on the city park.

Ferry the Entrance.
Other features The ferry at the foot of Market street is to be made the entrance to exposition city. There will be a grand court and, possibly, viaducts to conduct passengers from either side of Market street. Market street to be improved and beautified with electric light features; also Van Ness Avenue. An auditorium or convention hall is designed for Van Ness avenue at Market street.

The main entrance to the exposition grounds will be located near Fort Mason, with others at Lincoln and Golden Gate Parks.

The people of this city should buy "Made in Oregon" goods from the local merchants whenever the price and quality are equal to Eastern made goods.

AGENTS FOR BUICKS AND LOCOMOBILES CRATER LAKE GARAGE

GASOLINE OIL AND SUPPLIES

CHANCE QUITS FOR PRESENT

FRANK CHANCE

Like Evers, Frank Chance of the Cubs has been out of the game most of the season. All indications point to his not returning to the diamond again this year.

FIRST CARLOAD PEACHES SOON

Producers Fruit Company Will Send Out First Car of Season Next Tuesday From Talent—Entire Crop Will Be Over 40 Carloads.

The first car of peaches to be shipped from the valley this year will be sent from Talent next Tuesday by the Producers Fruit company. A large number of shipments have been made by express but no car have yet left the valley this year.

The growers are receiving a good price for the fruit. It is estimated that at least forty cars will be shipped this year from valley points.

APPELL'S South African WATER BAG

Keeps water cool 48 hours or longer, in sun or shade; great boon to prospectors, surveyors, sportsmen, stockmen, farmers, teamsters, anyone exposed to dry or warm weather. Used by U. S. Gov't. Strong, light, easy to carry. Guaranteed.

This Letter Typifies the Attitude of All Users

Gentlemen: While in Nevada recently I had occasion to drink out of one of your South African Water Bags. Water from the bag certainly tastes good on the ground. We used one of your 2 1/2 gallon bags and the water remained cool all day, even though the temperature was 100 in the shade, and in the morning I found the water sparkling and as cold as ice water. It certainly is a boon to those living in the arid regions. Yours sincerely, W. E. WIDER

FRED PALOUSE WINS IN COURT

Jury Hearing Water Case Near Eagle Point Brings in Verdict in Favor of Defendant Charged With Obstructing Ditch.

Fred Palouse, a rancher living on Little Butte creek, was found not guilty by a jury of the charge of obstructing an irrigation ditch. The case was bitterly fought, but Palouse showed that he had not interfered when the obstruction was removed by the company owning the ditch.

Palouse was a member of the Butte Creek Irrigation company and after he had built his ditch he found that it was too high to receive water. So he raised the dam constructed by the company. It was this that the charge was based upon.

FATHER VAN TO LEAVE MEDFORD

Well Beloved Catholic Priest Ordered to St. Paul, Ore., Much to Surprise and Regret of Parish and General Public—Is a Progressive Citizen.

Rev. Francis Van Clarenbeek, pastor of the Church of the Nativity of Our Blessed Lord, on South Oakdale, has received notice from Archbishop Christie transferring him to St. Paul, Oregon, to take charge of the Catholic church there August 13. He will preach his farewell sermon next Sunday.

Father Van, as he is affectionately termed by his parishioners and the general public, is one of the best loved and popular clergymen in Southern Oregon and his departure evokes wide spread protest amongst all classes. He has built up his church from nothing to one of the largest congregations in the state.

A good booster and a loyal citizen, Father Van will be greatly missed by all. He has taken an active interest in the welfare and growth of the country and been instrumental in securing many new residents as well as investments. The new church and pastors, residence, were constructed by him, and he assisted largely in securing the new hospital.

\$10 REWARD.

I will pay a reward of \$10 for information leading to the recovery of my team of mules, which strayed away on Friday, July 28.

Consult Our Marinello Operator

Find out just what you need in the way of treatments and preparations. Consultation is free—and it will save you much care and responsibility if you put yourself in the hands of our Marinello expert. Your satisfaction will be beyond what it costs you in dollars and cents.

OUR MARINELLO PREPARATIONS
are pure cosmetics, made from the best materials that money can buy. They are compounded by skilled chemists into delicately odorous creams and ointments which never fail of giving desired results.

OUR MARINELLO OPERATORS
are not miracle workers. They are simple, natural methods for working with Nature to produce beautiful, natural results.

OUR MARINELLO TREATMENTS
are taught the scientific physiological reasons for the treatments they give. They work intelligently, so cannot fail to help. A treatment given by a Marinello Operator in our well-equipped shop is at once rest, recreation, relaxation and infinite benefit, both locally and to the whole nervous system.

Marinello is the only Beauty Culture System using the celebrated Prismatic Ray. This in connection with Marinello Preparations has accomplished really wonderful results with stubborn cases of skin and scalp trouble.

Our Marinello Certificate of Merit is your guarantee of satisfactory work done under satisfactory conditions.

Consultation Free

The best advice of experienced Marinello graduates is at your service free of charge. Facial and Scalp Treatments, Manicuring, Hair Dressing and Chiroprody according to the famous Marinello System only.
