

Both Men Eagerly Await the Tap of the Gong Sending Them Away

TOMMY GAFFNEY

BETTING ODDS FAVOR NELSON

Both Men Ready for the Boxing Contest to Be Held at the Medford Theatre Tonight—Gaffney Has All to Win by Making Good.

"Bet your money and take your choice."

That is the way the Medford sports have figured out the boxing contest to be held this evening at the Opera House between Tommy Gaffney of Spokane and Battling Nelson of Heddewich, Illinois. Nelson is a shade the favorite but Gaffney has many loyal backers who believe that he can go the ten rounds in a fast shape and in a manner surprising to the Durable Dane. It may be the "Durable" Gaffney tomorrow who will be touted in the sporting world. Tom has everything to win by this contest and realizes it, so he will be there from the start to the finish. Nelson on the other hand still believes that he will some day again hold the championship and realizes that a defeat at the hands of an "unknown" will put him out of the running for all time.

Both of the men are eager for the gong which will send them away on the ten round route. Both have trained faithfully for the contest and are in good shape. Nelson has lost much of the fat which adorned his features on his arrival two weeks ago while Gaffney looks fit to enter a race with a whirlwind. Their condition augurs well for ten fast rounds.

The preliminaries will be here a million. Fandom is anxious to see the first preliminary will start at 8:45 p. m. sharp. Every thing will

BATTLING NELSON

—By Courtesy San Francisco Examiner.

again. Last time Jones won in the fourth but Chic is sure back into shape and had been training on something besides shoving this time. He can take the gaff. The second preliminary between Neil and Smith will also be a lively bout.

follow in fast order, the main event being scheduled for 9:30. Russell Hanner will be the third man in the ring. Bob Teller will hold the tickets.

BALLINGERISM IN NEW FORM

LaFollette Says That Taft's Controller Bay Policy Is Simply Continuation of Old Method—President Allowed Ryan to Grab Land.

MADISON, Wis., Aug. 4.—That President Taft's conservation policy is the same old "Ballingerism" is the charge made in the current issue of LaFollette's Weekly, published today. The magazine reviews the recent special message on the Controller bay land grants and after asserting that the president admitted all the facts comments as follows:

"This is the meaning of Taft's statement regarding Controller bay. The Pinchot-Roosevelt conservation policy, contemptuously discarded at the beginning of the Taft administration, is still distasteful to the president. These lands skirting Controller bay should never have become open to private individuals. That is the essential fact in the controversy. The manner in which Taft allowed Richard S. Ryan to get a foothold at that strategic point illustrates Taft's methods. Taft admits the essential facts. He let the land go. That is the important thing. What induced him to let it go in an unusual manner to these particular candidates, the present investigation may disclose."

ALBANY, Ore.—Light rains in the mountains of Eastern Linn county, have done much in reducing the danger of several small forest fires that are spreading.

START WORK NEW MANY DEER ARE FISH WAY MONDAY SEEN IN HILLS

Crew of Men Under Direction of Deputy Fish and Game Warden Sandry Will Make Extensive Improvements at Gold Ray.

Deputy Game Warden Burgess Baack From Trip In Prospect Section—Says Continuous Stream of Campers Are Going In.

Work on the construction of the new fishway at Gold Ray will start Monday morning under the direction of Deputy Fish and Game Warden Sam L. Sandry. The present fishway will be extended 15 feet, a pool will be constructed at the bottom and rocks removed from the channel. Some time ago Colonel Frank H. Ray stated that he would bear the expense of a new fishway to be constructed under the supervision of the state. When completed this fishway will correct all of the existing evils at the dam as far as fish are concerned.

There are more deer roaming the hills of southern Oregon this year than in a decade according to reports being brought to this city by residents of outlying districts. Nearly every hunter is meeting with success and are securing good bags.

Deputy Game Warden A. C. Burgess, who has just returned from a trip into the Prospect country, states that many deer have been seen in that district. One ranger near Brown's cabin states that he counted 40 in one bunch traveling before a small forest fire in that district. Mr. Burgess states that there is a constant stream of people going in the hills. On his way back he met over 100 parties headed for the mountains.

SOIL CONDITIONS IN VALLEY REMARKABLE

Professor Marbut, chief of the field work of the United States bureau of soil survey, is in the city conferring with A. T. Strahorn who is in charge of the work of making a soil survey of the Rogue river valley. Prof. Marbut is accompanied by P. G. Lapham who is his chief assistant.

Prof. Marbut is greatly pleased with conditions he has found in the valley, and states that they are the most remarkable he has found in his tour. He is a new man in the service and this is his first visit throughout the country. He has recently appointed to the position from the University of Missouri where he was an instructor.

ASHLAND CUTS RATES ON LIGHT AND POWER

A cut of approximately 40 per cent under the present rates of the A. E. P. & L. Co. is made by the city of Ashland in its schedule of rates which it proposes to put into effect when the municipal electric light system is put in operation about the 20th of this month. The schedule, as prepared by City Electrician Butterfield and the electric light committee, was approved by the mayor and council at the meeting Tuesday evening, with the exception of a minor change which is going to be made. It puts the rates about on a parity with those of 1905 before the local company boosted its charges.

Boosting for LaFollette. MADISON, Wis., Aug. 3.—Plans to capture delegates to the republican national convention who will support the LaFollette claim for the presidential nomination are being considered today here by the Wisconsin state branch of the National Progressive league. LaFollette's friends plan to carry their fight for him into every state in the union.

TO MAKE HAIR CLEAN AND GLOSSY

(From the Toronto Times) "Your hair will grow in beauty and color, and brilliance and luxuriance, if you will stop drenching and rinsing it with soap and water and use only a dry shampoo powder, sprinkled on the head once a week and brushed thoroughly through the hair.

"More dry, dull, brittle and faded hair can be traced to too much moisture than to any other cause. A good shampoo powder will remove every particle of dust, oil and dandruff from the head, leaving the scalp clean, cool and refreshed and the hair glossy, soft and silky.

"To make a shampoo powder simply mix four ounces of therox with four ounces of orris root. Therox tones up the hair from root to tip, and you need use no other tonic."

Quick Death to Hen Lice and Mites

Hen lice, chicken lice, and mites, cost the poultryman more money than all the other pests of poultry a year combined. They are responsible for more disease and more loss of eggs than all other causes together. They attack brooders and nesting places, and multiply by tens of thousands a week. But they can be easily exterminated at a slight cost compared to the saving.

CONKEY'S INVINCIBLE TRIO—

Lice Powder, Lice Liquid and Lice Ointment—does the work. Conkey's Lice Powder will kill all body lice. An unequalled disinfectant and a positive germicide. 21c; 50c; \$1.00.

Conkey's Lice Liquid is a powerful disinfectant to quills and lice. A germicide and preservative. Penetrates quills where powder will not. Restores to form of any comb. Or. 15c; Cal. \$1.00.

Conkey's Head Lice Ointment is the only positive exterminator on the market for the parasites that nestle little chicks and cause them to droop and die. 15c and 25c.

Three wonderful remedies and in quantities to suit you. Complete directions with each package. Used by thousands of poultrymen throughout the United States. Beware of cheap imitations.
