A citizen named H. Gink writes to know what has become of our crusade against the lawn sprinklers that wet pedestrians. We can only reply that we are gaining ground and that by mid-winter we will have it stopped.

Keep up the acclamation for we must win before the next fourth. In this connection I wish to announce that I will do the work free of charge if the club will furnish me the old lights. Keep my name on your files.—K. J.

KIRBY YOUTH VICTIM OF HUNTING SEASON

GRANTS PASS, Or., Aug. 22.—The first victim of the deer-hunting season was the son of H. A. Spencer, a lad of about 15 years, who resides with his mother on a homestead near Kerby.

Spencer, in company with three other men, was attempting to put a fire around the homestead. He left his companions and went down the hill through the brush and smoke and as he emerged into an opening one of the men left behind mistook him for a deer and opened fire, a bullet striking him in his right arm.

Spencer was brought to town and left for Ashland where his family resides. The name of the shooter was not discovered.

REGULATION — NOT DESTRUCTION.

TO MANY who give the matter thought, the efforts of the federal government to break up trusts, monopolies and other co-operative movements seem wasted effort.

What is the use of compelling the reorganization of the oil trust, the tobacco trust and other concerns under some slightly different form? The evil still remains, along with the good.

The central idea of the commercial combination, the principle upon which its success is builded, is elimination of economic waste. It is a sound principle and one bound to prevail.

Associated effort, whether among industrial enterprises or among producers and toilers, should be encouraged, rather than made a crime. It results in mutual benefit.

The abuses growing out of combinations are not due to the impelling principle of co-operation. They are the result of greed on the part of the promoters.

Regulation, not elimination, nor segregation, is the proper remedy for combination.

In the process of time, evolution will consolidate these various combinations into still larger consolidations. The principle of regulation will have gradually expanded into that of co-operation.

In the United States today officials of industrial trusts, of co-operative farmers' associations and of labor unions are under indictment for the "crime" of co-operation for mutual benefit. Really an absurd situation and one which tends to frighten away prosperity and halt progress.

The nations of Europe, more experienced in the government of men, encourage co-operation rather than attempt to destroy it—but the evil effects are prevented by regulation. But in America wrecking takes the place of regulation.

Co-operation is a world-wide movement. Civilization is nothing but co-operation. So efforts to destroy it are worse than folly.

COMMUNICATIONS.

Every organization that has for its password the kingdom of God among you is organized for the benefit of that organization alone and tends to make the rich richer and the poor poorer, and therefore the throng for that reason is being augmented at the forks of the road to a degree.

To that throng the password is the kingdom of God is within you. Therefore organize, but only to organize not for your own aggrandizement to the injury of someone else, but to organize to organize as (x popul box Da). The voice of the people is the voice of God and when you know that the kingdom of God is within you, you will receive the first dividend in the shape of all earthly blessings. Therefore the man or woman who depends on themselves depends on God and you can not go astray unless you follow the other crowd. There is a wide difference in self reliance and selfishness.

The other side can take selfishness along with them as it is their legitimate child.

More anon. S. KEMPTHORNE.

Editor of the Mail Tribune. Dear Sir: I hear that there is a very bad disease coming to the state of Oregon. It is called the Prune entis and if you would put in the columns of your paper I would be pleased. For I do not understand what it is. I hear it is coming from the Willamette valley. Perhaps it would be a good idea for you to put it in the column of your paper. Will you please give a history of prunecitis.

A. F. Yours truly, CLARENCE ROBINETT.

PORTLAND, Or.—Fifteen fire companies, the entire equipment of the West Portland and one from the East Side were called out late last night because a bed quilt was afire in a residence on Caruthers street. The fire was extinguished with a bucket of water.

FIRST CAR OF PEARS CHICAGO PAR BID FOR BONDS OF CITY

Pear Shipping Season Is at Its Height With From Three to Five Cars Going Forward Daily—First Sale Will Be Made Soon.

The first car of Rogue River pears this season from the Rogue River valley reached Chicago Tuesday and will be sold within the next few days, although it may be diverted to New York.

The pear shipping season is at its height now, from three to five cars going forward daily. Shipments will continue for the next three weeks.

The shipments from the foothill districts of California still continue to hold up strong, which is keeping the market low.

The Clarke & Henery Construction company bid par for the issue of \$56,000 worth of improvement bonds at a meeting of the city council Tuesday evening and were awarded the issue.

A resolution was passed declaring the intention of the council to pave Grape street to Vermont street for a width of 56 feet with a No. 1 pavement. There was an objection raised to a 40 foot street by property owners and the width was cut. Vermont street probably will not be paved as it puts too great a burden on the property owners there. This will leave a gap of 120 feet between Jackson and the end of Grape which will be macadamized by the city. It has already been graded.

INTERURBAN SYSTEM IS TIED UP NEAR SEATTLE. SEATTLE, Wash., Aug. 23.—long drawn out fight between the people of Rainier valley and the Seattle Renton & Southern Electric Railway company reached a crisis this morning, when the people defied a temporary injunction issued by the court and tied up the whole interurban system.

The city of Seattle took a hand today. Mayor George W. Dilling issued orders to the chief of police to arrest all conductors and motormen refusing to move their cars. Several crews have been arrested. At a special meeting of the city council this afternoon an ordinance will be introduced fixing a penalty for refusing to move traction cars.

Earl, millionaire publisher of the Tribune, a one-cent morning paper, appeared before Superior Judge Walter Bordwell today to answer to an indictment charging him with having disclosed in his publication the contents of a wireless message.

Attorneys for the defense filed a demurrer to the indictment, alleging it to be ambiguous in that it states no facts sufficient to constitute a public offense. A motion to quash, supported by an affidavit of Earl, was also filed.

Defense attorneys alleged that several members of the grand jury were prejudiced against Earl and were intimidated by malice and hatred.

Hereafter Medford will observe the glorious fourth in a sane manner if the plan of Councilman Millar is put into effect and it probably will be for an ordinance providing for such a celebration will come up before the council at its next meeting. The ordinance will be along the same lines as those adopted in many other cities and will tend to make the Fourth a day devoid of danger within the corporate limits of the city of Medford.

The matter came up for discussion at Tuesday night's session of the city council and from the opinions voiced it seems as if the proposed measure will be passed unanimously.

A Luxuriant Growth of Hair

Does Not Follow Neglect of the Scalp.

Aside from combing it when they think necessary many people give no attention whatever to their hair. Then when the hair begins to fall out it never occurs to them that their trouble is the result of personal carelessness.

An occasional application of Newbro's Herpicide will not only prevent loss of hair, but permits a luxuriant growth.

Herpicide kills the germ that causes dandruff and to this germ most hair losses are attributable. It keeps the scalp clean and free from dirt, allowing the hair to grow unhampered by accumulation of dandruff.

Newbro's Herpicide is sold by all druggists and its manufacturers have such confidence in its germ destroying power that they authorize all druggists to guarantee the one-dollar size bottles to do as claimed or money refunded.

Applications may be obtained at good barber shops.

Send 10c in postage for sample and booklet to The Herpicide Co., Dept. R., Detroit, Mich.
