ELECTRICITY TO KILL FRUIT BUGS

Colonel Ray Much Interested in Reported Tests Made in Washington—Moths Are Electrocuted—Cheaper Than the Use of Spray.

Colonel Frank H. Ray is much interested in the matter of using electricity as an agency to destroy the codling moth and other bug pests which is said to be the latest innovation introduced in modern apple orcharding. W. M. Frost of Opportunity, Wis., is said to have made what is declared to be the first demonstration of its kind in the world. The test was made in a six-year-old orchard and more than a score of second-brood moths and many green aphids were killed in a few moments.

The apparatus consists of a storage battery to charge the incandescent light globes, each of six candle power, which are netted with fine steel wire coated with copper and tin alternately. Attracted by the bright lights in the trees, to which the globes are carried at the ends of a covered wire, the moths fly against the netting, complete the electric circuit and are instantly killed, the bodies falling into a receptacle placed beneath the globe.

Frost estimates that one battery to an acre of trees will keep the moths under control, thus eliminating the usual spraying and saving many dollars annually for help, equipment and fluid. He is now preparing to wire his orchard of 10 acres, containing 700 trees, and several neighbors, who witnessed the initial test are doing likewise. It is reported that several thousand acres of bearing apple-trees will be equipped with exterminators by next spring.

If commercial electric light wires are extended to the orchard tracts, as they are in many, the expense of batteries may be saved by making direct connection. The cost of covering the globes with wire nets is a small item and any electrician can do the work.

Haskins for health. The Barber Knows Newbro's Herpicide Hailed as the Best Remedy for Hair and Scalp—Expert and Unprejudiced Opinions.

"I have been using Newbro's Herpicide for the last four years and find it the best thing made." JOSEPH PIZZERTO, 1675 Richmond Terrace, West Brighton, L. I., N. Y. "I can truthfully say that Herpicide is the best remedy for the hair I have ever used." O. A. RATHENBUECHER, Virden, Ill.

"I have used many preparations in my shop, and find Herpicide best of all for falling hair and all scalp or skin diseases." J. A. OLIVER, Leslie, Ark.

"Newbro's Herpicide has always given the best of satisfaction." S. M. CHAMBERS, Beechliwa, Wash.

While the barber necessarily carries other hair remedies, Newbro's Herpicide is one he swears by because he knows its merits. He can conscientiously recommend it to kill the dandruff germ and stop falling hair. In making an application of Herpicide he feels and knows that the customer is receiving full value for his money and will be benefited far in excess of his expectations.

One dollar size bottles are sold and guaranteed by all druggists. Send 10c in postage for sample and book on the hair to The Herpicide Co., Dept. R, Detroit, Mich. Medford Pharmacy, Special Agent, Near P. O. Night or day.

GARDEN THIEVES GETTING BUSY

Complaints Come From All Parts of the City Regarding Loss of Melons and Other Truck—No Arrests Made.

For the past couple of weeks there have been several reports of thefts of garden products having been made in various parts of Medford. Tom Collins, living in East Medford, is reported to have "shooed" a thief out of his garden with several good sized loads of rock salt discharged from a shotgun. One other East Medford man, after having discovered footprints of several persons, some of them made by a lady's shoe, in his melon patch, laid in wait and upon the second visit of his late evening callers they were given the contents of a double-barreled shotgun. For some time A. S. Bilton, living at 618 West Main, has been missing cabbage, roasting ears and potatoes from his garden and he has spent many wakeful nights in his endeavors to land upon the thief. Friday night his vigil was rewarded, when he caught the thief "dead to rights" filling a sack with potatoes from his splendid patch of Burbanks. At the point of a revolver Mr. Bilton, in a very gentlemanly manner, asked the thief to desist from his nefarious practices, and to remain standing where he was until a few measurements might be taken for future identification, but this the thief unhesitatingly declined to do, and in lieu of obedience to the command he hit the high places down a nearby alley. (It

is told on Bilton that this was just what he had hoped the thief would do. This close range parleying not being altogether to the liking of Mr. Bilton.) However, five shots were fired and the last seen of the thief was going a Marathon pace on North Hamilton street. Bilton says he fired those five shots himself, but his most intimate friends are somewhat skeptical as to any statement he might make wherein a revolver is involved.
