

Accommodation Goes Hard With Mr. Inbad

By H. B. Martin

BARTLETTS ARE NEARLY GONE

To Date Thirty-eight Cars of Bartletts, Six Cars Howells, and Three Cars of Clairgous Have Been Shipped East.

The Rogue River Fruit & Produce association issued the following bulletin under date of September 2: When this bulletin is in your hands the Bartlett crop, with the exception of one or two cars, will have been cleaned up, the Clairgous out of the way, and the packing crews laid off, waiting for the Anjous. At the end of the week the association will have shipped 38 cars of Bartletts, six cars Howells and three cars of Clairgous.

The whole crop, so far, has been very disappointing. No finer Howells were ever sent out of the valley, but the total was only two-thirds of last year. The Bartletts will not make half of last year's total and, while the quality has been fair in a number of orchards, it has taken the closest grading and inspection to keep the pack uniformly high. It is too soon to learn what the buyers think of our pack, but from this end it can be stated that it is the best ever sent out of the valley and has been uniform throughout. It is a record pack in spite of the most uneven crop of fruit in years.

The first Anjous will be picked this coming week and the first Bosc about September 11. Neither crop will exceed five cars. The Comics were showing about 25 cars two months ago. It looks as though we would do well to get 16 cars now. Various causes contributed to reduce the quantity of all these varieties. Among them the effect of the frost, insufficient pollination, the hot winds in July, the wind storm later and lack of moisture in some cases. Prices—Our first car of Bartletts sold in Boston at \$1.50 delivered on August 29, and the second in Chicago at \$1.70 for Red Triangle or Fancy. Another car sold the same day averaging \$1.30. These are ruinously low prices, but are somewhat better than any other section is receiving. Our cars were held on track for over a week waiting a better market. All advices agree that the market is bound to advance when the glut is over.

The Northwestern Fruit exchange has sold for the association three cars of extra fancy Spitz, three cars of Jonathan and five cars of Newtowns, all at high prices, which we will announce later. The apples look fine at present writing and practically every car in the valley is controlled by the association. We hope to have them all sold by picking time.

More peaches have been marketed on the coast than was expected, and the price is now around 50c. Our crop is showing good quality, but not very large.

Growers who have fruit to ship are urged to keep in touch with the management that the fruit may be picked at the proper stage. Remember, this year is not like any other and the fruit is maturing differently.

Medford, Ore., Aug. 9, 1911.—This is to certify that about November my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner of Tenth and Front streets, Medford, Oregon. A. P. WELSH, 164

Printing of all kinds at Portland prices. Mail Tribune office.

CATTLE MARKET PORTLAND STEADY

Hog Market is Steady to Strong With \$8.50 at the Top—Lower Values Predicted Did Not Apply as Expected.

PORTLAND, Ore., Sept. 4.—Receipts for the week have been: 1952 cattle, 130 calves, 1140 hogs, 2460 sheep and 34 horses. Receipts for the month of August were: 8805 cattle, 712 calves, 6248 hogs, 34991 sheep, 133 horses and mules. As compared with the same month last year, there was an increase in everything except hogs and the 554 cars received during the month were 85 more than were received in August of last year.

The cattle market was steady to stronger. One lot of 503 Montana steers averaging 1148 pounds sold at \$6.10. The killing quality of Montana cattle is at all times attractive to packers, and as a rule steers of the same weight and quality will bring more money than cattle on territory where grass does not produce the same results. The demand for butcher stuff was strong and everything was taken at early trading hours. One lot of calves, averaging 180 pounds, sold for \$7.75. The hog market was steady to strong, with \$8.50 as the top. The much prophesied lower range of values for hogs does not apply. Killers have been unable to put prices down at the big central markets and those who are engaged in market prophesy predict a continued high line of values.

Table with 2 columns: Item, Price. Includes Vegetables (Potatoes, Cabbage, Parsnips, Lettuce, Carrots, Beets, Onions, Celery, Cauliflower, Turnips, Radishes, Onions, Asparagus, Rhubarb) and Fruit (Cocoanuts, Prunes, Lemons, Bananas, Oranges, Grape fruit).

Table with 2 columns: Item, Price. Includes Butter Eggs and Poultry (Butter, Eggs, Poultry), Meats (Beef, Pork, Veal, Mutton), and Hay and Feed (Hay, Grain, Oats, Barley).

Support the manufacturers of your home city first, last and all the time, and you will help yourself to prosperity. But if your local factories cannot supply your wants, insist that the merchant carries "Made in Oregon" goods from other Oregon sources to supply your needs.

Haakina for Health.

MASSSES AND NOT CLASSESEAT PEARS

W. N. White Discusses Pear Situation—Says Eastern Crop Was Fortnight Early and Northwest Crops a Fortnight Late.

W. N. White of New York, an extensive fruit dealer in a recent letter discusses the fruit market as follows: "I wonder what your pear growers will think about the prices of pears this year. Anyone that understands the fruit trade when it was known that the western crop was a fortnight late and the eastern crop a fortnight early must have known that the two countries would come in at the same time and that it would be impossible to sell such large quantities except at a low price when the goods could go into consumption by the masses, the classes each a certain quantity. The dealer the goods the more they want, and when they get them cheap they don't want them, they want something else that just about commenced. Years ago the principal crop of fruit was apples, everybody had apples in every kind of fashion, green apples of which the small boy was the greatest, his parents like apple "sasses", baked apples, apple pie, apple jelly, apple fritters, in fact he had apples served a pin every fashion because that was the principle fruit, pears were too dear. Grape-fruit could only be eaten by millionaires, and oranges he got one now and then, bananas he occasionally indulged in but today he can have all these for the millions and as man has been fond of changes from Adam downward and particularly at the time of King Solomon who I suppose had more changes than any other man in the world, in fact he was the greatest monopolist that ever lived. I repeat man is fond of changes and therefore he tries all the fruits of the earth and

so many apples can only be sold at a certain price. It is the question of demand and supply. "W. N. WHITE"

CITY TREASURER'S NOTICE. Notice is hereby given that there are funds on hand in the city treasury for the redemption of outstanding city warrants issued against the following funds: Warrants Nos. 27 to 46, both numbers inclusive, issued against the trunk sewer fund.
