

TO PUT AGENT IN PORTLAND

Medford and Ashland Will Probably Co-operate in Keeping Colonist Agent at Portland During Colonist Season.

Medford and Ashland will probably get together on the matter of maintaining an agency in Portland during the colonist season to divert a just number of the arriving easterners to the Rogue River valley.

Last spring the Rogue river valley was slighted during the colonist season. Many who have come here were stopped in Portland by the agents of other localities.

As the expense of maintaining an agent at Portland will be heavy on any one locality it is planned to have the two towns work together.

According to railroad forecasts the coming colonist influx will be the heaviest in history.

STATE FAIR GROUNDS, Salem, Ore. (Special).—One of the most interesting days of the week during the State Fair will be Woodman's of the World Day, Tuesday, September 12.

Thousands of Woodmen and Women of Woodcraft have promised to attend and the members throughout Oregon have aided in making the arrangements.

Mr. Reed, one of the carpenters who is working on some of the new buildings in our town, took a layoff last week and went to his homestead on Yankee creek and remained about a week.

I took a trip to the E. S. Wolfer garden and truck patch Wednesday morning after a lot of tomatoes. He has made a specialty of tomatoes and, although he has sold thousands of pounds, you can hardly miss those taken from the vines and he has lots of them that tip the scales at 16 and 18 ounces.

Our school is gradually increasing in size. There were enrolled on Wednesday 75 pupils and we know of quite a number that expect to come later.

Jud Edsall, who was taken sick at the Prospect works and was brought down to the Sunnyside for medical treatment, is convalescent and has returned to his work.

Mr. Natwick, one of the contractors on the road between here and Prospect, was a pleasant caller Thursday morning on his way to Rogue river.

John Nichols is having a new roof put on his dwelling house.

Married, September 4, in Ashland, Ernest Cole and Miss Carrie Pool. Mr. Cole came among us and bought a 25-acre tract of land adjoining our town.

To these sufferers Chas. Strang says you don't have to know anything about HYOMEI except that you breathe it and that it does not contain cocaine or opium or any harmful drug.

You can find out all about HYOMEI without taking any chances whatever. Just get an outfit today, read the simple instructions, give it a fair trial and then if you are not willing to say that it is the best remedy for catarrh you have ever used, Chas. Strang will gladly return your money.

A complete HYOMEI outfit costs but \$1.00. Extra bottles 50c cents.

ROGUE ORCHARDS WITHOUT A PEER

So Declares W. H. Newall, President of State Horticultural Society. Here to Look Over Orchard District—Loud With Praises.

"The fruit growers of the Rogue river valley need not worry about this season's fruit crop and the low prices paid for fruit," states W. H. Newall, president of the state board of horticulture who is making an inspection of local orchards.

"The Rogue River valley district is without a peer in the west," continued Mr. Newall, "and it is always a great pleasure to visit it. No where are orchards kept in better condition or is fruit grown more scientifically. Here indeed is a model fruit section."

NEXT MEETING CENTRAL POINT

Good Roads Advocates to Hold Big Meeting With Central Point Commercial Club. Same Time Next Week.

A mass meeting of good roads advocates is to be held at Central Point early in the coming week. Arrangements are now being made by leading citizens of Central Point. A number of Medford business men are planning to make the trip.

Later it is planned to hold meetings at Eagle Point, Woodville, Gold Hill, Jacksonville, Talent and Phoenix. The good road campaign is opening up in earnest.

Salem, Ore. (Special).—Some ninety odd horses are now training on the Salem track for the Oregon State Fair meet and not a fast one owned in the Northwest is missing from the entry list. Secretary Frank Meredith says he looks for the track record to go by the boards at this meet because of the improvements made in the course.

Salem, Ore. (Special).—Through the activity of Secretary Meredith of the Oregon State Board of Agriculture, the United States Forest Service has agreed to place an exhibit at the coming state fair.

There will also be photographic enlargements showing preservative timber treatment and strength test processes, besides charts and maps. Seeds and seedling specimens of leading Pacific Coast tree species, specimens of insect-infested timber, products obtained through distillation processes, figures showing revenue to the state, amount of timber for sale, number of stock grazed, etc., will be shown.

ASHLAND MAY GET STATION

Commercial Club of That City Is in Receipt of Communication From Oregon Agricultural College—Disappointed in Lower Valley.

That the state agricultural college is considering the advisability of placing the branch experiment station at Ashland is evidenced by a communication the Ashland club has received from the college authorities, in which the matter is thoroughly discussed. The Ashland club has appointed a committee to take up the matter at once and see what can be done in regard to securing the station.

In a letter to the Ashland club from the school it is pointed out that the authorities were badly disappointed by their failure to secure a site for the station in this end of the valley. Ashland is taking advantage of this fact and it is not at all unlikely that the station will be placed near that city.
