People of Shasta Valley Are After Trunk High Way Throughout California-Call on Jackson County for Help.

If the people of Shasta valley just outh of the California line are sucesuful in their efforts to secure the main trunk highway which is to be onstructed throughout California, and from present appearances they will, it will be but another argument n favor of the passage of the \$1. 600,000 bond issue in Jackson county or one of the purposes of the proosed bond issue will be to construct trunk highway from the aClifornia ine through Ashland, Talent, Phoetix, Medford, Central Point, Gold dill and Woodville and one to the Josephine county line.

NOTICE

On account of closing my ranch for the winter, I am prepared to offer a special inducement on fine fodder corn, raised on the Big Sticky, without irrigation. This corn was grown on the celebrated Gregory 1 tract, which holds the record for Jackson county, and has attracted considerable attention. The corn comprises about nine acres and will be sold on the stalk or cut.

Also for sale, a good work horse, broken to drive, afraid of nothing, kind and gentle. Location, 5 1-2 miles northeast of Medford, Eagle Point road, opposite Vilas ranch. Address F. H. Cowles, Medford.

ORDINANCE NO. 505.

An ordinance authorizing the issuance of \$34.250.00 of the improvement bonds of the City of Medford, Jackson County, Oregon, and directing and advertising the same for sale in acordance with Chapter V of Title XXVII of Bellinger & Cotton's Annotated Codes and Statutes of the State of Oregon.

The City of Medford doth ordain as follows:

follows:
Section 1. Whereas, the City of Medford has heretofore duly caused certain streets of said city to be improved, and has duly assessed the cost thereof te

the property benefited thereby in accordance with the charter of said city:
And, whereas, certain owners of surdry pieces of property each assessed for such improvement in a sum exceeding (wenty-five dollars have duly made and filed applications to pay said several assessments in instaiments in accordance with section 2727 of said Bellinger & Cotton's Annotated Codes and Statutes.
And, whereas, an assessment and bond lien docket has been duly made up in accordance with the provisions of said section and of section 2722 of said Codes and Statutes, and the lotal amount of unoaid assessments for such street improvements and for which application to pay under the provisions of said sections above cited has been made and filed as aforesaid is the sum of \$34.250.06 as shown by said Bond Lian Docket;
Now therefore, said City of Medford doth ordain as aforesaid, and there is hereby suthorized to be issued the bonds of said city in the total amount of \$24,350, in denominations of two

hundred and fifty and five hundred dol-lars each, as may be convenient.
Section 2. Said bonds shall be made in the following form, numbered from lost to 1971 both inclusive: CITY OF MEDFORD JACKSON COUNTY RTATE OF OREGON Konw all men by these presents, that the City of Medford in the County of Jackson, State of Oregon, for value re-ceived, hereby agrees and promines to terming the search of the sear Hundred and without grace, with interest thereon from the date hereof until redsemed, or until the time of the semi-annual interest payment next ensuing the publication of notice by

Josephine county line.

That the people of Siskiyou county tre working hard for the proposed runk line through California is evijenced by the fact that the city authorities of Yreka have written te all of the towns of southern Oregon asking for information regarding this section. This data when compiled will be presented to the highway commission of California in order to injuce them to locate the highway through the central portion of the itate. The passage of the good roads bond issue in this county will be a big argument in inducing the highway commission of California in the location of the road.

California authorized the expendiure of \$18,000,000 for the construction of state-aided roads. It is proposed to build a main highway from Oregon to San Diego. Eureka is pulling for the main highway and so is the country east of the Shasta valley. Yreka does not wish to see the road liverted, and for that purpose has alled for data regarding this section of Oregon.

This bond is redeemed, or until the office of the this bond, and the first day of the highway in the rate of six per cent per control next close and the first day of the rate of six per cent per control next following such publication, at the rate of six per cent per

not exceed the limit prescribed by said Act.

This bond is redeemable at the office of said treasurer at the option of the City of Medford upon the payment of the face value thereof, with accrued interest to the date of payment at any semi-annual coupon period at or after one year from the date hereof, as provided in said Act.

The Historic Bidwell Orchards

have been sub-divided into small farms, which are forsale on very easy terms 10 per ct. down, balance in seven (7) years

This famous property was developed by General John Bidwell, who pioneered the first emigrant train across the plains to California in 1842.

The soil is conceded to be the best in America.

The United States Government chose the Bidwell Ranch as having the most prolific soil in America for the important station of the U.S. plant introduction garden, where vegetables and fruits from all parts of the world are cultivated to determine their value to the American farmers.

When the owners refused the Government's offer, the plant introduction garden was established on adjacent property.

I For the same soil reasons the state of California has established its forestry station on a section of the Bidwell Ranch.

All land around Chico is rich. The land offered by the Annie E. K. Bidwell Orchards Company is the richest of all. The fact that trees like the Sir Joseph Hooker oak, the largest of its species in the world, and walnut and cherry trees that have no equal in size and productivity, grow on this soil, is impressive evidence of what this land really

This proposition is so good that the Annie E. K. Bidwell Orchards Company does not wish to sell the land without showing it to the buyer. It does not wish the land to be confused with non-productive and comparatively non-fertile land that might be described just as well in print.

I However, the Company will give any desired specific information to those who wish data about the orchards and other property.

The Annie E. K. Bidwell Orchards Company is offering for a small price the best land for the money in America. Don't buy land till you have seen it. When you see it you will recognize its value. Write to
