

### SAWMILL TO MOVE HERE

Trail Lumber Company Will Next Week Bring Machinery Here From Jackson Creek And Hereafter Operate In Medford.

The Trail Lumber company has its large planning mill in operation and next week the manager of the company, J. T. Gagnon, stated last night he would commence the work of bringing the company's saw mill to Medford from Jackson creek, where it has been in operation for several years.

The company intend to haul the logs to Medford and manufacture their lumber at their mill yards here.

The company owns five acres of land in the western part of the city at which place their lumber yards and where the sawmill will be set up when brought in from its present site on Jackson creek.

The Rogue River Valley railroad now runs into the timber owned by the company and the logs will be brought to Medford over that line. The company owns about fifty million feet of merchantable timber in that locality and all of it will be brought to Medford and manufactured into lumber. Besides this there is another block of fifty million feet of timber which is available to the railroad and which will in all probability, be handled by this company when their own timber is logged off. The company also owns a large tract of timber in the Big Butte country and this, too, they expect to bring to Medford in the log.

Mr. Gagnon estimates that the by-product from the timber will easily pay the cost of transporting the logs—the by-products such as lath, firewood and sawdust, being considered a dead loss where the lumber is manufactured at a distance from an active market. The company is now employing fifty-five men but when both the sawmill and planing mill are in operation in Medford it is expected that employment will be furnished for over 100 men, these not including the loggers in the timber.

#### WHAT PROMINENT PEOPLE THINK OF GOOD ROADS BONDS

(Continued from Page One)

ers specified Jackson county material and Jackson county labor. That money is to be spent for the benefit of Jackson county and it will not be spent to send to Italy or India or Greece. It will go to the men who are building homes here.

#### A Taxpayer's View.

Fred Hopkins:—I am a large tax payer. I believe in schools. But we must go a step further. We must not ask children to tramp through the mud to attend school. We must build them good roads. I pay a large amount of taxes now. I will pay more. And when you hit a man's pocket you are very close to his heart. How then can I give proof of greater sincerity.

#### Prepare for the Fair.

Mayor Leever:—We must have good roads. California and Washington are getting them. Oregon must not be left behind. When the Panama canal is opened it means thousands of new comers. And roads will be the greatest thing we can show them to make them want to stay here. And after Jackson county has led the way the remainder of the state will follow. Vote the good roads bonds by all means.

#### For Future Generations.

F. Osenbrugge:—Get your pencil out and figure on it. At the end of twenty years you are not in a serious condition at all. Our children will say that their daddies had a long head. And look at the benefit to be derived from the good roads. They will do more than any one thing to make this county.

#### Premium Is Offered.

George Davis:—The bonds will sell at a premium. This amount will take care of the roads while we are building new ones. No man can oppose the issue who thoroughly understands them. And after a trip through California our present roads make me blush. But we cannot do better than to patch them under our present conditions. We haven't the money to build them scientifically. And I believe that the county court and advisory board will spend the money judiciously. Out of the twelve road districts in the county eight are represented on the board. This means a fair deal to all of the sections of the county.

ROME—On account of the prevalence of cholera here, it has been determined to abandon the seventh International Congress for the Prevention and Cure of Tuberculosis, which had been scheduled to begin here a week from Saturday.

### COAST LUMBER TRUST FORMED

Tidewater Mills Of Oregon and Washington Controlling Half Lumber Output Of Northwest Form \$200,000,000 Combine.

PORTLAND, Ore., Sept. 14.—The consolidation into one company of tide-water lumber mills of Oregon and Washington, controlling more than one-half the lumber output of the Pacific northwest, and its acquisition of timber lands sufficient to supply the mills for at least 15 years, the whole representing an invested capital of approximately \$200,000,000, is virtually assured in the near future, according to prominent timber men here today.

It has been learned that mill owners representing more than fifty per cent of the Columbia river cut have signed the consolidation agreement, and that 85 per cent of the millmen of Gray's Harbor, Wn., have already joined the proposed merger. The project is being handled by Henry J. Pierce of Spokane, who is representing eastern capitalists, whose identities he declines to disclose.

The agreement provides that its conditions are binding only in event that 65 per cent of the output of tide-water mills in the two states have become parties to the contract prior to January 1, 1912, and that Pierce shall have until March 1 to organize the proposed company and take over the properties and timber holdings of the contracting lumber men.

#### CENTRAL POINT ITEMS.

Conductor Harvey Crandall and Harvey Garven of the Shasta Limited, spent a few hours here Wednesday morning.

Miss Mary Ilsson returned Wednesday from a much enjoyed visit with her brother Mr. Haf Olsson, of Roseburg, and her sister Mrs. Mul-

### GRIFFEN CREEK HORSE STOLEN

Bay Mare Belonging To Rev. Frank Stuart Taken From Ranch—Thief Traced Into Applegate Valley—Second Horse Stolen Within Year.

That Griffen creek, despite electric lights, well groomed orchards, and up to date telephone service is still in the wild woolly and lawless West, has again been demonstrated in the disappearance of a valuable bay mare belonging to Reverend Frank Stuart, the evangelist of Griffen Creek. Mr. Stuart's training on the frontier, where his work has kept him most of his life, enabled him to follow the hoof marks of the departed horse over the mountains into the Applegate valley. Here further trace was lost on account of a rain storm which wiped out the hoof marks.

This is the second horse that has been stolen on Griffen creek during the year. J. R. Wilson lost one out of his barn last winter but recovered it while it was in the possession of the thief, at Grants Pass.

Mr. Stuart is very anxious to recover the missing animal as he is very fond of the horse on account of its thorough reliability for mountain work.

TACOMA—Owing to charges of graft and collusion between employment agents and contractors, there is a strong probability that employment offices may be abolished in this city, except the city's free bureau.

ler, of Eugene.

Mrs. Wiggs of the Cabbage Patch is to be held in the Central Point opera house Friday Sept. 15.
