

An unusually pretty wedding occurred Tuesday evening, September 12th when Miss Elizabeth Folger and Mr. Ira J. Dodge were united in marriage at the home of the bride's parents, Mr. and Mrs. W. A. Folger, on W. Main and Ross Court.

Before an altar banked with Madron and fir, on which graduated candles were placed, the ceremony was solemnized by Rev. Wm. Lucas of St. Mark's church.

The living room and the porch were festooned with greens and flowers and over the entrance into the living room, through which the bridal party came was green arch. An aisle was formed by ribbons brought from the archway to the cathedral standards, which were placed each side the altar. Miss Mary Joy Folger, younger sister of the bride, and Miss Ida Lee Kentner, charmingly gowned in dainty white dresses of embroidered net with green satin sashes and wearing a silver fillet in hair, were the ribbon girls.

And as the strains of Mendelssohn's wedding march were heard, the bride very beautiful in a handsome gown of white satin, cut en train, trimmed with a fichu and real lace, and wearing a veil fastened with orange blossoms, entered on the arm of her father. The only attendant was the maid of honor, Miss Florence Folger, sister of the bride, who was beautifully gowned, in an aqua marine chiffon over white satin.

The groom was attended by his brother, Mr. Burdette Dodge, as best man. Misses Lloyd and Harry Houston, Lee Root and Howard Dudley, acting as ushers. During the ceremony Gounoud's "Ave Maria" was played.

After congratulations a wedding supper was served on the lawn under an awning which was most artistically decorated with flowers and greens, Mrs. Richman catering.

The tables were decorated with flowers and candles, butterflies hovering on the flowers. The bride and her attendants occupied the central table and when the cake was cut Miss Florence received the ring. Mr. Harvey Houston the thimble and Mr. Burdette Dodge the money. Miss Sara Kelly caught the bouquet.

Talbander's orchestra played during the supper and at the dance which followed. The bride's gift to her maid of honor was a handsome sapphire and pearl bar pin, to the ribbon girls dainty pins of pearls and rubies. Mrs. W. A. Folger, mother of the bride, was handsomely gowned in black point de'esprit over white satin.

Mrs. Dodge, mother of the groom, wore a beautiful lavender crepe de chene, with lace and Persian trimmings.

Mrs. Dennington, sister of the groom, wore her wedding dress, a handsome gown of white satin with crystal trimmings and old lace. The bride is a very charming and attractive young lady and a great favorite in the younger set.

The groom is one of the most prominent young men in Medford, is manager of the Dodge Orchard, secretary of the Medford Realty Association, business other business interests. The bride's going-away gown was a becoming tailor suit of gray with hat to match. Mr. and Mrs. Dodge left amid a shower of confetti and rose leaves, for California, where they will spend their honeymoon, returning in about ten days when they will reside in the handsome new bungalow Mr. Dodge has just completed on the Jacksonville road.

BIG ADDITION TO FACTORY

Big Pines Lumber Company Making Extensive Improvements in Local Plants—Now Can Turn Out Material Of Any Kind.

The Big Pines Lumber company has nearly completed a 50x62 foot addition to their already large factory on north Fir street. This addition will be used as a finishing room for the furniture and fixture turned out by this firm. There will also be a varnishing, finishing and painting room in the addition. New machinery suitable for producing the finished product in lumber, is being added to other machinery so that when the entire plant is in operation there will be nothing in wood which this establishment cannot turn out.

This company has reached the conclusion that to satisfy the tastes and supply the demands of its class of people of which Medford and the surrounding country is composed, and of which class more are being added yearly, they must be in a position to turn out a class of work equal to that put out by either Portland or San Francisco, and to meet this demand is the whyfore of the building recently put up.

That a Medford institution is capable of turning out a finished wood product equal, if not superior, to anything manufactured in the large cities is certainly a credit to the enterprise of the gentlemen comprising the Big Pines Lumber company. The entire manufacturing floor space of this company now comprises a 100x162 feet, this not including the lumber sheds and dry kilns which are in reality a part of the factory. In the factory and tributary yards there are now employed nearly fifty men.

This company was recently given the contract for all inside finishings and furniture for the Carnegie library, including all desks, chairs, tables and book shelves. These are to be of solid oak and of the very latest designs.

EDITOR WRITES OF THIS CITY.

(Continued from Page 1.)

four passenger trains enter the city daily.

The city has two excellent newspapers, the oldest being the evening Mail Tribune, issued from a modern and completely equipped plant, edited by one of the live wires of western journalism, has been a powerful agent in developing the city and enjoys the distinction of being the best newspaper in the state outside of Portland. The morning Sun, about a year old, is also ably edited, and a paper that would do credit to any community. Both jealously guard the city's every interest and lose no opportunity to place before the world its many advantages.

Mouth." At one place there is an immense pillar the thickness of a man's body, reaching from floor to vaulted roof; again there is a broad shelf covered with minute crystals resembling the tracery of frost on a window pane; here the floor lies in little ridge like sand on the beach as the tide goes out, and so strong is the likeness that one involuntarily stoops to take a hand full.

One of the most remarkable features of a journey through the caves is the fact that one loses all sense of direction—east, west, south, north, or up and down. We entered by the lower entrance and when we again came out into the sunlight we were 700 feet above the lower entrance and less than 250 feet west, almost directly above it.
