

ROWDY IS PUT UNDER ARREST

One Of Men Who Used Insulting Language When H. C. Garnett Approached In Automobile Is In The County Jail.

Joe Johnson, another of the gang of four men who used insulting language, and who shot at H. C. Garnett and his automobile party on the road between Medford and Jacksonville a few weeks ago, has been arrested by Sheriff Jones and will be given a preliminary hearing at Jacksonville this afternoon.

Wm. Cook, one of the gang, was arrested a few weeks ago and at his preliminary examination was bound over to the grand jury. He gave bonds in the sum of \$200 to appear before that body, but soon after his release from custody he forfeited his bonds by disappearing and his whereabouts are not now known.

POWDER HOUSE FOR THIS CITY

E. C. Tice, Representing The Imperial Powder Company, Has Proposition Which May Make Medford Distributing Center.

E. S. Tice, representing the Imperial Powder company, has submitted to local business men a proposition whereby a powder magazine may be established in this city, and powder distributed from this point. The matter will come before the Commercial club at an early date.

Mr. Tice's company disposes of considerable powder in this section and firms which use a large quantity like the Prospect Construction company, the Rogue River Valley Canal company, the Pacific & Eastern and Jackson county are urging them to build a suitable magazine here. The company has agreed to do so if a suitable site is found for them.

STOCKS REGAIN THEIR STRENGTH

NEW YORK, Sept. 26.—After pronounced weakness at the opening in which United States steel and Union Pacific were the principal sufferers, the stock market today took a sudden upward bound. A heavy demand caused United States steel to gain 1 1/4 above yesterday's close. Union Pacific rose 5/8. The market, however, did not long hold the advance, the demand diminishing and prices falling off about a point. American Tobacco showed further strength. Late in the day the market took another upward spurt and the list again mounted to the highest level of the day.

The close was steady. Bonds were firm.

SAN FRANCISCO—Police are searching today for Dr. Grant, a Los Angeles promoter, detained on a charge of fraudulent use of the mails who escaped from the Providence hospital in Oakland. Lyman had been taken to the hospital to be treated for injuries received in a first attempt to escape from the police about a week ago. Assistance to the prisoner from some one in the hospital is hinted at.

HOUCK HAS HIS FACE SLAPPED

Judge Colvig Resents Being Called A Liar and Despite His Age He Retaliates With Well Placed Blow—Heated Argument Over Roads.

Because he called William M. Colvig, president of the Commercial club and booster-in-chief of Medford and the Rogue River valley, a liar, Jesse Houck had his face slapped—and Colvig did it.

The passing of the lie came during an argument over the good roads bond issue. Colvig and Houck who is fighting the issue, had had it up and down for several minutes when Houck asked:

"And what have you got for all of your efforts in this valley?"

"I've got about \$5000," was the reply of the judge, "and I earned every dollar of it—that's more than you can say for your father left you yours."

"You're a liar," declared Houck.

Thereupon Judge Colvig, though 66 years of age, slapped Houck's face, in spite of the fact that Houck is a much younger man. Then bystanders interfered.

SUGAR DROPS 75 C. 100 LBS.

Magnates Of Trust Fear Boycott—First Break Came Today When Arbuckle Brothers Announced The Cut.

NEW YORK, Sept. 26.—Fearing a boycott on refined sugar, the magnates of the sugar trust today lowered the price of that commodity from \$7 to \$6.25. The first break in the high price which has been prevailing was made when Arbuckle Bros. announced this 75 cents drop in fine granulated.

Other sugar men hastened to follow suit, with the single exception of the Federal company. The brokers state that the consumption of sugar has declined considerably since the price was advanced, and the magnates were beginning to fear a boycott.

The mail order houses of the East would not be so prosperous if the people of this community would insist on having "Made in Oregon" goods from the local merchants. The business of this community would be better conserved if the buying public and the merchants would help along the "Made in Oregon" idea.

Haskins for Health.

Medford Ore., Aug. 9, 1911.—This is to certify that about November my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to report that he claimed they would and after the third treatment the rheumatism pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner of Tenth and Front streets, Medford, Oregon. Eighteen Feet of Garden Loam

IN Northern California there are many large ranches some twelve miles square some noted for size others for fertility of soil others for climate

The famous Bidwell ranch at Chico Butte county has all these things and many more

It is proved by what it has produced and by what you can see growing there today.

It has 18 feet of garden loam, tillable every day in the year

Watered by underlying channels giving an inexhaustible supply of moisture

There are orchards of trees in full bearing plums, prunes, apricots, almonds, olives and nectarines

There are splendid vineyards of table grapes and wine grapes

There are all kinds of berries and small fruits

There are gardens of Casaba melons (from the balmy climate of the Adriatic Sea.)

The largest oak tree in the world stands on the Bidwell ranch covering 7-19 of an acre

There are walnut and cherry trees of unequalled size

All these things in actual existence prove the fertility of the soil and the equable climate

To see the land and its crop is the most convincing argument

No man should buy land without seeing it

If you want to buy land you'll buy a part of this orchard

Because it possesses every quality you could ask

And the price is low 10 per cent down

With seven years to pay the remainder
