

GOOD BOXING BOUTS THURSDAY

Frankie Edwards is Getting His Men In Good Shape for 'Clever Exhibition—Best Card Yet Offered at Gymnasium.

One of the best boxing cards ever offered local fans is scheduled for Thursday night at the Natatorium Athletic club smoker.

The program is headed by Roy Smith and Joe Parker, a pair of lightweights. Smith was one of the sparring partners of Battling Nelson when the Durable Dane was training here for his bout with Tommy Gaffney. Nelson predicted a bright future for Smith and with a little more experience and knowledge of the game Roy will be heard from, sooner or later, as he is a clean-cut, well-behaved little fellow.

More than ordinary interest is being taken in the "Chic" Bowlen and John Turner squabble, and while it will be a continuous roar of laughter from the spectators, it will be a mighty serious thing for "Mistah" Chick, as Turner says he "snah will make that cullud barber shop porter jump out of the ring," but "Chic" only smiles and says, "Dat Turner am a fool niggah, and when Ah gets through with him Ah'll be eatin' pork chops' just the same."

Joe Biff, a white hope, meets clever Earl Ralston, and Jimmy Smith, who will bear watching, will meet Walter Kane. They should put up a good go.

Seats on sale at club rooms and Medford cigar stand. All club members who have not as yet secured their seats must do so before Thursday evening.

DON RADER IS MAKING GOOD

Oregon Trainer Thinks He Has Found Good Man in Local Boy for University Basketball Team—May Play Here.

Donald Rader, who starred on the Medford basketball and baseball team last year, is now attending the University of Oregon. Bill Hayward, the noted Oregon trainer, has taken quite a liking to Rader and considers that he will be in line to fill the position of forward on the basketball team which Elliot of last year's team has left vacant. It is very probable that the University of Oregon basketball team will make a trip to California during the Christmas vacation and while en route will stop at Medford for a game with the town team. The fact that Rader will probably be on the team will make the game an interesting one to local followers of the sport.

Great Northern Exhibits Oregon Products At Northwest Land Products Show

Besides the official exhibit of this state which is to be made under the direction of the governor at the Twin City Land Show, the efforts of the state officials will be supplemented by good exhibits to be made of our products by the railroad companies.

The Great Northern has just bought five sections at the Twin City show, special part of it will be shown for the first time at the big show in St. Paul, the Great Northern will also show in New York City, in Omaha and at several other shows during the fall and winter. From all of these displays our state will reap a benefit and the railroad company divides its space up and places the name of the state over that part of the exhibit which is collected from here.

HARRISON WILD'S SON TO SING IN MOOSE MINSTRELS

Every person who is up in music and keeps track of musical people has heard of Harrison M. Wild, the director of the Apollo Musical Club of Chicago, consisting of 500 voices, and of the Mendelssohn Club consisting of 100 male voices. His son, Edward, has been living for several months in Medford and has been persuaded by the cast committee to play in the forthcoming big minstrel show. He possesses a fine voice which will be heard in the plantation lullaby, "Close Yo' Eyes," sung with special lighting effects, and also as a prima donna in the laughable operetta which will close the performance, "Our Family Doctor." Medford boasts more musical talent than any city of its size in the United States, and is constantly adding to its list of people who can really do things. The Moose has discovered some more "finds" besides whose names will be announced in due season, and it is a safe bet that the theatre going public are going to be agreeably surprised when the show is pulled off.

Medford Ore., Aug. 9, 1911.—This is to certify that about November my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Crow Young, whose house is corner of Tenth and Front streets, Medford, Oregon. It will be a month or six weeks, however, before his hands will be healed sufficiently to permit him to resume his duties at the station.

Pimples and Blackheads CAN BE CURED

No matter how difficult the case, nor how long it has lasted, Marinello Treatment will positively improve any skin in a few days.

A complete cure is only a matter of persistence. Marinello operators do not pretend to enter the province of the physician. Most of their work is done by request of members of that profession who have no time to give to this kind of work, yet require their patients to have special care.

If you have even the first symptoms of this trouble, investigate at once. Do not let a day pass without checking this tendency. Delay will only coarsen the skin and make the improvement slower. Full, free explanation to all who desire information. Call or telephone.

Seven Years to Pay For the Richest Land in California

There is lying on the surface of one of the counties alone in California sufficient mineral wealth to pay the National Debt.

There flows from the springs and the mountains of California waters to heal every ill of man.

There lies around the City of Chico, in Butte County, California, the richest soil in this richest state in the Union.

You need not take any of our statements to prove this.

You need only to come to Chico and look about to see that it is true and to realize that we haven't language to tell you half the story.

This land is not only rich, fertile, tillable and productive,

it lies over channels of water which afford an inexhaustible supply of moisture that aids the rich soil and the balmy climate in producing the luscious fruits and yielding a wealth greater in quantity for the number of acres cultivated than in any other section you can discover.

All of these things are provable because the orchards we are offering you are in full bearing and have been for years.

The State of California chose a portion of the Bidwell Ranch for its experimental gardens.

You know the land and water and the climate must be superior for that purpose to any other in the State else the Government would not have chosen it.
