# **HUMOR OF THE DAY**

To Avoid Seasickness. Many of our renders have asked this department for a preventive of seasickness. Nearly all of our readers filt from shore to shore of the oceans or the lakes during the summer, and most of them have tried lemons and mustard plasters and smelling saits and blind faith to no avail. Charles F. Healy has devoted much time and thought to seasickness, its cause and eure, and has consulted authorities hither and you. He has discovered a method of avoiding seasickness, which is said to be infallible, and we are glad to give it space for the good of all con-

Select a large tree, preferably an elm or a maple, with low hanging branches. If this is not available, a lilae or even a gooseberry bush will suffice. Lie full length in a hammock on the shady side, or, if the grass is tall, a hammock is unnecessary. Place the right hand under the back of the end-be sure not to place it on the forehead-and shift your position so as to keep in the shade. Whenever you feel an attack of sensickness coming on while on shipboard ask the captain to let you off and find the necessary ingredients to fill this prescription.

Clip this and paste it in your hat. You may not be able to remember it in an emergency.-Chicago Evening Post.

Me Would.

When they take woman away from the coeducational college," said the apeaker, "what will follow?"

"I will." cried a voice from the ay dience.—Success.

Cautious Estimate.

Curlous Friend—Is your wife a good on stows and broils.—Baltimore American.

Careful Husband—Well, she is good on stows and broils.—Baltimore American.

To KEEP THE HAIR

LIGHT AND FLUFFY

(From Chicago Inter Ocean)

The proper care of the hair does not require a woman to scour her scalp with soap and drench her hair with watter until a shampoo, including drying the hair, takes the better part of the day. In fact, the less soap and water used on the hair, the better, as alkali and moisture tend to make the hair coarse, dull and britle. If you want to keep the scalp clean and the hair light and fliffy, try dry shampooing. Put in a quarjiar, or any other handy container, four ounces of powdered orris roof and four ounces of therox. Stir and shake until thoroughly mixed. A beautiful cleansing powder with a delicate perfume will be the result.

Sprinkle a tablespoonful of this mixture on the head and then british it well through the hair. This brings out the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of the hair makes it soft and glossy, and if con-timed the natural color of t
