

TRAINING HARD FOR CONTESTS

Good Card is Arranged for Next Friday Evening at Natatorium Athletic Club—Boys are Far More Evenly Matched.

All the boxers for Friday night's smoker at the Natatorium Athletic club are training hard to get into good condition, which they must be in order to win, as they are so evenly matched. The host bout of the evening is looked for when Roy Smith and Charley McShane meet.

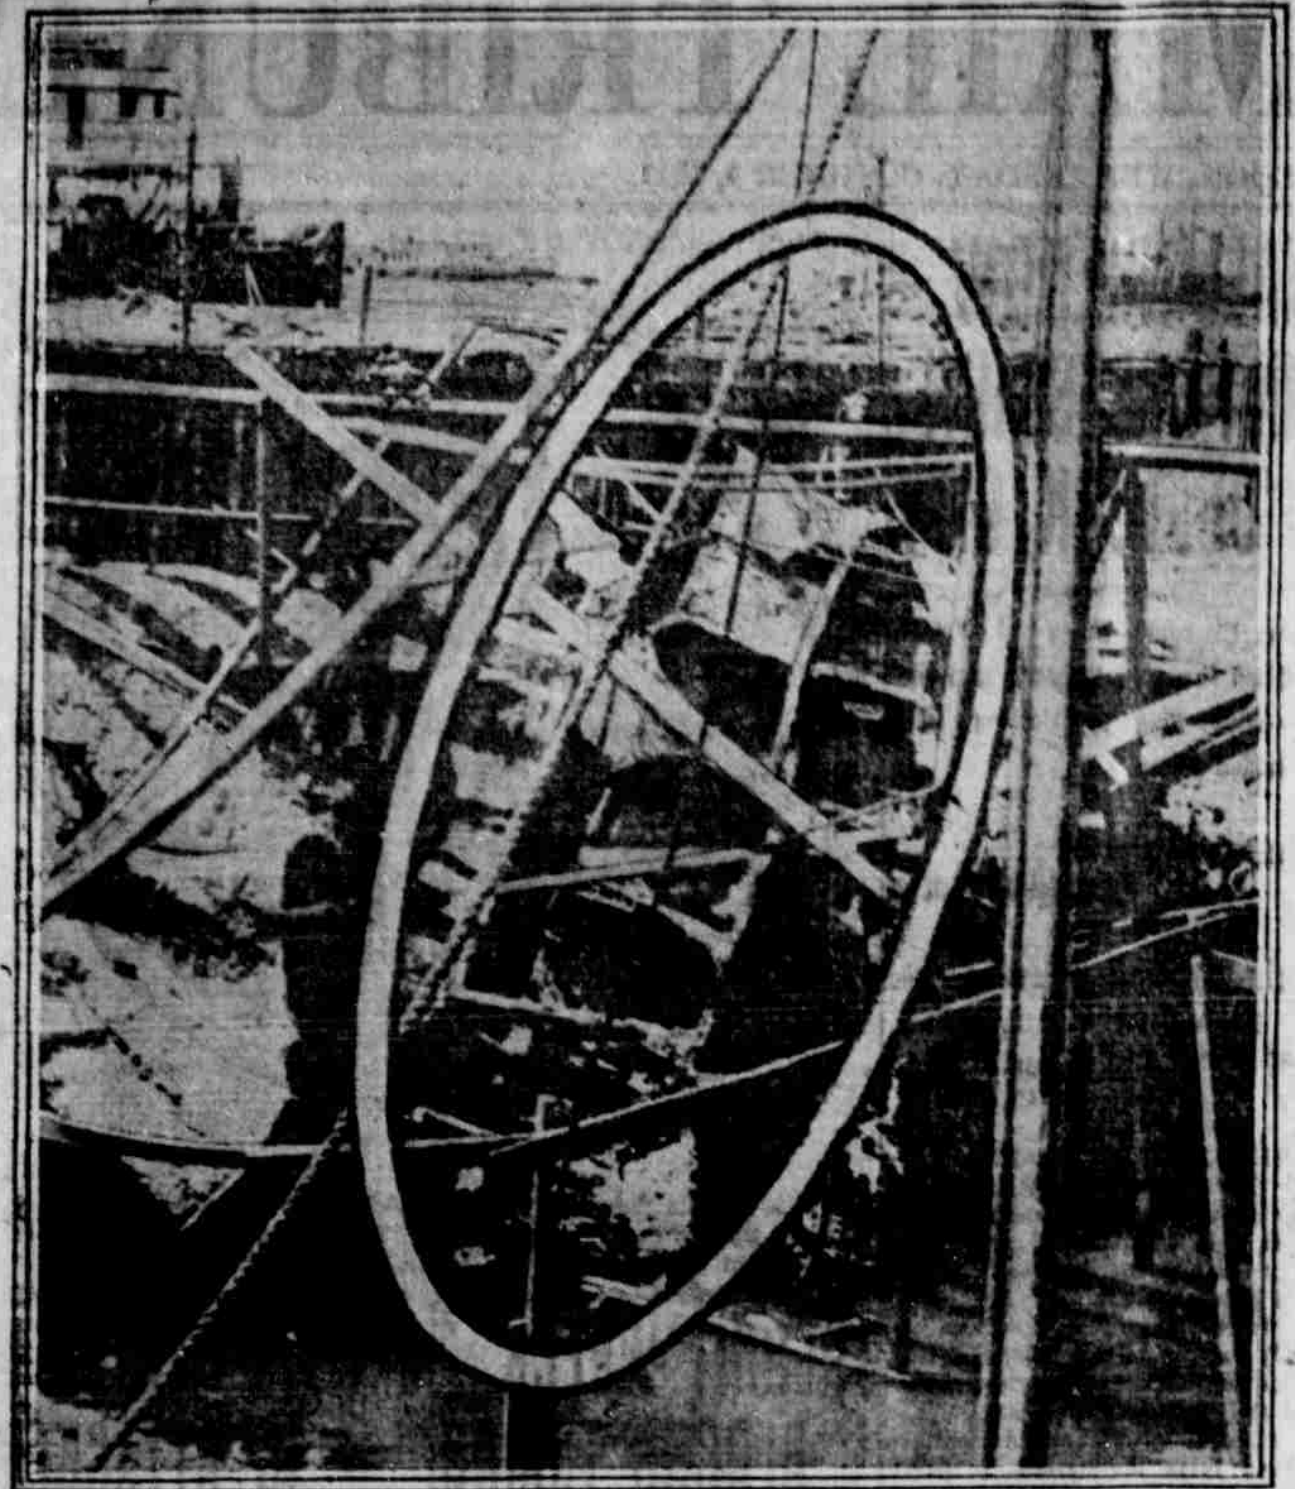

Walter Kane and Joe Parker will set a merry clip as they are both fast and willing boxers.

Eddie Whitey versus Willie Keogh are reported to be clever light weights and new additions to local fight fans.

Mistah John Turner and Mistah Bert Jones will be there to decide which one has the right for another chance at "Chic" Bowlen, according to dope Jones should win, as he has met Chic twice, the first time having the best of it, the second time he lost the decision as he was not in the best of condition, and there are many sports who think if Bert Jones were properly trained, he might be able to take the mighty Chic into camp, while on the other hand Turner in his only meeting with Chic, was stowed away in one round, but gives his excuse, saying that if it were not for the fact that Chick caught him with what they term in boxing a lucky punch, he surely would have outpointed Mistah Bowlen.

Tickets for sale at club rooms and Medford Cigar stand. All members must secure their tickets at the club before Friday night.

LATEST PHOTOGRAPH SHOWS MAINE WAS BLOWN UP FROM OUTSIDE

PORTION OF THE MAINE SHOWING SECTION OF BOTTOM (WITHIN THE OVAL) SUPPOSEDLY FORCED UP BY EXTERNAL EXPLOSION.

Photographs of the wreck of the Maine in the stage of uncovering now reached would seem, in the opinion of navy officers, to bear out the findings of the original board of inquiry, based on the discoveries of divers. That the portion of the bottom in the neighborhood of frame 18 had been blown upward by an external explosion was the opinion expressed by Ensign Powellson in his testimony at the investigation after the disaster. The accompanying photograph shows a portion of the vessel's keel plate forced upward from the bottom to the very top of the wreckage, a fact apparently bearing out what divers working under adverse conditions stated to be the case.

POLITICS AN AID TO DEATH ANGEL

Developments in Investigation of Dam Catastrophe in Pennsylvania Brings out Fact that Bill to Regulate Such Structures was Killed

AUSTIN, Pa., Oct. 4.—Developments brought out today in the course of fixing to responsibility for Saturday's disaster here, when scores lost their lives by the breaking of the Hayless Lumber company's dam tend to show that politics had been injected into the case, a year ago, so successfully that all supervision by the state was removed by law.

Governor John K. Tener, investigating at the scene of the disaster, today said:

"The responsibility for this calamity never may be fixed. It is to early to talk of prosecutions. I am doing everything possible to alleviate the suffering of the people, and I think that the situation is now well in hand, in that respect. The state does not control this sort of dam."

State Water Commissioner Feetz inspected the dam early today. He made a statement that the dam had never been officially complained of, and that a bill, introduced at the last legislature, to give to state jurisdiction over such dams, had been killed.

Prosecutor Nelson of Potter county, has called an inquest for the dead to be held Friday. The search for bodies continues, many corpses being recovered that are burned beyond recognition.

SHIPMENS TO PROTEST NEW CLASSIFICATION

CHICAGO, Ill., Oct. 4.—It was learned here today that manufacturers and shippers are quietly preparing to protest to the interstate commerce commission when the new issue of the western freight classification appears, with the view of having the new classification suspended.

The new issue will contain changes decided upon at the recent meeting of the western classification committee at Milwaukee.

The features objected to mostly are the recommendations of the uniform classification committee, which is seeking to unify freight descriptions and classifications for the entire country.

TACOMA, Wa., Oct. 4.—"Two Ohio men will fight it out for president and the democrat will win," said Lieutenant Governor Nichols of the Buckeye state, who is on a tour of the country in the interest of Judson Harmon.

"I can't see any chance of Taft's falling to be re-nominated," said Nichols in an interview today, "and Harmon's chances seem equally bright. But Harmon will win in the election just as he did six years ago as a candidate for governor."

UNCLE SAM SELLS MEN AT AUCTION

WASHINGTON, Oct. 3.—Despite the fact that the days of slavery are over, the practice of selling men under the hammer has not passed away. Uncle Sam not only tolerates it, but recently sold some men at auction.

Yes, several men who have been in his service so long that they have become superannuated, were sold at auction recently at the painfully low price of \$2 for the lot, but of course it must be admitted that those men were not real, live, honest-to-goodness men. They were dummies who had straddled artificial mules in the Postoffice museum on the third floor of the Postoffice building for many years.

Many of the mannikins which sold for a pittance had seen wide travel and had attracted the attention of countless thousands. Some of them have been making at the big exhibitions since the World's Fair in Chicago in 1893.

As the figures stood on the sidewalk beneath the general postoffice building they were a sorry lot. Orientalism was predominant, for the Chinese and Japanese letter-carriers were spick and span, with hardly any wear noticeable; the Turk was shy

Pimples and Blackheads CAN BE CURED

No matter how difficult the case, nor how long it has lasted, Marinello Treatment will positively improve any skin in a few days. A complete cure is only a matter of persistence. Marinello operators do not pretend to enter the province of the physician. Most of their work is done by request of members of that profession who have no time to give to this kind of work, yet require their patients to have special care.

If you have even the first symptoms of this trouble, investigate at once. Do not let a day pass without checking this tendency. Delay will only coarsen the skin and make the improvement slower. Full, free explanation to all who desire information. Call or telephone.
