CARD COMES BY AERIAL POST

First Postal Card to Be Received in Medford Making Part of Trip by Aeroplane Is Received by W. J. Petty.

W. J. Petty, manager of the Medford Hardware company, is in receipt of a post card which traveled part of the distance between London, England, to Medford, Oregon, by aerial post.

An aerial post route has been established between London and Windsor, a distance of thirty miles by the English government.

On the face of the card was the postmark "First United Kingdom Aerial Post," London. The English government in accepting messages for transmission over this aerial route does not hold itself responsible for loss, damage or delay. The post is devoted to public charity.

FOREMEN MAY BE CALLED OUT

Many Union Foremen Were Not Asked to Go Out at First but It Is Believed That They Will Now Be Forced to Quit.

SAN FRANCISCO, Cal., Oct. 11.—Whether the striking workmen of the Harriman lines will call out the union foremen of the shops is a question which will be submitted to the members of the federated unions throughout the country. Reports received by Secretary John Scott of the federated shopmen are to the effect that in many cases foremen are acting as guardians of the strikebreakers. In justice to the union workmen who have quit their positions when the machinists and others of the federated trades went out, the officials of the federation believe that the strikers should take some action regarding the foremen who remained. It is probable that a strong vote will be cast recommending that the foremen join the strikers.

FEAR MISSIONARIES HAVE BEEN KILLED

HANKOW, China, Oct. 11.—Grave anxiety is felt here for the fate of twenty-five American missionaries who were in Wu Chang when the rebels captured that city yesterday. All communication is severed. Wu Chang is across the river from here. It has a population of 108,000.

SAN FRANCISCO, Cal.—While the Presbyterian ministers of San Francisco were holding a special meeting this morning to indignantly protest the announced plan for President Taft to take a joy ride Sunday morning, the president himself accepted an invitation to attend divine service at the First Unitarian Church, which will be led by Dr. Bradford Leavitt.

TWO COULDN'T WAIT LONGER

Complaint Is Filed by George Hargadine of Ashland Against Two Local Men for Killing Quail of Season.

Because they couldn't wait until next Sunday when the season opens, but killed quail before the law permits them to, W. M. Tuttle and E. E. Geer, local men, must answer to a complaint filed against them by George Hargadine, deputy game warden of Ashland.

Hargadine has the quail for evidence. He says the two men went out Sunday for the birds.

to destroy the Times.

All this evidence the defense will combat with testimony to show that there never was a dynamite explosion; that leaking gas caused the wreckage; that the accused men are innocent, the victims of a gigantic plot which has for its object the branding of organized labor leaders as murderers and dynamiters.

Every effort has been made to further this idea from the time that the "Times," owned by Harrison Gray Otis, a bitter and vindictive enemy of organized labor charged that bombs planted by labor had destroyed his newspaper plant, until the McNamaras were placed behind the bars of the Los Angeles county jail. Otis made this charge before the fire was out in the ruins of the Times. It has been repeatedly made every since.

Next in the chain of events came the arrest of Ortie McNamagal, John and James McNamara. The McNamaras were extradited from the east without being given a chance to consult counsel and as a result Detective Wm. J. Burns, who ran down the accused while in the employ of the National Erectors Association, and of the Merchants and Manufacturers Association of Los Angeles, and Detective James Hosiek of Los Angeles, are under indictment for kidnaping.

All these elements will enter into the case, but the first and principal thing the prosecution must prove is that the Times building was blown up by dynamite and not by gas.

And it is the proof of what actually caused the disaster upon which the success or failure of the prosecution will depend.

The prosecution will have the legal and financial backing of a great state; the defense a great and brilliant array of legal talent and financial support of organized labor, because organized labor wants to give the accused every chance to prove their innocence.

Before the trials are ended they will have cost close to a million dollars, will have consumed at least eight months and resulted in the examination of more than 400 witnesses.

PEKING—Reports of an ambitious scheme for the development and strengthening of the Chinese navy are current here as a result of the arrival of Charles M. WEATHER MAN IS MAROONED

Jupiter Pluvius and His Associated Storm Kings Catch Local Man Off His Guard and Keep Him Prisoner on Lake.

Catching Professor P. J. O'Gara out of his district, and evidently neglecting his weather business, Jupiter Pluvius and his associate storm kings held the professor a prisoner for three days on Klamath Lake. The professor was finally allowed to go by the wet monarch upon his promise to return to Medford and tend to the weather properly.

Professor and Mrs. O'Gara were the guests last week of Mr. and Mrs. A. C. Allen on their house boat on Klamath Lake. They had wandered down the lake in the boat and were anchored in a little cove when a storm broke. For three days they were marooned. But, according to the professor, they had a splendid time, just the same.

PORTLAND, Ore.—Charged with arson in connection with a fire of incendiary origin that damaged the Saecry hotel in South Portland early today and endangering the lives of 20 occupants asleep at the time, P. E. Uln and his wife were arrested.

PHOTOPLAYS

At the Ugo.

The Ugo theater this evening is offering one of the largest shows of the season. The Countdown Kids who opened Monday will give their last performance. This act includes ten people and has made a strong hit. Aside from this there are three rolls of pictures, one featuring those rising young comedians, Mutt and Jeff.

A dramatic subject dealing with the west and the third da comedy. From all indications the Ugo crowd will be a laughing crowd tonight.

WANT CLEAN UP DAY IN STATE

Governor West Is Urged by President of National Board of Fire Underwriters to Have Debris Removed.

SALEM, Ore., Oct. 11.—Governor West is today in receipt of a letter from George H. Rabb, president of the national board of fire underwriters, strongly urging him to set aside a clean-up day in Oregon.

Rabb says that the great fire losses in the United States each year would be greatly reduced if the people made a systematic effort to keep their homes in repair and remove debris from their property.

TAFT DECLARES THAT CANADA MADE MISTAKE

BELLINGHAM, Wn., Oct. 10.—Declaring that Canada made a mistake in defeating reciprocity, President Taft here made his most vigorous comment on the reciprocity issue.

"I think I know a little more on this side," he said, "than the Canadians do on theirs, because we are an older country, and after some years of experience it is possible that they will come to take the right view, but whether they do so or not, if they don't grow as rapidly as we do and as rapidly as they might have grown they cannot say it is our fault. I think you will agree with me that in defeating reciprocity they made a mistake."

The president declared he would let the people of Bellingham into an "official secret" and said that the Panama canal will be completed by July, 1913. This prediction was cheered by the 5000 people who listened to him.
