HAPPY HOGAN HAS NO CHANCE

Trusty Willows of the Oakland Aggregation Have Sent Vernon Spinning on the Downward Glide and Its All Off.

LOS ANGELES, Oct. 13.—The trusty willows of the Oakland aggregation of ball players have sent Vernon spinning along the downward glides and today it is freely admitted that Hap Hogan's chance for the coast league pennant has gone a glimmering. Four straight defeats in a row at Oakland tells the tale.

The only chance the Villagers now have to cap the rug is for Vernon to win five straight games and the Beavers to lose as many. However, the people of Los Angeles believe the day of miracles has passed and with the exception probably of Hogan himself nobody now concedes Vernon even a look-in.

"FIRE THE MAN AND KEEP THE WOMAN"

TACOMA, Wash., Oct. 13.—"Fire the man and keep the woman."

This is organized labor's message to Governor Flay by wire from all over the state today, following the information that Mrs. Blanche Mason, deputy state labor commissioner, was to be removed.

Hay says there has been friction between Mrs. Mason and Chief Commissioner Hubbard, and he has to choose between them. The labor people are unanimously in favor of the woman. Mrs. Mason has been active in enforcing the eight hour law women's day and factory regulations.

These are a very decided objection in the senate to the approval of those treaties," said the president. "The general argument seems to be that we ought not to involve ourselves in entangling alliances with republics in this hemisphere or

TAFT DEFENDS LOAN TREATIES

Makes Vigorous Defense in Sacramento of "Dollar Diplomacy"—Says He Expects Opposition in the Senate.

SACRAMENTO, Oct. 13.—A vigorous defense of "dollar diplomacy" is exemplified by the Nicaraguan and Honduran loan treaties now before the senate, was made here today by President Taft.

The president lauded the two treaties which guarantee the collection of the customs duties of the South American republics, to satisfy loans to be made by American bankers under the treaties, as a means of preserving peace in Central and South America. He declared that with the debts of those two countries funded, and the collection of the customs in the hands of men recommended by the United States working under the protection of this country, revolutions would cease. He urged that the innumerable Honduran and Nicaraguan revolutions have the customs houses as their objective point, and that with these under American protection there would be no incentive to revolution. The loans to be made by the American firms of J. P. Morgan & Co., Kuhn, Loeb & Co., the First National Bank and the City National Bank of New York, are to be used to liquidate the debts of Honduras and Nicaragua and their payment is to be guaranteed out of the customs receipts.

"These are a very decided objection in the senate to the approval of those treaties," said the president. "The general argument seems to be that we ought not to involve ourselves in entangling alliances with republics in this hemisphere or

to engage in what seems a mere banking arrangement for the promotion of a banking contract. It is objected that this "dollar diplomacy" and that we ought to have none of it. Give a dog a bad name and you know what follows. To call another piece of statescraft "dollar diplomacy" is to invoke the condemnation of much-raking journals whose chief capital is in the use of phrases of a lurid character."

"The United States didn't enter into these treaties for the promotion of its own banking business or that of any of its citizens. Trade is not the chief purpose of this contract for it is to promote peace in this part of the world, so near the Panama Canal as to give us an additional geographical reason for desiring to eliminate revolution and warfare."

The president discussed the funding of the debt of the Dominican Republic as an instance of the wisdom of such arrangements.

Haskins for Health.

We notice that some merchants in other cities are using considerable space advertising "Made in Oregon" goods. That is as it should be. The merchant must know that his individual prosperity is to a great extent dependent upon the prosperity of the state at large, and if Oregon manufacturers are patronized, that it will mean greater pay rolls, and greater pay rolls mean a larger degree of prosperity for every man, woman and child in Oregon.

"Light as a feather" BISCUIT

Cottolene
makes light, flaky biscuit
that almost melt in your mouth.
It contains no greasy, indigestible hog
fat. **Cottolene** is made from choice vegeta-
ble oil, and is by long odds the most healthful
fat for frying or shortening.

Cottolene may cost a little more per pound than
lard, but it goes one-third farther and is therefore worth
more.
