STEEL TRUST BLOCKS LOAN

James A. Moore of Seattle Says It Is Impossible to Borrow Money to Develop Pacific Coast Coal Lands.

NEW YORK, Oct. 14.—That the development of valuable ore properties on the Pacific coast is being blocked by the steel trust is the statement here today of James A. Moore, millionaire promoter of Seattle.

Moore and his associates are endeavoring to borrow \$600,000 in Wall Street, offering as security Pacific coast ore lands and coal fields which experts say are worth many millions, but they are turned down wherever they go. Moore says this is because the United States Steel corporation has tightened its grip on the money bags of the street for the purpose of stifling in its infancy a dangerous competitor and eventually swallowing up the plant and its rich properties.

LINDSEY GLAD SUFFRAGE WON

Noted Juvenile Judge of Denver Says It Will Do Much to Hasten Progressive Movement Throughout the United States.

DENVER, Col., Oct. 14.—That the triumph of woman suffrage in California is a triumph for the progressive movement all over the nation is the opinion expressed here by Judge Ben B. Lindsey, noted juvenile criminologist and an active worker for the equal suffrage cause. He said:

"The triumph of suffrage in California is a triumph for the progressive movement all over the nation. So long as we have women forced into economic competition with men taking their part in the business and industrial world it is not only unjust but little short of criminal to deny them the same rights as men to participate in the government under which they live. In the end it will do more to return women to their proper sphere as home makers and the mothers of children than any other step yet taken in our new civilization. I am one of those who hold to the old fashioned notion.

"Women belong partially to the home but that does not mean that she should be denied a vote in solving the great problems of civilization, for there can be no real home for all the people until these questions are settled, and settled right. I am firmly convinced that woman even more than men in the end can be depended upon to be on the right side in the struggle ahead.

"When the unfair methods of the anti-suffragists are fully understood the cause of suffrage will sweep over the country until woman shall vote in every state as they do in Colorado, and we shall look back upon the arguments and opposition against it as we do upon the mistakes and ignorance of the dark ages."
