### STATION SITE NOT YET CHOSEN

James Withycombe Writes That Committe Will Not Arrive for a Few Days Owing to Absence of President Kerr.

That the matter of establishing the southern Gregor experiment station in one of the mouthern Oregon communities which are bidding for It has not yet been settled but will be in the pear future, is the word recrived from James Withycombe, director of the Oregon experiment station at Corvallis, whose letter is as

"The matter of establishing the southern Oregon experiment station is as yet unsettled. The heard of regents of the Oregon Agricultural college left this matter of establishing the station to a committee consisting of Hon. J. K. Weatherford of Alhany, president of the board of restepts, Hon. J. D. Olwell of Medford. a member of the board, and Dr. W J. Kerr, president of the college. The recent delay is due to the fact that President Kerr was suddenly called east on account of illness in his famthy. Upon his return I feet sure the committee will visit southern Oregon. He is expected to return tomorrow.

### GRAHAM QUITS AS PRESIDENT

Says He Has Served His Time as Head of the League and Judicial Duties Make Heavy Demand on His Time.

BAN FRANCISCO, Cal., Oct. 20. Phomas F. Graham spre Pacific Coast baseball league, handed in his resignation to the board of directors today. There has been no couble or friction between Graham and the directors. - Press of judicisl business and a feeling that he has erved his time as head of the league led the president t oresign.

"Raseball on the Pacific coast has developed so rapidly during the past few years that I feel the president of the Pacific Coast league should be a 100 man who can devote his whole time and attention to it," said Graham. This I cannot do, owing to my ju-10 dicial duties. I want to extend thanks to the players, the press, and most of all to the fans, for their loyal sup-25 port of the league during my term as executive."

Graham was elected president of the league in 1909.

# Cottolene A Rational National Shortening

The woods are full of imitations of Cottolene-because Cottolene has made a pronounced success as "the perfect shortening." These imitations are of inferior quality, are packed in tins with ordinary removable covers, and depend largely upon substitution methods for their sale.

When you ask for Cottolene be sure you get Cottolene.
There's only one Cottolene—packed in patent air-tight tin pails, with our trademark on the face of the pail.

It pays to pay a little more for Cotto-lene because of its superior quality and the fact that, being richer, it will go one-third farther than lard or any of its imitations. Its use means economy in the end.
