## PHILADELPHIA CINCHES CHAMPIONSHIP CHINESE EMPEROR FLEES FROM PEKING FOR HIS LIFE

### ROUND-UP OF BOOSTER CLAN THIS EVENING

Speaking, Eating and General Jollification Will Mark 1911 Fall Round up of the Rogue River Valley Boosters.

**NATORIUM HALL;  
EIGHT O'CLOCK TONIGHT**

Record-Breaking Crowd Is Wanted for a Record-Breaking Meeting Tonight.

The Clujks rise up against their king and all the royal works. The bold Italian gamely await the erstwhile terrible Turk. The state of California bows before the suffragette. The instance of this whirling world seems suddenly upset. But let it go for a short while, forget it if you can. And come out to the round-up of Medford's booster clan.

Forget old times for a while, and banish Webster too. Tear out from printed history the old-time talking crew. Judge Colvig and assistants are slated for tonight. And everyone should hear them, so they can boast a right. Tonight real history is made—through some book the news of what is done tonight will sound—so come and say your dues.

Then drop your business—dry your tears—if tears you have to shed. And take your way along the streets that hundreds more will tread. Save up your every breath to shout—let not your footstep stray. Unless it be along the street, toward tonight's assembly. Add all the names that you can get to swell the membership. Control your hearts as best you can—and watch old Medford git.

The 1911 fall round-up of the Medford commercial club is scheduled for tonight.

Eight o'clock, Natorium hall, tells it all, and from present indications every live wire in the city will be present.

There will be good things to eat—and good things to hear. Oratorical feasts will abound while heavily laden tables will provide for the inner man—one really cannot afford to miss it.

The fall round-up of the Medford commercial club is an annual event in Medford—always a success. To night's promises to be the best ever held in southern Oregon.

Among the speakers will be: William M. Colvig, for three years president of the club and booster extraordinary.

W. H. Gore, president Medford National bank, good roads advocate and orator.

Will R. Coleman, county clerk, progressive, and mixer.

Professor P. J. O'Gara—who has too many titles and stunts to enumerate, albeit orchards are his long suit.

Porter J. Neff, city attorney, builder and booster. Some talker, too, by the way.

Judge E. E. Kelly, barrister, sportsman, and crackerjack fisherman.

And others too numerous to mention.

F. Osenbrugg has charge of the "cats" and has prepared a feast seldom equaled. There will be everything from venison to pumpkin pies, and apple cider to water.

Representatives of many other clubs will be here. A record-breaking crowd is wanted to attend a record-breaking meeting. So come along and bring your friends.

Natorium, 8 o'clock.

### 300 EDUCATORS ARE IN SESSION IN THIS CITY

Interesting Work Is Being Conducted at Annual Joint Institute of Jackson and Josephine County Teachers, Now Under Way.

Over 300 teachers are in attendance in Medford at the joint convention of Jackson and Josephine counties and one of the best sessions of educational workers ever had in southern Oregon is now in session in the auditorium of the Medford high school.

The brief session of yesterday was a very interesting and profitable one as seen from the viewpoint of that great assembly of workers who are giving up many of them the best days of their lives, and their earnest efforts in the advancement of education, all keeping pace with new and modern ideas as to the inculcation into the minds of the young those many thoughts and principles, compiled with text book education, which will be of profit to the student as he reaches mature years.

A reception was given the visiting teachers by the teachers of the Medford schools in the high school auditorium last night. A splendid short musical program was given, after which followed a "get acquainted" and social hour, after which refreshments were served.

Today's session opened with an assembly address by State School superintendent L. R. Alderman, his subject being "The New Course of Study." Following this was primary reading "How to Begin," by Maude Langhead; "Advanced Reading in the Upper Grades," by Montana Hastings; "A Young Man's Ideal," by C. J. C. Bennett; "Glimpses From the Schools of Germany and England" by Montana Hastings.

The afternoon session opened with "How to Get Expression in Reading," by Maude Langhead; a selected subject by C. J. C. Bennett; "Art in the Rural Schools," by Jennie Anderson; "A Seminary Investigation Into Study Values," by George Rebec; assembly address, "The Child," by G. A. Briscoe; and a selected subject by C. J. C. Bennett.

### REBELS SEIZE CANTON AFTER HARD BATTLE

Reported That Emperor Is Preparing to Go to Mukden to Put Himself Under Japanese Protection—May Later Go to America.

GERMANY SAID TO BE VERY ACTIVE FOR MANCHUS

Japanese May Take a Hand in the Chinese Embrolio in Order to Protect Her Trade.

SAN FRANCISCO, Cal., Oct. 26.—In a panic at the unmistakable signs of a revolutionary outbreak in Peking, the Manchu royal princes with the child emperor and many high government officials are in flight from the capital to the town of Yit Haw, 150 miles away, according to a dispatch received by the Chinese Free Press from its Hongkong correspondent today.

SHANGHAI, Oct. 26.—The Chinese rebels have seized Canton after a hard fight in which the casualties were heavy. This report is generally credited here today.

It is said the emperor is preparing to go to Mukden and put himself under Japanese protection. Later, it is reported, he may go to America.

TOKIO, Oct. 26.—Charges that Germany is interfering in the Chinese revolution and officers of the kaiser's army under the pretense of being attaches are really leading the government forces in an effort to save the throne of the Manchus created a great sensation here today and are likely to culminate in serious international complications.

While no official announcement has yet been made of the matter, it is stated that the Japanese government is fully informed of the activities of the German officers, and that communications on the subject have already been dispatched to London and Berlin.

Serious Events May Follow. All efforts to get an official statement on the situation so far have been fruitless, the Japanese government exhibiting its customary reticence. It is believed that the recent offer of Japan to send an expedition of 70,000 men to China was prompted by the knowledge of the German activities, and it is also hinted that the heavy mobilization of Japanese forces at Kyushu may have been caused by the prospect of serious eventualities.

Just what position Great Britain will take, in case the reports of German activity are confirmed, is creating the keenest interest here. The acquisitions by Germany in the Kiaochow region are known to be regarded with jealousy by England, which country fears that the fighting in the Yangtze valley may imperil her own great interests in that region.

Would Aid Germany. It is pointed out that Germany, by gaining the friendship of the Manchus, would in the event that the rebellion is crushed, be in a position to demand concessions which the dynasty it helped to save would find it hard to refuse.

Japan, too, is watching closely the progress of the revolt in the Manchurian region. So far there is no indication that aid or comfort to either the rebels or the Chinese government has come from Tokyo, but it is regarded as probable that the mikado's ministers look with much disfavor upon any attempt to increase German prestige or possessions in China, and that the alleged activities of the kaiser's officers will draw forth, or have already drawn forth, a strenuous protest to Berlin.

SANTA ROSA, Cal.—A pipeline from his saloon to a nearby creek carried hotted beer to the Indians. The inventor is in jail at Kenwood.

Before he took charge as pastor the Emmanuel Baptist Church the Rev. Richeson was pastor of the Hyannis Baptist Church, near Cambridge. It was at this church he first met the Linnell girl, who sang in the choir.

### OVERWHELMING SCORE OF 13-2 IS MADE TODAY

Philadelphia Goes Crazy in Seventh Getting Seven Runs and Seven Hits—Had Six Runs When the Fatal Seventh Opened.

SCORE OF GAMES: NEW YORK 2: PHILADELPHIA 4

Ames, Wiltse and Marquard Used to Stem the Tide but Their Efforts Failed.

The score: R. H. E. New York ..... 2 4 4 Philadelphia ..... 13 13 5

SHIBE PARK, PHILADELPHIA, Pa., Oct. 26.—The Philadelphia Athletics are again world's champions. By a score of 13 to 2 the Mack men defeated the New York Giants after a game in which the National league leaders were simply slaughtered.

All the craft of Ames, Wiltse and Marquard failed to stay the fierce batting of the Athletics, while Big Chief Bender, on the mound for the American leaguers, although scored on the first inning, held the Giants in the hollow of his hand until the last half of the ninth, when they were virtually presented with a run.

The third inning by Lord's double score Thomas' with the Athletic's run. Baker rapped out a single, which started a rally and before it was over in the fourth four runs had put the game on ice.

No score was made in the fifth, but in the sixth the Mack men added another tally.

The Fatal Seventh. Then came the lucky seventh. But it was not lucky for New York. Big Chief Bender held McGraw's men hitless, fanning two of them. Then the fireworks started. Bender fled to Doyle; then Lord singled, Snodgrass, who achieved fame as the prize bonhead of the game, misjudged Oldrine's fly and Lord took third. Then came the squeeze play. Merkle dropped Wiltse's throw of Collins' grounder and Lord came home. Then Baker singled and Oldring crossed the pan. Then Murphy singled and Collins scored. Davis walloped it and Baker came home. Then Barry doubled, scoring Murphy. Ames was yanked and Marquard came in. His first effort was a wild pitch six feet to Meyers' right, and both Davis and Barry romped across the plate. Confused by the procession, Meyers argued with Umpire Connolly that three men were out, and was fired from the game. Finally Bender fanned, and the slaughter was done.

One More Run. There was no score in the eighth. In the ninth Oldring's fumble and a wild pitch put Herzog, who had singled, on third and he scored on Fletcher's out.

The marvel of the game was the way New York went to pieces in the fourth and the seventh innings. When the big bats of the Athletics began to swing the New Yorkers played bush league ball. They were all over the shop, making wild pitches and ragged plays which were inexorable. True class showed itself in the game and there is no longer doubt as to which league boasts the right to the championship of the national game.

The score: (Continued on Page 4.)
