EAGLE POINT EAGLETS.

(By A. C. Howlett.)

As announced in my last George Brown and sons and Von der Hellen Bros. gave their general opening of their new stores that have just been finished and stock with goods last Saturday. Early in the day the crowds began to flock in and by 11 o'clock that part of our usually quiet village was all astir and by 3 p. m. the street and sidewalks in that part of town reminded one of Third Washington streets in Portland, and the stores were simply filled with people anxious to see for themselves and take advantage of the offer of fine bargains and a souvenir for each and attending the sales. Von der Hellen Bros. giving out to their visitors a neat stoppan. They are in the hardware business and the Brown Bros. gave a neat match safe, asbestos mats and a bottle of vanilla. The crowd also were offered extra bargains in shoes and hats and took advantage of them. One of the firms told me in the afternoon that their sales would amount to at least one thousand dollars; that he had already sold over two hundred dollars worth of shoes. In the evening they gave a free dance in the hall, in the upper story of the building, but the crowd was so large that there was not room for much dancing, but they had a good social time. In the course of the evening light refreshments were served, and those who were there at the dance report having had a remarkably pleasant time and all speak in high terms of the courteous attention paid by those who catered to their wishes. Talking all in all to account the opening of these two stores will be one of the bright spots in the history of Eagle Point.

Sunday, November 5, Mrs. Howlett gave a birthday party to a number of her friends. The dinner was specially prepared in commemoration of the birthday of our baby Agnes, now a young woman. John W. They Land Jimmy Valentine in Jail But a Good Girl Gets Him Out.

Possessing fingers so sensitive that he could work the combination on any safe and walk away with the contents is what sent "Jimmy Valentine" to the penitentiary. But it is his gallantry to a woman of prominent connections that secured his pardon and led to his reform.

Mr. E. W. Todd, Distributor
Dobbins Blow-Out Chains,
Los Angeles, Cal.

Dear Sir:

I wish to advise you that I have been carrying on my automobile some of your Blow-Out Chains and have found them to be exactly as represented.

On a recent trip to Ventura county, a large Simplex car accompanied me. About 25 miles out from Los Angeles, he had a blow-out on one of his front tires. I suggested using your blow-out chains instead of a new tire. He put an inner shoe in the tire and placed a four strand chain over the blow-out, and made a 200-mile trip over the mountains from Matilija back to Los Angeles, and the tire has run some 700 miles after making this trip without giving any extra trouble. This is positive proof that extra casings are not necessary if you have enough Dobbins Blow-Out Chains with you for a long trip.

Assuring you of my best wishes and wishing you every success, I remain

Yours truly,

J. W. HENDERSON,

Vice President Western Department.

IRRIGATION

IRRIGATION is the science of giving a plant just as much moisture as it needs, and just exactly when it needs it.

IRRIGATION has added more wealth to the country in the last ten years than any three of the largest resources combined. Thousands of acres of worthless land have been reclaimed and some of this land has sold for the highest prices ever paid for horticultural or agricultural land.

IRRIGATION will reclaim "the desert," 6500 acres will be developed into a vast orchard district. "The desert" when irrigated will prove to be the best orchard land in the Rogue River Valley.

IRRIGATION will make the Rogue River Valley famous for its berries. The largest yields in the next few years will come from "the desert."

IRRIGATION will add thousands of acres to the producing area of the Rogue River Valley, and in these new districts there will be no crop failure, for irrigation is a guarantee of bountiful yields, and is real crop insurance for the grower.

IRRIGATION in the Willamette Valley has increased production from sixty to three hundred per cent. It will do the same in the Rogue River Valley.

IRRIGATION will double the population of Medford and the Rogue River Valley in the next few years. New homes will be established. Orchards will be planted on lands that have never been productive. "The desert" will be redeemed and a thousand families will be added through this development.
