Children's Eyes

require more careful watching than those of the adult. If your child complains of her eyes at all have them seen to at once without delay. Nothing is of more physical importance than the sight. I examine eyes scientifically and make a specialty of children's eyes. I fit lenses to suit the sight exactly, for old and young, and my charges are fair.

The Famous Rayo Lamp
The best part of the day is the evening, when the whole family is gathered together around the lamp. The old days of the smoky fireplace and flickering candle are gone forever. In their place have come the convenient oil stove and the indispensable Rayo Lamp. There are no-day, in the United States alone, more than 3,000,000 of these Rayo lamps, giving their clear, white light to more than 3,000,000 homes. Other lamps cost more, but you cannot get a better light than the low-priced Rayo gives. It has become so popular we may almost call it "the official lamp of the American family."
The Rayo is made of solid brass, with handsome nickel finish—an ornament anywhere. Ask your dealer for a Rayo lamp; or write for descriptive circular to any agency of the Standard Oil Company (Incorporated)
