

URGES ALL TO GET RIGHT WITH GOD

Dr. Ray Palmer Preaches to Large Audience and Induces Three to Come Forward and Profess Faith in Christ.

Dr. Ray Palmer preached last night at the Baptist revival on "Get Right With God"; text, Psalms, 78:37: "Their heart was not right with God." The sermon was said to be one of great charm and power. Two young ladies and a young man came forward and publicly confessed Christ.

The singing was excellent. The service was the best of the series. Dr. Palmer said in part:

"That man's heart is not right with God who puts the body above the soul. That man who lives for the body to the neglect of the soul, though he may have college degrees, lives only an animal life.

"That diamond you wear is no more in God's sight than a bit of glass that glints in the sunlight on the rim of a frog pond. That ermine you wear was first worn by a beast.

"That ragged urchin on your street is worth more than all the wealth of the world. Save him and he may become a Spurgeon or a Lincoln.

"Shakespeare's father was so ignorant he could not write his own name. John Milton was blind and deaf. God closed his eyes to things terrestrial that he might see things celestial. His ears were closed to the discords of earth that he might hear the harmonies of heaven. When Jesus Christ descended to earth He did not choose to be born the child of a prince in a palace, but the child of a peasant in a manger.

"If you are this night living for the body only, then it is because your heart is not right with God.

"Again, the covetous heart is not right with God. Beware of covetousness," said Jesus.

"Thousands of men have come west with the 'get-rich-quick' idea in their heads. There is a great temptation for men on this coast to forget God and the immortal soul in their greed for gold.

"They imagine if they could only be a second edition of John D. Rockefeller they would be so happy. I see that John D. has gotten out of the Standard Oil. I'm glad he has. I am not saying anything against Rockefeller. He is a pretty good man for a multi-millionaire—far better than the most of them—but it is my conviction that God never intended that any one man should possess millions while thousands are on the verge of starvation in our country. I don't believe that God will endorse a national policy that will make it possible for one man to own the earth. Somewhere along the line there should be a limit. No man can make me believe that the mainspring in actuating one in getting the wealth of the world is his fist is pure beneficence. I say it is covetousness. Again, your heart is not right if you refuse to hear the voice of conscience.

"There is a legend that once there was a city called Luzz. A tidal wave covered it, drowning all the inhabitants. The city remained ever afterward under the sea. When ships passed that way at night the captain would say to the passengers: 'An old sinner was dying. He had bags of gold. He said to the preacher: "Oh, I wish I could take my money with me." "It would do you no good, said the preacher, "for in the country where you are going your money would melt in five minutes."

"See the tops of the church steeples rising above the rim of the sea. Listen, hear the bells down under the water, telling the sad story of the destruction of the city."

"My brother, listen tonight; hear the bells of your conscience ringing, calling you to repentance and faith in our Lord Jesus Christ. Oh, heed the voice of conscience and right with God. Again, your heart is not right with God if you procrastinate. 'Procrastination is the thief of time.'

"A minister called to see a sick mother, he and the beautiful daughter went to the garden to gather flowers for the mother. On the way to the garden the pastor said: 'Mary, your mother is such a lovely Christian; you should be come one, too.'

"I intend to some time," replied the girl, 'but not now.' After the beautiful roses were gathered the preacher said: 'Now, Mary, if I were you I should not give those flowers to your mother—just take them to your room and lay them on the table, where they will be exposed to the sun for about three weeks, and then present them to your mother.' The girl looked up in astonishment and said: 'Why, Doctor, by that time those roses would be faded and dead.' 'Yes,' was the rejoinder, 'but you have just told one that you would not give your heart to God now, while the morning

BIG CIRCUS SCENE IN "POLLY OF THE CIRCUS," MEDFORD THEATER, DECEMBER 6.

When Miss Ida St. Leon, in Fred-eric Thompson's big success, "Polly of the Circus," comes to the Medford theater on Wednesday, December 6, a surprise will be in store for theatergoers. "Polly of the Circus" was

one of the big New York successes and ran for one solid year at the Liberty theater in that city, where crowded houses attested its great popularity. The play with all its effective scenes, quaint characters

and elaborate stage effects, is one of rare delight. The company is excellent, and the scenic equipment is lavish and elaborate. Big circus features are employed in the big circus ring in the third act, among

them are the aerial, trapeze, acrobatics. Mr. Thompson, who designed and built the huge Hippodrome and the greatest amusement park in the world today—Luna park, Coney Island, New York city—is the producer of "Polly of the Circus."

DAVE BRAHAM IN HIS ORIGINAL ROLE OF "PUSH" MILLER IN "CHECKERS."

The one best bet of the theatrical season, the greatest of all racing plays, "Checkers," first under the wire everywhere, will be presented here for the first time next Thursday, December 7, at the Medford theater with the original and practically the original company of artists, including Dave Braham, Joseph Wilkes, George Merritt, Carrie Lamont, Pauline Eberhard, Hobart Cavanaugh will be seen this season in the title role. There are over 100 people used on the stage in the great racing scene in the third act.

This is the only company that has ever presented this fascinating American comedy, by Henry Blossom.

WEST TO ADDRESS LADIES' CLUB

Oregon's Executive Accepts Invitation of Greater Medford Club—Says Governor's Special Is Having Great Triumphal Tour.

In a telegram to the ladies of the Greater Medford club Governor Oswald West states that agreeable to their request he will be pleased to address the club when he is next in Medford, which will be during the latter part of December.

The governor's telegram came from Utica, N. Y., where he is with other western governors. In regard to his trip the governor says:

"The governors' special is having a triumphant tour and thousands are coming daily to hear and see. Oregon is receiving more than her share of publicity. All want to see her products and hear of her popular system of government."

SKATERS MAKE HIT.

Howard Fielding and Helen Carlos, the fancy skaters, made a great hit at the Nat last evening. They are experts on the roller skates and besides, give to their act a vaudeville finish that is generally lacking in similar exhibitions. Mr. Fielding and Miss Carlos will put on their exhibition again this evening.

LOS ANGELES EXCURSION.

Leaving Medford December 29th, an excursion will be run to Los Angeles, round trip rate will be \$35, tickets limited to 90 days for the round trip, stopovers in both directions at the pleasure of the excursionists. Whatever equipment in the way of Pullman and tourist cars will be provided, also chair cars for those who prefer to make entire trip by daylight. Those desiring to go should call, phone or write passenger office Southern Pacific company, Medford, Oregon, and give their orders for sleeping accommodations. The date set will enable those who desire to be in San Francisco for New Years eve (a great treat in itself) and also reach southern California for other attractions.

Haskins for Health.

An Appeal to Wives

You know the terrible affliction that comes to many homes from the result of a drinking husband or son. You know of the money wasted on "Drink" that is needed in the home to purchase food and clothing. Orine has saved thousands of drinking men. It is a home treatment and can be given secretly or taken voluntarily. Put up in two forms, powder or pill. Your money will be returned if after a trial it has failed to benefit. Costs but \$1.00 a box—a mere trifle when compared with the amount a drinking man will spend in a day for liquor. Come in and get a free booklet and let us tell you of the good ORRINE is doing.

KEYES OBTAINS NEW LINE OF AUTOS

J. W. Keyes of the Valley Auto company announces the addition of the Hupmobile to his line of cars and expects to do a large business with them. The "Hup" shows several changes this year and among the ones offered is the new 32 horsepower car, which is a new departure for the company.

"BARGAIN" IS CRY HEARD.

(Continued From Page One)

The National Erectors' association and the National Manufacturers' association to have been the result of an "inner circle" within the ranks of organized labor, promises to overshadow even the original McNamara asces within a few days. When the federal grand jury meets here tomorrow about the first witness to go before it will be Ortie McManigal.

This has been very carefully guarded by the Burns men, but it is declared to be a chronological story of travel from one side of this country to another, leaving behind a trail of explosions. While some of McManigal's story has been told, the details, the Burns and federal detectives say, will electrify the country when made public. John J. McNamara will also be a witness, but what he will say is unknown. His attorneys declare he will tell nothing that will hurt any one else.

500 Detectives. Meanwhile 500 secret service men have been placed at the disposal of Oscar Lawler, special deputy attorney general, named to have direct charge of the probe here. It is intimated by persons close to him that the first indictments in the investigation will come here and not at Indianapolis. The proceedings here will be pushed before those in the east. It is also asserted that in order that men may be entangled who would otherwise escape if they were indicted in Indianapolis.

It is also not likely that there will be any further criminal proceedings in Los Angeles county in connection with the dynamiting cases or attempted dynamiting of the Hall of Records.

What Is Hoped.

Behind the entire probe is the hope of developing who, among the labor leaders of the country, favor "direct action," and who are pledged to "passive resistance." Names of international chiefs were freely handed about in the government building today, and it was prophesied that some, at least, will be under surveillance within a week.

This will reopen the whole controversy whether labor chiefs as a body have advocated and condoned violence, and it is already being charged here that the big interests of the country plan to take advantage of the country's activity to break up the American Federation of Labor.

The classified ads would be the dullest possible "reading matter" for a person who might have no aim or purpose in mind. But to folks with purposes, aims, desires, quests—they are the most interesting "reading" in town!

Sacramento Valley Lands

The Sacramento Valley is the valley of opportunity for the homeseeker and investor. The soils of the Sacramento Valley will produce the widest diversity of crops grown in the western world. The climate is mild and equable. The entire valley has rail and water transportation, bringing it in close touch with all the coast markets, and with the opening of the Panama Canal freight rates to eastern points will be cut in half. Millions of people will pour in from the old countries, and with the vast increase in population, land will advance in value many times over. The time to buy is NOW, while lands are within reason, and reap your profit when the big advance comes. Here are some good ones: 160 acres of rich, level alfalfa land, 2 1/2 miles from Dixon, in Solano county. Dixon is on the main line of the Southern Pacific railroad from Sacramento to San Francisco, 22 miles from Sacramento and 45 miles from San Francisco. This is the only large body of good alfalfa land within 75 miles radius of San Francisco, and by this reason alone it is destined to become the leading source of supply for milk and dairy products for San Francisco and the bay cities, where a million people are now living, and where, with the opening of the Panama Canal, millions more will be there. Dixon ships a carload of certified milk to San Francisco every day. Market milk in 16-gallon cans is worth 14 and 15 cents at Dixon; this is net to the farmer and means that the ordinary dairy cow that gives 2 1/2 gallons a day will pay 45 and 50 cents a day income. You can figure your income by the number of cows you own. Two acres of alfalfa will support three cows. The soil is the richest in the state. Two winters are mild and the summers cool. Irrigation can be had by pumping, over 100 pumping plants in successful operation demonstrate that pump irrigation is more feasible and more economical than gravity irrigation. Every acre of this 160 acres will produce alfalfa in abundance from 8 to 11 tons per acre each season. Fourteen acres now in alfalfa, one of the best stands in the district. "The proof of the pudding is in the eating," and when you see the alfalfa you will not hesitate a minute. The price for the whole 160 acres is only \$17,000, a little over \$100 per acre, and reasonable terms are made. DIXON IS A GREAT GAIN, where you can make a handsome income on cattle, hogs and alfalfa. This is your opportunity.

2 1/2 miles from Dixon, all plowed and sown to barley this fall. All rich, level land, every acre perfect for alfalfa, with alfalfa growing on three in only \$200 per acre on the fourth side. Alfalfa a certified dairy. The price is only \$200 per acre, and the lucky man gets the crop. Reasonable terms are made. 160 acres of rich, level, loam land near Chico, in Butte county, where the U. S. Government located its Plant Introduction Garden, and where the soil exports of the Agricultural Experiment Station stated that the soil and the land are the best combination ever known in the civilized world for successful plant growth. This land faces the main county road leading into town. It is a deep, rich soil, free from hardpan, alkali and gravel, and dotted with handsome oak trees. Alfalfa is grown without irrigation just across the road. There is an eight-room modern house in fair repair, good barns, outbuildings, and the price is only \$25,000, on reasonable terms, just five \$100 per acre.

26 1/2 acres near Chico, adjoining the famous U. S. Plant Garden. All rich, sandy loam, sediment soil, with the exception of 15 acres of high land for building purposes, about 60 acres is orchard. It is the finest in the land for vegetables, alfalfa, fruits or grain. Handsome oak trees scattered over the land. Has a beautiful view of the city and a large portion of the land. It will produce any variety of delicious or citrus fruits, such as oranges, lemons, apples, peaches, prunes, almonds, apricots, pears and cherries. All kinds of vegetables grow to perfection. Alfalfa will make 10 tons per acre, barley 40 bags per acre. The price is only \$100 per acre, and reasonable terms can be made.

400 acres in Tehama county, 1/2 mile from a main line station on the Southern Pacific railroad; 200 acres in alfalfa that produced 1500 tons of hay for the season of 1910 and the summer of 1911, or 7 1/2 tons per acre, all WITHOUT IRRIGATION. The 200 acres of alfalfa land in the land in the Sacramento Valley, bar none. It is pure river bottom sediment, 20 feet in depth, without a trace of alkali, lupine or adobe. It is all fenced and cross fenced into five fields with hog-tight wires. You can keep 200 dairy cows on it the year around. If you want to sell your hay, there is an alfalfa mill on the mill; you can cut it, haul it and deliver it for \$2 per acre, leaving you a net price of \$5 per acre or \$7500 cash for the season on this part of the ranch alone. The remainder of the land is fine for alfalfa. It is the finest peach, apricot or cherry land in the state. It will produce from 10 to 12 bags of wheat per acre in summer fallow, or 12 to 20 bags of barley in summer fallow. This is all fenced and cross fenced into five fields, making 10 hay barns, all kinds of corals for handling stock, electric motor and pump for supplying water for domestic purposes, telephone and electric lights, a large residence, telephone and electric lights, with power on the ranch for pumping if you want to irrigate. An abundance of water can be had at a depth of 100 feet that will rise to within 12 or 15 feet of the surface. It is equipped and ready to handle a large amount of any kind of stock, horses, mules, cattle, hogs or sheep. It is an income-paying property, producing an income of 16 per cent net on only one-half of the ranch. The property is only \$45,000, on terms of \$15,000 cash and the balance in three, four or five equal annual payments, to suit your convenience. It is the BEST BUY in the Sacramento Valley or California. There are no other equal number of acres at the same price that will begin to compare with this.

When you buy land in the Sacramento Valley you are making an investment that is absolutely safe, and where you are going to reap an enormous profit. We handle Sacramento Valley lands, nothing else. We can fit you in anything from a five-acre farm to a 30,000-acre farm. If none of the properties here appeal to you or where you have a mind, kindly give us your ideas. We can FIT you. Make up your mind to look over this country—it is worth your while. Any information will be gladly supplied free of charge.
