The South -

Famed for its Cooks and
Cottolene

To mention the South is to suggest "good cooking." The South is the home of *Cottolene*, and more of the product is used there in proportion to the population than in any other part of the country. This is simply because Southerners know that cotton oil is a pure, vegetable product, and the best cooking fat known. *Cottolene* is made from choice, refined cotton oil, and packed in sealed, air-tight tin pails to insure its cleanliness and freshness.

Why take chances with lard and inferior imitations when you can get *Cottolene*—the original cotton oil cooking fat—and still the best, most healthful, most economical in the market?

Cottolene will aid your cook to make a reputation.
