

DR. PARSONS ON THE HOLY SPIRIT

Able Divine Speaks to Large Congregation—People Are Especially Invited to Hear Him Tonight—He talks on Subjects Worth While.

Friday is to be a great day at the Presbyterian church. Tonight the people are especially invited. If you are not there, you will miss something worth while. A great sermon was preached last night. In part it was as follows:

Grieving the Holy Spirit.

"In the Scriptures the work of the Holy Spirit in us is presented as just as essential as the work of Christ for us.

"His work in us is to impress the truth upon our minds and enable us to realize it. It is to quicken, make strong yet sensitive the conscience; to awaken the emotions so that we shall love the good and hate the evil; to strengthen the will so that we are able to steadfastly continue our endeavor to attain Christian ideals.

"The things that grieve the Holy Spirit are, in the realm of the intellect, prejudice, reckless dabbling with error in preference to feeling on the truth, and refusing to believe God in his word. In the realm of the emotions, suppressing natural affections and longing for what is injurious to us in this world. In conscience, it is any violation of conscience, whether it be neglect or disobedience. In the sphere of the will, it is the neglect or refusal to accept Christ, the neglect of religious duties, prayer, the word, the worship of Christ's church, the service of the kingdom. Toleration of known evil, however insignificant, dishonesty in religious motive both have this same effect.

"The results of grieving the Holy Spirit are always spiritual deadness.

"In organizations, churches may become great world powers without a spark of spiritual life in them, or they may degenerate when they banish the spirit of God, as did English Presbyterianism of 160 years ago, or the Hard Shell Baptist or Andover seminary.

"In the case of Christians they fall into a restless, unhappy state where they are a misery to themselves and others until God reclaims them. Those who commit this sin before entering God's kingdom fall away into spiritual insensibility, in which state they may be indifferent or enthusiastic faddists; they may be without emotion or may hate the truth; they are usually moral anarchists, doing just as they please so far as human law permits.

"What Jesus taught as the sin against the Holy Spirit was to persist in grieving him until he took his departure and left the sinner to his own devices. At that moment the soul is forever lost."

FROM LOS ANGELES TO FLORIDA BY AIRSHIP

JACKSONVILLE, Fla., Feb. 9.—Another aviator, Robert G. Fowler of Gilroy, Cal., has crossed the continent in the air. He is here today, having officially completed his long flight when he landed at Moncrief park.

Fowler left San Francisco for New York September 11 last. He got as far as Emigrant Gap, but storms drove him back and he again started from Los Angeles October 21. In 18 flying days he went 1700 miles to Houston, Tex. December 31 he arrived at New Orleans. Storms delayed his flight since.

SOCIALIST ORATORS SPEND NIGHT IN JAIL

SAN DIEGO, Cal., Feb. 9.—Thirty-eight men and three women who attempted to speak on the public streets here and in the newly created restricted district, spent the night in the drunk tanks of the city jail, being refused bail by the police. Among the speakers were Harry McKee and Attorney E. E. Kirk, prominent socialists. All are to be arraigned in court today.

VETERAN HIGHLANDER VISITING IN MEDFORD

Robert Mackenzie of Inverness, Scotland, is visiting in Medford. Mr. Mackenzie was formerly a piper in a regiment of the Seaforth Highlanders and from which regiment he received three medals for his efficiency of service. He is much pleased with Medford and its surroundings and is trying to locate some of his old friends who have ranches in the valley.

Hinting for health.

HOW TO COOK IN PAPER BAGS

Preserves the Juices and Natural Flavor of Meats—Some Foods Cannot Be Cooked in This Manner.

CORVALLIS, Ore., Feb. 9.—Paper bag cookery was the subject of the address given this afternoon to farmers' wives and daughters by Miss Lois Failyer, a recent addition to the faculty of the domestic science department at the Oregon Agricultural college. Miss Failyer showed them various sizes and makes of the bags, which are the newest "wrinkle" in the economy of labor in the kitchen. Miss Failyer spoke in part as follows:

"The flavors of some foods are improved by the use of the paper bag, while the odors are kept in. There is a little waste, as the shrinkage is reduced to a minimum, but in the case of meats there is never a good rich gravy, only a juice which is not a good substitute for gravy.

"We are inclined to cook with too much heat, and the browning of the meat will warn us in time to save the roast from burning. There are some foods that cannot possibly be cooked in these bags. The dishes to be avoided are soups, beans, cabbage, macaroni, kale, onionet and scrambled eggs.

"Select a bag to fit the food to be cooked as nearly as possible; oil the interior with melted butter unless water is to be added. Turn the corners at the closed end, fasten them with paper clips, and lay the roast or vegetable to be cooked in the bag. It is better to use two bags, one inside of another. Fold the open ends several times, close to the food, turn in the corners and fasten them securely with paper clips. Lay it on a wire rack with the seams of the bag up. It is well to use a broiler so the sack will not lie on a flat surface, since the bag is so much more apt to break by sticking to the surface.

"The roast or vegetable may be pierced with a long pin to see if it has been cooked enough. When well cooked, the bag should be pulled forward and laid on the plate, all of the paper removed before serving. The oven should be very hot during the first 15 or 20 minutes, and then the heat reduced. The same time schedule in cooking by this method must not be used as in cooking the ordinary way, but the food must be tried to see if it is tender."

TO END BUILDING OF BIG WARSHIPS

LONDON, Feb. 9.—It is declared here today by the Pall Mall Gazette that the real purpose of the visit of Lord Haldane, British minister of war, to Berlin is to discuss a plan to end the Dreadnaught building race which is costing both governments many millions, and not to secure the release of Bertrand Stewart, convicted in Germany and imprisoned as an English spy.

Announcement that Germany planned to spend many more millions in building battleships is believed today to have been the real inspiration for the hurried visit.

GRANTS PASS LUMBERMAN DEAD BY HEART DISEASE

GRANTS PASS, Feb. 9.—T. W. Williams, prominent citizen and large property owner, died suddenly from heart disease Wednesday evening, aged 53. He had been a resident of Grants Pass for 15 years and leaves a wife and two children. He founded the Williams Door and Lumber company, which was sold later to the Booth-Kelly company and then formed the Williams Brothers Lumber company operating at Glendale. This plant was recently sold.

J. H. Moore, a G. A. R. veteran, was found dead in bed Thursday from heart failure, aged 70. He is survived by two sons, Oscar E. and George Moore, and a daughter, Mrs. D. A. Harmon of Merlin.

NAGEL NOT LIKELY TO WEAR ERMINE

WASHINGTON, Feb. 9.—President Taft and his cabinet today discussed the appointment of an associate justice of the supreme court to succeed the late Justice Harlan. Attorney Wickrosham, Postmaster General Hitchcock and Secretary of State Knox urged the appointment of Charles J. Nagel of St. Louis, at present secretary of commerce and labor. It is believed, however, to be extremely doubtful that Nagel will be named, his age, 63 years, and his lack of previous judicial experience counting strongly against him.

TO USE NORMAL FOR BOYS SCHOOL

Ashland Commercial Club Votes to Offer Buildings and Grounds to Bishop Scott Academy for Boys, Now Located at Portland.

Without a dissenting vote the Commercial club has decided to use its best efforts to locate the Bishop Scott School for Boys—an Episcopal institution—in the old Normal property. The club's president and the committee already in charge of the negotiations is given carte blanche to push the matter to successful issue, says the Ashland Record.

The school is an established institution now operating in Portland. It has a strong organization back of it and an amply secured annual income of \$8000 from outside sources. It proposes to come—if at all—with no bonus or guarantee of scholarships. It merely asks for the normal property for school purposes. The matter came to a head rather unexpectedly. A committee consisting of Messrs. E. E. Watson, E. A. Sherwin and Rev. J. T. Lucas, rector of the local Episcopal church, presented an exhaustive report.

Before taking action the club called for a report on the proposed branch of the Oakland Polytechnic school. There was little to report. President Gibson had been expected to place before the meeting definite plans and copies of contracts, etc. They were not forthcoming. The club was visibly disappointed. It decided to wait no longer.

The condition so far as the Episcopal school is concerned is about as follows: Bishop Scott School for Boys is a high class and well regulated institution. It is under supervision of Bishop Scadding and a board of trustees. They are not satisfied with the location in Portland. They have for several years contemplated their relocation. Three years ago they bought 100 acres in Yamhill county. The tract and improvements have cost them \$25,000. They have no buildings as yet.

SWINDLED INVESTORS COMBINE TO RECOVER

PORTLAND, Ore., Feb. 9.—Declaring that they were swindled, and determined to recover as much property as possible from the defunct Columbia River Orchards company and bring proceedings against any officials of the wrecked bubble whom they believed to be culpable, holders of \$250,000 bonds in the shattered concern have banded together here and engaged attorneys to make a fight.

It is expected that a meeting of the bondholders will be held in a day or so for the purpose of mapping out a plan for action.

It is believed the Oregon organization will represent \$750,000 of the bonds when action is finally taken.

It is known that the orchard company has some property.

Equitable to Rebuild.

NEW YORK, Feb. 9.—Equitable Life Assurance officials announced today that they have decided to rebuild on the old site of their burned building in the financial district.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die. At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well. I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from ingredients that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health. As a remedy for woman's ills, it has a successful record of over 50 years. Your druggist sells it. Please try it.

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Progressive Aggressive

The Proof of Habit

We told you yesterday to watch this space. WHY? To get the habit. You did or else you would not have seen this today. Just the same habit that you have acquired, spelled in the same old way, looking for certain things in certain places, doing certain things in a certain given way, all these we say are habit. Now we want you to get in the habit of soliciting your advice in matters pertaining to diseases of the head from us, not only because of the fact that we would benefit from the same but for the reason that we know you will mutually be benefited. We do things differently from others; in case we cannot help you we will tell you and it will not cost you a cent and in case we can do anything for you we will do it if you like and at the time will tell you exactly what the total cost will be and you will be the one that will get the surprise when we do tell you, for remember we are doing everything for less than anyone else in this country and at the same price that you may have been used to getting it done for in any part of the East.

An illustration of this might be appropriate at this time. We had a patient come into our office this week who needed some surgical work done; we looked him over carefully, told him what the price would be and he remarked, "Do it now," saying at the time he had expected to be forced to pay just double the amount we asked him. Why are we doing this? To show the public that we want to do their work, that we are more than merely appreciative, that we can do the work better than they expect. We are advertising these things; we are doing them too. We are not rushing into print by saying that we were in the nick of time to save a life or in methods other than those of the strictest business principles. We want the help of the money saving public. Ours is a fight on principle and not on the practices nor in any event is it at all personal.

WATCH—Sunday we won't say so much, but it will contain meat.

CONSULTATION always FREE.
