NOTICE TO SPRAY

In accordance with the horticultural laws of the state of Oregon all orchard fruit trees, shrubs, vines, roses, etc., must be sprayed with a lime-sulphur solution in order to control San Jose scale and such other insect pests as may be controlled with lime-sulphur. This spray shall be applied at a strength or test of not less than 4.5 degrees Beaume, or 1.93 specific gravity. In order to dilute the concentrated commercial lime-sulphur solution to the above test, the following table may be used.

Table with columns: Gallons lime-sulphur, Gallons water, and temperature degrees test.

The above table is in accordance with the best practice, and no attention should be paid to the directions for diluting as found upon the container. Peaches and pears should be sprayed as soon as the weather permits; apples may be left until later. By applying the spray just as the buds are beginning to break will give the best results.

This order to spray includes both commercial orchards and the trees found on city property. Therefore, all owners, agents or lessees of city property are hereby ordered to comply with the law. Failure to do so may necessitate the removal of such trees, vines or shrubs not sprayed by the county inspector.

A. H. CARSON, Commissioner Third District. P. J. O'GARA, Pathologist in Charge. J. W. MYERS, Chief Inspector. Medford, Oregon, February 17, 1912. 285\*

Progressive Aggressive WHAT THEY SAID The conversation as stated herewith is absolutely real and as near to the wording as we can possibly remember. It was a happenstance that we heard it in a downtown store and we are repeating it for the benefit of those who are interested in our advertising and will later explain more fully. Mrs. X happens to meet Mrs. Z in a store and after the usual salutations remarked that she was having lots of trouble with her eyes, having but recently gotten a new pair of glasses which were not satisfactory. She then asked Mrs. Z if she knew anything of Drs. Saunders and Green, the ones that advertised, to which Mrs. Z replied that she not only knew the doctors personally but also knew of their work, in that her near neighbor had them operate on her little girl who had been a mouth breather and before the operation was very deaf. She said that the work had been extremely well done and that the price had only been about half of that customary in this country, but that the doctors had told her they were charging the same prices as were charged in the EAST and depending on the volume to make up their income. Mrs. Z also knew of some people who had been to these same doctors to get glasses and she stated that they were more than pleased with the work and the prices. Mrs. X then says that she will go and see them and also that she will take up a lady friend who needs glasses for, as she remarks—Why not get the work done now in that we can save ONE-FOURTH of the bill by taking this ad up with us. FACTS—It does pay to advertise and do as you advertise—25 per cent discount on all bills due or work done until March 4th, 1912. CONSULTATION always FREE. Clark E. Saunders, M. D. R. E. Green, M. D.
