It is astonishing the amount of business the McDowell Confectionery and ice cream parlors is doing these days. There's a reason, and that reason is simply this: It is a delightfully pleasant place in which to trade; Mr. McDowell's help are ladies and gentlemen and they know how ladies and gentlemen who are patrons of the place expect to be treated; Dick McDowell is himself an "old siss" as to cleanliness and he's so straight-up honest that, like the Vermont Yankee, he leans back a little, but he gets the trade, lots of it and good trade. His is a place at which all the ladies like to trade.

ROOSEVELT PLEDGES HIMSELF TO RADICAL INSURGENCY

(Continued From Page One)

ular law of this kind is a proper subject of debate, but the power of the people to enact the law should not be subject to debate.

Lincoln, with his clear vision, his ingrained sense of justice and his spirit of kindly friendliness to all, forecasted our present struggle and saw the way out. What he said should be pondered by capitalist and workman alike. He spoke as follows:

"I hold that while man exists it is his duty to improve not only his condition, but to assist in ameliorating mankind. Labor is prior and independent of capital. Labor is the superior of capital, and deserves much the higher consideration. Capital has its rights, which are as worthy of protection as any other rights. Nor should this lead to a war upon property. Property is the fruit of labor. Property is desirable, is a positive good in the world. Let not him who is horseless pull down the house of another, but let him work diligently and build one for himself, thus by example assuring that his own shall be safe from violence when built."

Home Endorsement

Hundreds of Medford Citizens Can Tell You All About It.

Home endorsement, the public expression of Medford people, should be evidence beyond dispute for every Medford reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in far away places. Read the following:

H. J. Durfee, 32 N. Bartlett St., Medford, Ore., says: "I was troubled by my kidneys off and on for years. If I contracted a slight cold, it always settled in these organs, causing my back to become very lame, weak and painful. Last summer I was suffering in that way and on a friend's advice I procured Doan's Kidney Pills. I found this remedy to be exactly as represented and in a few days the trouble left. I know of many other persons who have obtained benefit from Doan's Kidney Pills."

their fair share of the benefit of business prosperity. But it either is or ought to be evident to every one that business has to prosper before anybody can get any benefit from it. Therefore, I hold that he is the real progressive, that he is the genuine champion of the people who endeavors to shape the policy alike of the nation and of the several states so as to encourage legitimate and honest business, at the same time that he wars against all crookedness and injustice and unfairness and tyranny in the business world

Spent Her Money Well

On beautiful Sheridan avenue, in Detroit, lives Miss Marie Richter in perfect health, although a year ago she was almost a wreck. Writing of her condition at that time she says: "Last winter I was completely run down and felt fagged out all the time, was nervous and had indigestion."

"One of my friends advised me to take Vinol and it has done me great good. The tired, worn-out feeling is all gone and I am strong, vigorous and well. The stomach trouble soon disappeared and now I eat heartily and have perfect digestion. I wish every tired, weak, nervous woman could have Vinol, for I never spent any money in my life that did me so much good as that I spent for Vinol."

Thousands of women and men who were formerly weak and sickly owe their present rugged health to the wonderful strength creating effects of Vinol. If you are pale, weak, nervous and upset you owe it to yourself and your family to try Vinol. It will build you and make you strong. If it does not we give back your money. Medford Pharmacy, near P. Big Business Evils.

It is both futile and mischievous to endeavor to correct the evils of big business by an attempt to restore business conditions as they were in the middle of last century, before railways and telegraphs had rendered larger business organizations both inevitable and desirable.

The effort to restore such conditions and to trust for justice solely to such proposed restoration is as foolish as if we should attempt to arm our troops with the flintlocks of Washington's Continentals instead of with modern weapons of precision. Flintlock legislation, of the kind that seeks to prohibit all combination, good or bad, is bound to fail, and the effort, insofar as it accomplishes anything at all, merely means that some of the worst combinations are not checked and that honest business is checked.

What is needed is, first, the recognition that modern business conditions have come to stay, insofar, at least, as these conditions mean that business must be done in larger units, and then the cool-headed and resolute determination to introduce an effective method of regulating big corporations so as to help legitimate business as an incident to thoroughly and completely safeguarding the interests of the people as a whole.
