COMMUNICATION.

Organizing the Farmers.

To the Editor: The farmers of this valley are ripe for co-operation, but each one is waiting for the other fellow to make the first move; the fact is we lack experience. What is needed is a leader or organizer. The Lord helps those who help themselves, probably, but we need someone to help us help ourselves.

We could take Danby's advice and make an effort, but without experience it might die aborting.

Surely we can secure an organizer from an established association. When the agricultural colleges teach the farmer how to sell his produce, then his education will not be so lopsided, and incidentally he may learn how to buy.

It is pitiful to hear a farmer say to the storekeeper, "How much will you give for my produce, and how much do you ask for yours." They have him coming and going.

The buying and selling side of production is the most serious problem. I will be pleased to meet or communicate with anyone in favor of this motion.

Sincerely yours, ROBERT A. NEILL.

PUBLIC MARKET PLANS DRAWN

City Council at Next Regular Meeting Will Consider Design of Building in Which to House New Market.

At the next session of the city council the matter of a public market will probably be considered as the plans for the building have been drawn. The committee still has considerable work to do on the matter of drawing an ordinance providing for the manner in which the market is to be conducted but it is believed that this work will be completed before the next meeting.

The city does not plan to erect a costly building for market purposes at first but desires to get the market established and in operation before sinking any considerable sum. Later, should the market prove a success, a more expensive and permanent building will be erected.

The plans for the addition to the present city hall will also be considered at the next session of the council.

TEDDY MUM UPON POLITICS

Roosevelt Refuses to Discuss Even Taft's Alleged Progressiveness—Democrats Fear Big Stick Will Sweep the Country.

BOSTON, Mass., Feb. 27.—Only one politician was in conference with Colonel Roosevelt here today. He was Governor Bass of New Hampshire, who after he had talked with Roosevelt, announced himself as confident that the colonel would sweep the country and would easily capture the republican presidential nomination.

Colonel Roosevelt this afternoon declined to discuss President Taft's progressiveness. He declined even to make acknowledgment of a statement, accredited to him, saying he did not consider Taft progressive.

WASHINGTON, D. C., Feb. 27.—Due to the belief that Theodore Roosevelt is to be the republican candidate for the presidency, a movement was started to postpone the democratic national convention for three weeks to give the party time to adjust itself to the conditions caused by the probable nomination of Roosevelt. The democrats fear that with Roosevelt in the field they would have difficulty in naming a successful candidate.

FIRST MAYOR VISITS CITY

Dr. E. P. Geary, Who Was the First Executive of Medford City Government, Tells of Early Days—Many Changes Made.

Medford has certainly grown since the time when I had the honor of directing her endeavors as mayor," stated Dr. E. P. Geary of Portland, who spent Monday in this city. Dr. Geary was mayor of the city in 1885 when the town was first incorporated.

"In those days where now large modern business blocks stand we had nothing but brush to levy taxes on. It was a crying need in those days to secure money enough to cut the brush back along the street now known as Main. We had little money for improvements and I remember well agitation even at that early date to bond the little town in order that it might grow. The seed of progressiveness which was sown at that time has since produced wonderful results.

"Being mayor in 1885 was not much of a job. I imagine it would cut heavily into a physician's time should he tackle the job now."

PLEADS JUSTNESS OF SHORT HAUL CHARGES

WASHINGTON, D. C., Feb. 27.—The railroads had an inning today in the argument before the supreme court over the validity of the "intermountain rate" orders of the interstate commerce commission. They were represented by F. C. Dillard of Texas, who declared the railroads should be permitted to charge more for short hauls from the east to intermountain cities than to the Pacific coast cities, because of water competition to the coast ports.

SENATE PROBES STRIKE CRUELTY

Efforts to Defeat Poindexter Resolution Calling for Investigation of Conditions at Lawrence Failed—Lodge Protests.

WASHINGTON, D. C., Feb. 27.—An attempt by Senator Gallinger of New Hampshire to have the resolution introduced yesterday by Senator Miles Poindexter of Washington calling for an investigation of strike conditions at Lawrence tabled failed in the senate this afternoon. Senator Gallinger's motion to this effect was defeated.

Senator Poindexter then again demanded the adoption of his resolution, declaring that an investigation would elicit facts which would be of value in considering the revision of the wool tariff.

Senator Lodge of Massachusetts spoke against the adoption of the resolution, declaring that Massachusetts was fully able to cope with the situation.

Prize Winning Recipe for Raisin Bread

Boak one yeast cake in 1 1/2 cups of potato water, mix in enough flour to make a stiff batter; beat five minutes. Let stand over night. In the morning add two cups sweet milk, into which put one rounded tablespoon castor oil, 1 tablespoon salt, 3 tablespoons sugar. When milk is lukewarm mix with the yeast, add enough flour to make a stiff batter; beat about ten minutes; let rise. When sufficiently raised add two cups of needed or sweetened raisins, mix, add more flour and knead until dough is smooth; let rise. Make into loaves and bake one hour. When baked wet top of loaves with sugar and hot water to prevent the crust becoming too hard. This recipe won the grand prize in the California Raisin Growers' bread contest. The use of Cottolene as shortening is significant.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of white-ginger, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema. Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. We have been prescribing the D.D.D. remedy for years." "Drop into our store anyway and we will tell you all about this great remedy." MEDFORD PHARMACY
