

APPEALS TO WEST FOR PROTECTION FROM NEIGHBOR

C. S. Sanderson of Central Point, has appealed to Governor West for protection from the onslaughts of W. J. Boosey, a neighbor. Mr. Sanderson states in his letter to the chief executive of the state that if protection is not granted, he will take matters into his own hands. His letter follows:

CENTRAL POINT, Ore., Feb. 19, 1912.—Hon. Oswald West, Governor of Oregon.—Dear Sir: There is a man here by the name of W. J. Boosey that has a piece of land that joins mine on the east, or my son's place, as I decided it to him a year or so ago. And this man Boosey is one of these fellows that is always looking for trouble and persists in giving his neighbors trouble all of the time. A year or so ago I went before the court and demanded protection, which the court granted and W. J. Boosey and family were fined \$100 and costs and W. J. Boosey was sent to jail for six months. After he was released from jail he soon began his meanness again. Now this is what he does: Cuts our fences, tears up our road bridges, turns water from a reservoir which he has built for the purpose of making our road a mudhole, fences up our roadway and destroys our land corners, and everything that the mind of man is heir to for meanness. You will find by looking at the court records of the supreme court of the state the decision of the courts which will put you wise to the whole situation.

Now I have always been a law-abiding citizen and wish so to be, but this man W. J. Boosey and his family must be stopped from damaging our property. I demand of you protection. Will you grant it? If not I am going to protect myself. Yours very truly, C. S. SANDERSON.

HOPELESS LOVE CRIME'S CAUSE

LOS ANGELES, Cal., March 12.—Love that she believed was hopeless prompted Miss Viola Carver, 23, to shoot and kill J. Edwin Edge, aged 23, a realty dealer, according to the belief of the police today. After shooting Edge, the girl turned her revolver to her own head and pressed the trigger. The hammer fell on an empty chamber, the only empty one in the cylinder.

The shooting occurred in the offices of Freeman & Edge, of which firm Edge was junior member, late yesterday. After coming to the office and talking quietly with Edge for five minutes, the girl whipped a revolver from her muff and fired, the bullet piercing Edge's brain. Following his death at the hospital four hours later, the girl is said to have exclaimed: "I loved him, and could not have him; that's why I shot."

Miss Carver, who is a clerk in a music store, is said to be the daughter of John Carver, a well-to-do Tacoma man.

COAL STRIKE END SEEMS IN SIGHT

LONDON, March 12.—Hope today pervades the United Kingdom that the great coal miners' strike soon will end. At the headquarters of the miners it was declared today that the men were willing to make concessions to effect a settlement and bring about industrial peace.

Welsh and Scotch coal mine operators today agreed to join the English operators in another conference with Premier Asquith and the miners' representatives in an effort to settle the strike. The conference began at 3 o'clock this afternoon in the premier's office and the United Kingdom is hoping that both sides will get together and devise some means of relieving the nation.

WORKS AND JOHNSON SCORED BY CONGRESSMAN

WASHINGTON, D. C., March 12.—Congressman Smith of California today wrote a vitriolic letter to Postmaster General Hitchcock charging Senator Works and Governor Johnson with entering into a "conspiracy to prevent the reappointment of Postmaster Bartholomew of San Diego." Congressman Smith enclosed scores of affidavits from San Diego citizens supporting Bartholomew.

OPEN CANAL FAVORED BY FRISCO SHIPPERS

SAN FRANCISCO, March 12.—San Francisco's chamber of commerce is today on record as opposed to the operation through the Panama canal of any railroad owned or controlled ship engaged wholly or partly in coastwise traffic and as in favor of allowing American ships engaged in coastwise traffic to pass through the canal without paying tolls.

Besides passing resolutions to this effect, the chamber of commerce set in motion a plan to unite all commercial bodies on the Pacific coast to fight against allowing the railroads to operate ships through the canal and to impress on congress that the bill allowing railroad owned ships to pass through the canal if they do not stifle trade should be changed to prohibit it absolutely.

ROOSEVELT CAN'T SERVE ON JURY

MINEOLA, L. I., March 12.—Colonel Theodore Roosevelt was today excused as a prospective juror here after he had removed his coat and hat and had settled down in a chair ready to perform his duty as a citizen.

The colonel was drawn for the jury to try the suit of Michael Carmely, 15 years old, for \$100,000 damages from the New York Central railroad for the loss of both legs in an accident. The boy got a judgment previously for \$40,000, but a higher court set it aside.

Roosevelt was juror number seven. He said:

"It seems I am excused. I don't see why. It seems hard that I should have to come here every day for two weeks if they don't want to utilize my services."

Graham explained his action by saying:

"The colonel is busy. I think he would be conferring a greater boon upon humanity by serving it otherwise than by sitting on this case for three or four days. That was the only reason for my action."

Roosevelt conferred for five hours last night on political matters with Oscar Strauss and Alexander Moore of the Pittsburg Leader.

Roosevelt was excused for the day. The attorneys for the railroad in the case said they would have accepted Colonel Roosevelt as a juror.

Reliable Ethical

Home Economy

A matter of big moment at this time is the study of home economy.

An Eastern city recently conducted a School of Household Arts and Science.

Its purpose was to point a way by which harassed housekeepers can make their allowances balance the high cost of living.

The demonstrations and lectures all tended to point out the enormous waste resulting from the purchase of cheap (therefore inferior) substitutes for standard articles.

Recognizing the force of this economic truth, the Fisher Flouring Mills Company has undertaken to produce a breadstuff that gives the maximum results—not at a minimum price, but—at a fair price.

By using FISHER'S BLEND FLOUR, you eliminate all waste. Actual baking tests, scientifically conducted demonstrate that it makes more and larger loaves of better bread, to the given amount, than any other brand of flour on the market.

Mind you, we are not underrating our competitors. We are too much concerned in building up our own business to take time to belittle them.

We simply state established facts.

Costs More per Sack—Costs Less per Loaf. This trade phrase of ours tells you why it's good economy to use FISHER'S BLEND FLOUR.

A trial will convince you.
