

VAST RAILROAD INTERESTS AT WAR

SAN FRANCISCO, March 14.—The vast railroad interests controlled by Hill, Morgan and the Vanderbilts are warring with those of the Rockefeller and the Harriman estate, according to information given out here today.

The fight is caused by a recent traffic agreement by which it was

decided the North Western business of the Morgans and Vanderbilts should be handled by the Hill lines to the exclusion of the Rockefeller line. In retaliation the Harriman lines in the west announce that the Rockefeller lines in the northwest shall handle their business to the exclusion of the Hill lines.

ROYAL WATCH IN AN AMERICAN GALLERY

One of the most interesting pieces in the collection of antique objects now on exhibition in a New York gallery is a personal watch of King George III, of England, which was given by him to Sir Francis Miltam, who held a position at court. The date of the gold mark is 1780, and there is an inscription in Latin which is illegible. The watch was bought from Sir Francis' great grandson in London in 1911.

GOOD TRIAL OF THE OREGON SYSTEM ON PRESIDENTS

(Continued from Page One.) Roosevelt and William H. Taft, while the democrats will have a choice between Woodrow Wilson and Champ Clark.

Other avowed candidates, whose names have not been filed for the primaries, are Albert B. Cummins, republican, and Judson Harmon, democrat, with Oscar W. Underwood a possibility in the democratic party. Also there are many who believe that William J. Bryan, the Commoner, is not making his present speechmaking tour merely for the excitement it affords.

Under the provisions of the presidential preference primary law the candidate in each party who receives the highest number of votes in his party will be the one to whose support the party delegation of 19 members will be pledged. In this connection the personnel of the party's delegation will not matter. Personal views of the delegates are not to enter into the voting for candidates in the national convention.
