## EAGLE POINT EAGLETS

By A. C. Howlett

There is another dwelling house in course of construction in our little town. James Ringer is putting up a neat little bungalow on his lots in the Ulrick addition.

I omitted to state in my last that among the many farmers who were in our town Saturday were Charles Siefield and wife of Lake Creek, Mrs. Singleton and daughter, F. J. Ayers and daughter, Miss Rosa, the latter at present assisting at the Sunnyside.

Grandma Hackathorn started last Saturday for Woodville to visit her daughters. Mrs. Meagley and Mrs. Simpkins.

Sunday was quite a day at the Sunnyside, as there seemed to be a kind of a concerted movement on the part of some of our townspeople, as there were Mr. and Mrs. Frank Solter, one of our hardware merchants; Mr. and Mrs. A. H. Weber, our pharmacist; Mr. and Mrs. Wm. Brown, one of our merchants, G. H. Wamsley and daughter Miss Mable, Mr. and Mrs. Bolt, general manager of the Pacific & Eastern railway, Dr. Wm. W. P. Holt and brother-in-law, Mr. Purdy.

Mr. Wood, timekeeper for the P. & E. railway, besides quite a number of strangers who just came in for a good dinner, and they all seemed to enjoy themselves very much and about all threatened to come back again in the near future. I tell you Mr. Editor it makes one feel that life is worth living to see such cheerfulness and brotherly love among neighbors as was manifested here last Sunday.

There was a young man came out last Sunday to try his fortune riding bucking horses, but there didn't seem to be any one who had unruly horses that cared to have them ridden in that way, so he had to take his saddle back to Medford again without using it.

George West and Wm. Fruit, two forest rangers, came out from Medford Sunday evening on the P. & E. cars, spent the night at the Sunnyside and took the Trail stage Monday morning for the big timber.

Wm. Spencer came out Monday evening to look after a job of carpenter work on some one of the new buildings, but found that he was most too early in the season, as there will be but little doing in the line of carpenter work until the first story of the big brick that is going up is

completed and then the carpenters will be ready to go to work. Mr. Spencer said that by that time he could get quite a number of jobs, and it is apparent that there will be considerable work in all branches of mechanical work here this summer.

Everett Culbertson of Lake creek took a room at the Sunnyside Sunday evening. He is working for Mr. Heak, one of our prosperous farmers just above town.

Mr. and Mrs. G. W. Allen surprised the people of the Sunnyside last Sunday evening by putting in an appearance, although Mr. Allen has been a regular boarder here for some time, but he excused himself Saturday and went to Medford on the ground that he did not have the lumber to do the work that was to be done, so went to Medford and was married to Eveline Stone of Ashland in Medford by the justice of the peace Mr. Taylor, and they are now planning to live in this section for the summer at least. Their many friends are tendering their congratulations.

F. M. Findley, an insurance agent of Medford, is here with us for a few days looking over the situation with an eye to business. Also Mr. Paul Oplitz, a timber specialist, of Medford, was a guest among us Tuesday.

Elmer Spencer and B. Reed of Dudley spent the night with us on their way to their home in the hills.

Our school board met Monday night and among other things in the line of business entered into contracts with W. L. Suddarth and wife to act as principal and intermediate, and Miss Mamie Wright as primary teacher in our school. Mr. and Mrs. Suddarth are from Josephine county, but Miss Mamie Wright has been a resident of this neighborhood for several years, and while I was on Elk creek I had the pleasure of visiting her school there, where she has a nice little school and a host of warm friends not only in the school room but among the patrons.

C. Carey of North Talent was doing business in Phoenix last Wednesday morning.

### The Line Is Busy

You have heard that before and we will venture that it made you sort of have that funny feeling under your collar and say things about the telephone company that was to say the least uncomplimentary.

Our line was busy yesterday and we were too tired last night to get out anything NEW and so we just will say our same old FACTS—WE ARE THE BEST—because we have been the best prepared, but in addition we have had the practical experience and it is not necessary for us to experiment with your case in the least. Did you ever stop to think what experience means. It may mean in your case a speedy recovery or on the other hand it may mean that a few good words of advice may save ultimately a grave condition.

Another thing we call your attention to every day is the fact that we work for less—this is a FACT too. We charge exactly the same in all instances as the prices for the same work in the East and why should we charge more? Only one answer, the Trust have said that if we were going to be nice boys and wanted to play in their yard we would have to charge certain prices and in event we did not do as they desired we would be humiliated by them in that they would not speak to us on the street (Oh joy, some of them don't) nor would they allow us to talk in their meetings.

Dear PUBLIC, we are not restricted to speaking once a year. You will hear from us every day. Be with us, we're right.
