The Fat from The Flower

Vegetarians tell us that there is no kind of animal fat which we cannot replace with something as good or better in the vegetable kingdom. Certainly in the matter of cooking fats there is no question of this fact. Lard is made from the fat of the hog, often unwholesome, sometimes impure.

Cottolene, a vegetable-oil substance, comes from the snowy boll of the cotton plant; it makes food that any stomach can digest. Cottolene is as good as butter, can be bought for about the price of lard, and is more economical than either.

Draperies

We carry a very complete line of draperies, lace curtains, fixtures, etc., and do all classes of upholstering. A special man to look after this work exclusively and will give as good service as is possible to get in even the largest cities.
