

BISHOP OPPOSES EQUAL SUFFRAGE

BALTIMORE, Md., March 23.—"Woman suffrage is not democracy. It is a false ideal. The lesson of the ages has been that woman is inferior to man. A woman is built to be a helpmate of man, not to make his laws."

Denouncing woman suffrage in these terms and declaring that it has been a failure in California, Bishop Edwin B. Hughes of that state has created a sensation here today. The anti-suffrage address was made before 500 prominent Baltimore Methodists. The bishop was especially bitter in denouncing the militant London suffragists, but said that he did not hold this as an argument against sensible women in America having the ballot.

Bishop Hughes declared that woman lacks the intellectual fiber which guides man to be conservative, weigh matters in the balance, and helps him to decide questions wisely and justly. It is impossible, except in rare and exceptional instances, he claimed, for woman's intellect to equal that of man.

WILEY'S RESIGNATION ROBS CRUSADERS OF A CAPTAIN

SAN FRANCISCO, Cal., March 23.—That the resignation of Dr. Harvey W. Biardot believes the government will sorely miss the benefit of Dr. Wiley's initiative and experience in this campaign against adulteration of foods and drugs.

TO BREAK UP A COLD

Some Advice That Will Save Time and Money

Strong drink and quinine may relieve a cold, but it usually does more harm than good.

To break up a hard cold in either head or chest thousands are using this sensible treatment.

First of all look after your bowels; if they need attention use any reliable cathartic. Then pour a scant teaspoonful of HYOMEI into a bowl of boiling water, cover head and bowl with a towel and breathe for 5 or 10 minutes the pleasant, soothing, healing vapor.

Do this just before going to bed; your head will feel fine and clear and you'll awake from a refreshing sleep minus a cold in the morning.

For colds, coughs, catarrh, asthma and croup HYOMEI is guaranteed. A fifty cent bottle is all you need to break up a cold and this can be obtained at Chas. Strang's and druggists everywhere.

And look around our laundry. You'll be convinced that it is everything an up-to-date laundry should be. Quick service and excellent workmanship are two of the many fine features of this laundry.

CLAUS FAVORITE AGAINST DILLON

COFFROTH'S ARENA, DALY CITY, San Francisco, Cal., March 23. With Frank Klaus, the Pittsburg bearcat, a 10 to 7 favorite over Jack Dillon of Indianapolis, only a fair crowd gathered today to see what was billed as a 20 round bout for the middleweight championship of the world. The weather was clear and the sun bright. Both Klaus and Dillon were at weight and the expectation was that the bout would go 20 rounds. In the first preliminary Joe Acheson and Barney Richter, neither of whom knew enough about the game to cause him pain, wallowed and wrestled through six rounds to a draw.

The second preliminary was between Babe Picato and Walter Scott. Scott was light and for the first five rounds Picato had it practically all his own way.

S.S.S. CURES SKIN DISEASES

The cause of all skin diseases can be traced to some humor or acid in the blood; the cuticle is always healthy where the circulation is free from impurities. When the blood is infected with acid or unhealthy matter it cannot perform its natural work of nourishing the skin, regulating its temperature and preserving its normal softness, pliability and healthfulness. Instead it irritates and inflames the delicate fibres and tissues around the pores and glands and produces some of the many forms of skin disease. The itching and stinging so often accompanying skin affections are produced by the deposit from the blood of the acid humors with which it is filled, into the sensitive membranous flesh lying just beneath the outer covering, and surrounding the countless nerves, pores and glands. This explains why scratching the outer skin affords no relief from the itching and burning. S. S. S. cures Skin Diseases of every character by purifying the blood. It goes down into the circulation and removes the humors or acids which are causing the trouble, builds up the weak, acid blood, and permanently cures every variety of skin affection. Local applications can only soothe; they never cure because they do not reach the blood. S. S. S. goes right into the circulation, reaches the trouble and cures it by removing the cause. Book on Skin Diseases and any medical advice free to all who write.

PROGRESSIVE AGGRESSIVE

TO-MORROW

The person who meets each day when 'tis here,
Who no trouble is seeking to borrow,
And is making things go and good times appear,
Is the one who is not putting off till tomorrow.

But the one who is fearful of all the sad fates,
Whose face is the picture of sorrow,
Is the one who don't do, but always awaits
For the good times to come, he says are TOMORROW.

The ones who do NEW things by METHODS NEW,
Who never "Old Troubles" do borrow,
Whose work is a pleasure, whose sorrows are few,
Does today's work today, and don't wait for tomorrow.

A headache today may cause you much pain,
And its future may bring you much sorrow,
So why do you wait when there's nothing to gain,
Have a care, now's the time, don't wait till tomorrow.

A nose that's obstructed development saps,
And from intellect always will borrow,
From within, you can hear, opportunity raps,
Let it in, now's the time, don't wait till TOMORROW.

Dread "disease" in our life has taught us to fear,
That "grim reaper" who brings to all sorrow,
And the buds that ne'er bloom but fail to appear,
Are replaced by the blossoms in wreath form tomorrow.

Like Death are the "dead ones"—around a huge bier,
And from each they are trying to borrow,
Consolation for things that have failed to appear,
But they've waited too long their time is tomorrow.

Dear Friends and Dear Readers, don't let it be said,
At a time when there's greatest of sorrow,
That life might of been, where now all is dead,
Had you acted today, instead of TOMORROW.

The above is our home brewed idea of procrastination and we have tried to present it to you in a readable shape.

Why do you wait? Now's the time—We are the people. We want you to know that ours are the NEW METHODS and the NEW IDEAS and that we work for the LEAST at all times and considering that we are the BEST. REMEMBER ONE THING MORE.
