E. W. Carder, who returned a few days ago from Denver, Colo., tells that a carload of representative farmers and fruit growers from that part of Colorado are on their way to Medford for the purpose of locating some place in southern Oregon. Mr. Carder traveled on the same train with them as far as southern California, where their car was sidetracked for a few days. In conversation with some of them Mr. Carder learned that their party had been given to understand that of all the cities and towns in Oregon they positively must not stop at Medford if they expected to long enjoy an earthly pilgrimage. They had been told that typhoid fever was rampant here, that the city water was polluted with everything vile and disease breeding and was unfit even for stock to drink. This information, Mr. Carder stated, had been given them in circular letters printed on paper bearing the headings of commercial clubs in nearby towns of this valley. Mr. Carder succeeded in convincing the party that all these things were malicious falsehoods and they decided to take a chance on Medford for a brief stop.

Medford, Ore., Nov. 7, 1911.—This is to certify that about November my daughter was taken with a severe attack of rheumatism which rendered her left arm useless, in fact it was so near paralyzed that she was not able to move her fingers, but knowing of some of Dr. Chow Young's marvelous cures of long standing cases of rheumatism, we decided to consult him, in which I am pleased to say made no mistake, as his remedies acted as he claimed they would and after the third treatment the rheumatic pain entirely left her and she has not had any symptoms of rheumatism since; besides her general health is much improved and I do not hesitate in saying I believe those afflicted with rheumatism or paralysis will do well to consult Dr. Chow Young, whose house is corner of Tenth and Front streets, Medford, Oregon.

Quality in Cooking Fats.

In cooking fats Cottolene is superior in quality to all others. Its source is clean and wholesome, it is made in cleanly surroundings, and is packed in airtight pails of special design that keep the contents indefinitely sweet and fresh—free from dust and odors. Cottolene is richer and will go one-third farther than lard or other cooking fats made to resemble Cottolene.

In everything else quality usually regulates the price. If your grocer should ask you a trifle more for Cottolene, it is because it is worth more. Besides, Cottolene is guaranteed "satisfactory or your money back."
