

BOYS AND GIRLS PLANT GARDEN

April's first showers will fall upon approximately 50,000 children's gardens bringing to life seeds that will produce vegetables to be exhibited far away from the spot where they were cultivated by young strong hands, some appearing at the county or local fairs, others travelling to the state fair at Salem, and still others finding their way east to the land shows to prove what Oregon children can do. Now that the gardening and hatching season is at hand, Oregon children are entering the industrial contest in earnest. Boys and girls are selecting their needs, preparing their soil, and reading what they can find about the care of poultry, plants, and pigs. Prizes, \$312 in all, are to be awarded at the state fair for pupils' exhibits of vegetables, pigs, chickens, sewing, cooking and wood-work. These prizes represent a value of between three and four thousand dollars. Including county and state prizes between \$10,000 and \$20,000 in prizes will be won by Oregon boys and girls this year.

Twenty-five counties have been visited and fully organized for industrial work. Superintendent Alderman, and field organizers, Calvin C. Thomason, and H. C. Morris, having been hard at work since the first of February, Yamhill, the pioneer county in starting industrial work, is a model in organization, having held her first children's fair six years ago when the county superintendent was L. R. Alderman.

50,000 bulletins containing information on the state industrial contest, also the complete prize list have been sent out by the O. A. C. to each county superintendent to be distributed by him to the teachers whose duty it is to place one in every home. Large numbers of separate prize lists are just now appearing. Letters have been sent to all the ministers of the state asking them to give a sermon on the movement.

Pretty Mothers
Health is the foundation of all good looks. The wise woman realizes this and takes precautions to preserve her health and strength through the period of child bearing. She remains a pretty mother by avoiding as far as possible the suffering and dangers of such occasions. This every woman may do through the use of Mother's Friend. This is a medicine for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend is sold at drug stores. Write for free book for expectant mothers, which contains much valuable information.

M'FARLAND HERE TO MEET EVANS

Tommy McFarland, the only lad who ever held Champion Ad Wolgast to a draw since the latter won the title, is to arrive in Medford tonight, where he will finish training for his ten-round bout with Bobbie Evans here next Wednesday night.

Not since the memorable Battling Nelson was here has Medford been invaded with such a ring celebrity as McFarland, only the latter will be pitted against an opponent more his equal than was Nelson, who had easy pickings.

While McFarland is the shortest lightweight in the business, he has the reputation of carrying a "sleep-producer" in either hand. When in ring togs the pudgy little lightweight greatly resembles Young Corbett, who conquered the once "Terrible Toddy" McGovern.

In meeting Evans, McFarland need not think he will have a cakewalk, for he is apt to meet a stumbling block in the rugged Portland boy, and if the proper odds were offered there are any amount of Evans' admirers who would be willing to wager that Bobbie will bring home the bacon against the highly touted McFarland. Those in the know and who have seen Evans work out lately declare that he is not the same boy who boxed a draw with Young Dixon and has improved greatly in speed and accuracy.

The boxers who participate in the preliminaries to the main event are training daily and will be seen Sunday afternoon as sparring partners to McFarland.

COUNTY SURVEYOR

I am asking for the Republican nomination, and if I am elected I will make the office mean something. All county work requiring engineering skill should be done by the County Surveyor, and maps and other data filed for future reference. Having made the surveys for the adjudicating of Little Butte creek water rights and a topographic map of a large portion of the Rogue River valley, besides other surveys, I am able to give first-hand information.
