

AUTO ACCIDENT ON J'VILLE ROAD

As the result of an automobile turning turtle on the Jacksonville road Saturday evening John Barneburg of this city is confined to his bed suffering from severe bruises and the shock. E. V. Kellogg, his brother-in-law, lies unconscious, and George Stacey is severely injured. The fourth occupant of the machine, Alex Armstrong, was not injured to any extent.

It was believed at first that Barneburg and Kellogg would both succumb to their injuries. Today, however, it is stated that both will live, Barneburg being entirely out of danger. Kellogg, however, remains unconscious except for short periods when he seems to recognize members of the family.

The accident occurred on the Jacksonville road at the first turn on the way to the county seat. It is believed that a blow out occurred when the strain of the curve was upon the wheel. The machine turned clear over and then righted itself. It is practically a wreck.

DEATH IS ONLY PENALTY IN CHINA

NANKING, April 1.—The new government of China knows only one penalty for any crime—death. Since the republicans came into power they have introduced the innovation of trying accused criminals fairly. If the prosecution fails to establish a prisoner's guilt, it costs him nothing to be acquitted, but if convicted of anything from petty larceny to high treason the services either of a firing squad or the headsman are in requisition, and just as quickly as the condemned man can be hustled from the courtroom to the place of execution.

Leadings republicans say openly that they are too busy at present to bother with the management of penitentiaries, and inasmuch as some people have to be punished, they are being punished in the only way possible.

SANE APRIL FOOL'S DAY

Up to press time Medford has experienced the sanest April first in history. No elderly gentlemen have been seen to kick silk tiles of the sidewalk and there is a total absence of phoney pocketbooks. Save for a lone joker who has been shouting false warnings from the top rail of the fence near Barnum's waiting room there has been very little to signify the importance of the day. However, there are still a few hours left and a lot of suckers are waiting to be caught.

Of course there were a few who bit on false muffins and one who fairly fell for the joker was John Sammersville, barber and councilman. After trying for five minutes to work up a lather from a piece of potato he charged the loss of time up to experience. Holbrook Withington made many fall for a flat piece of rubber, which, deposited on a piece of paper, has the appearance of a gigantic ink blot. He worked it in connection with his notoriously leaky fountain pen and had all the hotel clerks cursing him for blotting the register. A number of people went on false errands, but as yet no one has bought the Southern Pacific right of way and the top of Roxy Ann has not changed hands.

PROGRESSIVE AGGRESSIVE

WE WERE TOLD

That we were saying too much and that the PUBLIC was getting tired of OUR form of ADVERTISING, and this was from one of our best friends, but listen, he said, "Don't you pay any attention to what I have said, for I am just repeating what one of the 'Ethical' fellows told me, and they said they knew it was not right for they had figured on doing the same thing but had given it up for fear of being criticized."

We're a Second St. Patrick

Only that we are two and we've got the snakes on the run in one direction and that is away from US and we've got the PEOPLE on the run in the other direction and that is to US and we are having a good time all the time and we are just naturally doing things all the time and we are doing more surgery today than ever before and we are getting better results than ever before and it's because of OUR NEW METHODS and OUR NEW IDEAS and we are doing OUR work the BEST and yet for the LEAST.

We are BUSINESS MEN --Don't forget it

We have incurred the "sour looks" from some but dear public we don't care—We are doing more in a day than the others do in a week—the reason for their extreme "sad looks." Say FOLKS—We do OUR own work—We don't have time to help some other fellow dress his bolts—We are the whole kite, not merely the tail to the other fellow's—this is good. CONSULTATION ALWAYS FREE. OUR WORK ALWAYS the BEST.
