TO BREAK UP A COLD

Some Advice That Will Save Time and Money

Strong drink and quinine may relieve a cold, but it usually does more harm than good.

To break up a hard cold in either head or chest thousands are using this sensible treatment.

First of all look after your bowels; if they need attention use any reliable cathartic. Then pour a scant teaspoonful of HYOMEL into a bowl of boiling water, cover head and bowl with a towel and breathe for 5 or 10 minutes the pleasant, soothing, healing vapor.

Do this just before going to bed; your head will feel fine and clear and you'll awake from a refreshing sleep minus a cold in the morning.

For colds, coughs, catarrh, asthma and croup HYOMEL is guaranteed. A fifty cent bottle is all you need to break up a cold and this can be obtained at Chas. Strang's and druggists everywhere.
