

LAST FIGHT IN MEDFORD SEEN

The last prize fight Medford will witness in many months was staged by Frankie Edwards Friday night and was witnessed by a large number of fans. Mayor Canon stated today that no more boxing contests of this kind would be allowed in this city.

Bud Anderson of Vancouver proved too clever and too fast for Australian Kelley at Frankie Edwards' boxing fest. Kelley lasted just five rounds before he took the count after a whirlwind attack from the shorter lad. Kelley's supporters had the consolation that he was game to the finish and that he showed up better in the first two rounds. An appeal to the jaw ended the argument.

Jack Overdorf won a preliminary from Art Colling and Fitzgerald was given the decision over Long Tom. The bouts were all clever and the fans were more than satisfied. Anderson is the cleverest boxer ever seen in Medford, and in addition he has the strongest blow.

PASS SENTENCE ON CONBOY NEXT TUESDAY

SAN FRANCISCO, April 20.—Imposition of sentence upon former Police Captain Michael J. Conboy, convicted of manslaughter for killing Bernard Lagan, was continued today until next Tuesday by Superior Judge Sargent at the request of defense attorneys, who announced their intention of interposing a motion for a new trial. Conboy was to have been sentenced today.

HILLMAN GOES TO BEGIN PRISON TERM

TACOMA, Wash., April 20.—With his moustache newly shaved, which changes his appearance completely, C. D. Hillman, millionaire real estate man, reached Tacoma at 9:30 today from Seattle on his way to the McNeil's Island penitentiary to serve two and a half years for using the mails to defraud.

Hillman lit up a big cigar while waiting to be transferred to the Stelecom car, and seemed to be cheerful. He conversed with his brother and Deputy United States Marshal Anderson.

TRUTH OF FISH STORIES TO BE LEARNED BY MARKINGS ON SCALES.

Weight, age and length of fish from this day forward may be calculated to a nicety by just showing one of the scales taken from the side of the piscine prey.

Intensive studies of the markings and conformation of fish scales have just been completed, and yesterday an elaborate report on the subject was received by Dr. Charles H. Townsend, the director of the New York Aquarium.

Most of the investigations have been made in England and Scotland with the scales of salmon, and other work in this direction is now in progress.

Just as the rings in the cross-section of the trunk show the age of the tree, so the concentric circles and the peculiar markings of the fish scales have been found to contain the record of the creature's entire life.

PLAN TO KILL NATIONAL GUARD

SACRAMENTO, Cal., April 20.—Abolition of the California National Guard is planned in a proposed initiative law repealing most of the sections of the political code relating to the state militia, a draft of which was forwarded today to the socialist state headquarters. The socialists expect the Los Angeles and San Diego labor organizations, as well as those in the north, to assist them in putting through the repeal.

It is declared that this expression of anti-militarism has been caused by recent events in connection with the textile strikes in Massachusetts, the experiences of the Western Federation of Miners with the troops and

LITTLE BOB IS FORGING AHEAD

PORTLAND, April 20.—Later returns today showed that Senator La Follette was running stronger than was at first believed. Incomplete returns including Multnomah county at 2 o'clock, gave Roosevelt 16,555; La Follette 15,699; Taft 12,441.

If this ratio is maintained Roosevelt's plurality will be considerably smaller than 6,000, the figure at first thought to be correct.

The free use of militia in Pennsylvania. The move was also given impetus in this state by the recent tour of "Mother" Jones, through California, in behalf of the Harriman shop employees federation.

ITALIAN FLEET RETURNS HOME

WASHINGTON, April 20.—The Italian fleet after its demonstration against the Turkish forts at the entrance to the Dardanelles abandoned its effort to penetrate the straits and returned to Italy, according to a despatch received at the Italian embassy here today. An attache of the embassy said the fleet patrolled the entrance to the straits in the hope of forcing the Turkish fleet to give battle.

SEATTLE, Wn., April 20.—One of the last soldiers to be freed from Libby prison after a confinement of several years, was Lieutenant Lewis T. Titus, civil war veteran who is dead here at the age of 76 years.

KEENE MAY BE VICE PRESIDENT

Incomplete returns from Jackson county show that Dr. J. M. Keene got 44 votes for vice president of the United States and is running strong. Jackson county's favorite son may yet be Taft or Teddy's running mate, or perhaps be the tail to the La Follette kite.

If it should happen that Dr. Keene has more votes than any other candidate, the delegation to the national convention will be forced to present his name for consideration and vote for him through thick and thin. Thus Medford may capture honors sufficient to compensate for Merrick's defeat.

Dr. Keene says he would be proud to be Taft's running mate, but objects to serving with the "I. W. W. candidate."

Wm. M. Colvig also secured an endorsement at the polls but has generously resigned in favor of the genial doctor.

CANADIAN PACIFIC TRAIN WRECKED AT NOOKSACK

BELLINGHAM, Wn., April 20.—Canadian Pacific transcontinental limited No. 341 which left Seattle at 8:50 yesterday morning over the Northern Pacific tracks was wrecked one mile south of Nooksack yesterday afternoon. The engine was demolished and four coaches were thrown into the ditch. Engineer T. Bevans of Seattle was badly scalded and may not recover; Fireman Fred Butts and brakeman George Hadley, both of Seattle, were badly bruised, and one passenger, who was not identified was seriously injured and several others were bruised.

The injured were taken to the hospital at Sumas.

BROODING OVER DISASTER ENDS IN HER SUICIDE

VENICE, Cal., April 20.—Driven temporarily insane by brooding over the Titanic disaster, Mrs. M. U. Stehler, aged 55, a wealthy widow of St. Louis, Mo., who has been residing at 32 Florence avenue, Venice, for the last three months, committed suicide here today. Her body was found in the surf by the police at 7:30 o'clock. It was covered only by a long black overcoat.

BOURE BEATEN BY BEN SELLING

PORTLAND, April 20.—At 3 o'clock this afternoon everything indicated that Jonathan Bourne had been decisively defeated by Ben Selling in the race for the republican senatorial nomination. The vote outside Multnomah county stood; Selling 10,657, Bourne 6305. In Multnomah county Bourne's vote was 7427 and Selling 6034. The "cow counties" always before so loyal to Bourne did not line up behind him this time and to that may be attributed his defeat.

RAILROAD CHIEFS SEE BLUE LEDGE

General Manager Campbell and General Freight Agent Lounsbury of the Southern Pacific arrived Saturday and, accompanied by Dr. J. P. Reddy and local manager A. S. Rosenbaum, left for an inspection of the Blue Ledge mine.

Should the inspection satisfy them, it is presumed they will recommend the construction of a branch railroad to the mines from Medford.

Medford Printing company carry a full line of legal blanks.
