

RICH ORE FROM FOOTS CREEK MINE

W. Burton Carter who has been identified in mining circles in southern Oregon for the past fifteen years is exhibiting samples of ore taken from a vein of gold bearing quartz in the Foots creek district that promises to excel anything that has yet been discovered in this district. The ore is of white quartz impregnated with free gold. With depth it promises to become one of the best mines in southern Oregon. Depth of about twenty-five feet has been attained and work will be continued until the future of the mine is thoroughly demonstrated.

GRAND OFFICERS TO BE HERE THURSDAY

The grand master of the Masonic order for Oregon and the grand high priest for the Royal Arch will visit the Medford lodges on next Thursday night, instead of Wednesday as first announced. A large attendance is desired.

NEW RURAL ROUTE OPENS WEDNESDAY, NO SIGNERS

Wednesday rural route No. 2 will be opened for the first time and afford direct mail service to some 200 farmers.

The route has been planned for the past six months and reports and counter-reports have been filed to show that the route was necessary.

The routine necessary to the obtaining of the route having been gone through, the announcement that the route will be opened Wednesday has been received joyfully by the farmers on the line.

The route will include practically all the district northwest of the city for a radius of nine miles. Leaving the Medford postoffice, the mail will be carried to Central Point and from that city by a circuitous route to Jacksonville and then returning to Medford.

As yet none of the farmers on the route have signed for the delivery of their mail. This is necessary before the mail can leave the local postoffice, and Postmaster Woodford urges all who wish to obtain the benefits of the route would leave their names at the local office.

EMBEZZLEMENT CHARGE AGAINST TSCHIRGI DROPPED

The charge of embezzlement preferred against Charles Tschirgi last week in the justice's court by Mrs. Nettie Carpenter was withdrawn Monday by District Attorney Mulkey, who declared that investigation showed that the charge followed a business misunderstanding.

MAN KNOWN HERE ARRESTED IN EAST

Word has been received in this city of the arrest of Robert B. Graham of Rockford, Ill., at Dallas, Texas, by Postoffice Inspector C. H. Claranhan on a charge of using the mails to defraud in connection with the Liberty Manufacturing company of Chicago. Graham, with his brother Harry was here for several months, the two being interested in local coal properties.

PRESIDENT AND COLONEL BITTER IN SPEECHES

BOSTON, April 30.—President Taft ended in Boston tonight his twelve hours' campaign through Eastern Massachusetts. From the time he began speaking in Attleboro until his last address in Melrose the president was greeted by large crowds. At Lowell the crowd was so great that several members of his own party could not get into the hall until after he started his speaking. During the Lowell address when Taft alluded to Roosevelt's charges against him a man in the gallery persisted in shouting, "He's a liar." President Taft said the appreciative support of his friends in the gallery forced him to decline to use his vocabulary.

President Taft, after expressing his regret that necessitated a president warring in a political struggle, said no man has the right to misrepresent another to get office. "I was a man of straw," he declared, "but I have been a man of straw long enough. Every man who has blood in his body and who has been misrepresented as I have been is forced to fight."

In his first half dozen speeches of the day the president did not allude to Roosevelt by name, but as he came nearer and nearer to the colonel's footsteps he warmed up to the subject and assailed Roosevelt time after time. In virtually every town the president visited was a manufacturing center and in many places the mills shut down and the schools closed to meet him.

Links Taft and Lorimer

PITTSFIELD, Mass., April 30.—"If you vote for Taft you vote for these men," said Colonel Roosevelt here tonight after referring to Senators Lorimer, Penrose, Gallinger and Guggenheim. He said the president had virtually had nothing behind his campaign outside of two or three states, and the support received from these men, "and their like and the great sinister special interests which stand behind these bosses."

Roosevelt devoted a large part of his speech to reply to things President Taft had been saying during the day at the other end of the state and in the latter part of the day entered upon a long-distance debate by retorting to the president's utterances.

Roosevelt said the president had asserted he was stirring up class hatred. This Roosevelt denied, declaring such talk "arrant nonsense." In the same connection Roosevelt said it "Taft's policy of flabby indecision and of hopeless acquiescence in the wrongdoing of crooked bosses and crooked financiers continue there will grow up class hatred in this country."

EAGLE POINT EAGLETS.

(By A. C. Howlett.)

Senator Hugo Von der Hellen started the first of the week to meet the board of regents of the O. A. C. in Corvallis.

During my absence the interested parties have put down a cement sidewalk from the county road to connect with the side walk in front of the town hall, so as to enable the people to reach the new meat market and Heath & Diamond's store in the Nichols block. The plasterers finished up their job Friday and it is the calculation that the part to be occupied by Heath & Diamond will be ready to be turned over to them by Tuesday evening, the 30th instant. S. B. Spiker is receiving all kinds of compliments for the manner in which he has pushed the work along during the construction of the building.

Mr. S. B. Spiker wishes me to say to the readers of the Mail Tribune that from the present appearance they are going to have one of the finest dances May 1st, that has ever been had in Eagle Point and that Mrs. Howlett has planned to accommodate eighty at a time at the supper table and that both time nor labor will be spent to make it a grand success.—Adv.

While I was away from home recently, G. E. Wehman, our harness maker has put up two signs to show where to go for work done in that line.

Parties are at work opening up the county road over the hill, from here to Rogue river near the old Newman place.

During my absence Mrs. Dr. Holt returned from San Francisco where she has been visiting her mother for several weeks. On my return as I was walking past the Model Variety store I was amused to see several ladies inspecting some new mirrors that Mrs. Daily had placed in the show window, but such is life.

Heath & Diamond have bought a lot nearly opposite their new store and have also bought the store building they now occupy and intend to move it onto the lot for a general warehouse as their new store building, although it is 27x76 ft., will not be large enough for their business.

H. O. Childreth moved into his new blacksmith shop last Wednesday.

I understand that Mr. Veatch has leased what is known as the Ryan tract of land north of our town and is fencing in about 1600 acres for pasture.

Jud Edsall and Charley Thomas are fixing up their wagons to go to Scotts Valley, Cal., to haul quartz this summer for a quartz mill.

A. D. Walters, wife and little daughter came into the Sunny Side Thursday night about 9:30 from Elk Creek where he is working on the county road.

Many Table Rock people attended the concert at Gardner's hall Saturday evening.

It is likely that a singing class will be organized at Table Rock soon with Prof. Howell Isaac as instructor.

Prof. V. A. Davis closed his term of school at Table Rock April 26 with an entertainment in the evening. The house was filled with a joyous and good natured audience. The boards were covered with many beautiful and artistic drawings in color, the work of the pupils commemorative of historical events connected with our country. The program was historical, literary, and musical, and was a rare treat to all who were fortunate enough to be present. Prof. Davis had secured the services of the Medford high school mandolin club, under the able leadership of Prof. Charles Edward Root, assisted by Prof. Collins and Prof. Bowman of the Medford high school. The music rendered by the club was exceptionally fine. Transpositions, accidentals and minors were handled with an easy grace that indicated the touch of the master hand. After the program sandwiches, cake and coffee were served to all, during which some one shouted "What's the matter with Medford?" and instantly the whole house was cheering. Every one went home hoping that the Medford high school mandolin club will come again.

LITTLE DANGER OF FROST NOW

Owing to the large amount of moisture in the valley at present it is believed that all danger from frost this season has passed and it is unlikely that smudging will again be needed. The excessive moisture keeps the temperature at an even pitch and prevents any sudden drops in the mercury.

"Conditions have been ideal," states Professor O'ara, "and there does not seem to be any chance of losing the present crop by frost. I confidently expect that further smudging will be unnecessary."
