COW EATS WIRE; STARVES TO DEATH James Kershaw, the mohair king of Antelope valley spent Saturday in Medford. He is exhibiting a four inch strip of wire which caused the death of one of his most valuable cows. The cow swallowed the wire some time in February. On March 1 she refused to eat. She calved March 10 and died on May 1 of starvation. A post mortem revealed the cause of death, the wire lodged across an intestine. Mr. Kershaw is jubilant over the price of mohair, which is now selling at 38.45 cents. There is good profit in mohair at 30 cents he states, and advises all owners of foothill and brush land to engage in this most profitable business.
