car at a discount, tell him that the old "something for nothing" story can't fool you.

The best automobiles in the world are sold for their list price, not a penny less. They are worth it. But the lame ducks, the second rates, the nondescript and assembled automobiles are in the public market looking for the highest bidder. Look out they don't get you. If gold-brick cars are not worth their list price, how much are they worth? Nobody knows. Cut price deals are frauds.

But if you want a car of one price to all and worth every cent of it, get either a Studebaker E-M-F "30," \$1100, or Flanders "20," \$800. You can trust them. You get all that you pay for, and that is more than you get with any other car at near their price. Studebaker guarantees them-that's the big reason. No matter what price temptation falls in your way, Studebaker E-M-F "30" and Flanders "20" cars are far bigger bargains, because in years of good service and satisfaction they pay big returns.
