who have rejected Taft. The nominee will be progressive. Roosevelt will have enough votes to nominate him without a single vote from New Jersey or South Dakota.

Brown concedes Taft only eight delegates from Ohio, while Laylin, Taft's manager, claims at least ten and probably fourteen delegates. Laylin refused to discuss the report that Taft will withdraw as a result of the Ohio primary. It is reported that if Taft does withdraw his adherents will back Root for the presidential nomination.

**ALL IS OVER SHOUTS PINCHOT**

VANCOUVER, B. C., May 22.—Gifford Pinchot, former chief forester of the United States, and universally regarded as the closest friend and adviser of Theodore Roosevelt, arrived here this morning from Victoria.

"That settles it. That makes his nomination certain," exclaimed the chief of all Roosevelt champions, when he was informed that partial returns from the Ohio primaries gave the former president 32 and possibly more, of the 48 delegates from that state to the national convention.

"It is a landslide and nothing can prevent the nomination of Colonel Roosevelt at Chicago in June. Taft's last hope is gone. The snowball has been rolling along, gathering bulk as it traveled and now in Ohio it has terminated the entire question by rolling over the reactionaries and flattening them out completely. There have been a large number of uninstructed delegates already selected, and the majority of these will assuredly vote for Roosevelt. He will be nominated on the first ballot and as certainly will be elected next November. In traveling about the country I have found the bulk of sentiment everywhere to be that if Roosevelt is nominated there will be no chance for a democrat."

**LOOK OUT FOR PEAR BLIGHT INFECTIONS.**

Although no outbreak of a serious nature has occurred this year, even in localities where pear blight has been more or less destructive in the past, all growers are asked to make thorough inspections of their pear and apple orchards so as to be sure that any new case will be immediately found and eradicated. The contrast this spring as compared with other years is such that every one cannot help but notice the absence of the disease. However, this office requests all orchardists to have patrols, especially in the pear and Spitzenberg apple blocks. Now that there is every chance to completely eradicate the blight from our orchards, let us use every precaution in handling this most serious disease.

Lack of pollination and thrips injury have made some of our orchardists mistake these troubles for blight. Naturally it is best not to pass over anything that has the appearance of blight without carefully examining it or calling the attention of this office to the trouble. By no means take a chance. Report all cases of new infection, or supposed infection, to this office or to any of the inspectors, as we will be able to help you in finding a holdover case from which this infection has come.

P. J. O'GARA,  
Pathologist in Charge.

**ARCHBALD TOOL OF RAILROADS**

WASHINGTON, May 22.—Sworn testimony that the jurist was the prime mover in a railroad conspiracy to "crush him in a financial way," was given before the Judiciary committee here today by William P. Boland, a Scranton, Pa., coal dealer, who has been the chief witness against Judge Robert W. Archbald of the commerce court, who is charged with making capital out of his position on the bench.

The witness also declared that he was convinced that Judge Archbald acted as a "tool for the railroads," asserted that Attorney George Watson of Scranton told him that Judge Archbald could get two other Judges of the commerce court to join with Archbald in deciding Boland's case which was pending before that court.

"Watson told me," said Boland, "that Judge Archbald would not take my watch, but that he might take it if I heard of any coal lands along the railroads, that he, with Judge Archbald's influence, would be able to buy and sell them."

Boland also declared that Williams told him that Judge Archbald had said that he (Archbald) "had too much influence in Washington to be hurt by anything that Boland could do."

**DOUBLY PROVEN**

Medford Readers Can No Longer Doubt the Evidence.

This Medford citizen testified long ago.

Told of quick relief—of lasting benefit.

The facts are now confirmed. Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

T. J. Williams, 617 Oakdale Ave., Medford, Ore., says: "In 1907 after Doan's Kidney Pills benefited me so greatly, I publicly recommended them. At this time I am again pleased to speak in their praise and give permission for the continued publication of my testimonial. I suffered for years from kidney and bladder trouble, the symptoms being slight at first, but becoming more pronounced as time passed. The pains in my back became so acute that I could hardly endure them, and as the result of restless nights I arose in the morning all worn out. Often I was so lame and stiff that I could not stoop and headaches and dizzy spells were common. I tried so many remedies without being helped that I became discouraged, but when Doan's Kidney Pills were recommended to me, I decided to try them as a last resort. I procured a supply at Haskins drug store and after using two boxes, I could see that a great improvement had been made. I grew better from that time on and was soon free from kidney complaint. Doan's Kidney Pills cannot be praised too highly."
