

Can Jeff Speak German? Well, Just Take a Peep

By "Bud" Fisher

HEAT DAMAGES CALIFORNIA FRUIT

The California Fruit Distributors issue the following market letter under date of Sacramento, June 8. The following gives number of cars of deciduous fruit shipped from all points in California for the week (7 days) ending Friday evening, June 7, 1912. Cherries—28 1/2 cars by freight and one by express. Movement, according to varieties, is about the same as last week. Largest quantities are going forward from the San Jose district, shipments from the early sections remaining practically the same. Apricots—2 1/2 cars. Considerable quantities of Royal apricots are now in evidence and will increase rapidly from day to day. Peaches—Not many peaches are offering as yet, although there are a few packages of Sneed and Alexander being shipped. The crop of Alexander is very light in most sections. Hales and Imperial, which will follow later, are much better. Other varieties are as heretofore reported and will make a good crop. Bartlett Pears—No change to report in this variety. The fire blight, which was mentioned in our last letter, has confined its ravages almost entirely to one or two of the early sections and has not manifested itself to any extent elsewhere. Damage, therefore, will be comparatively light. Fruit is looking well and growing fast. So far there is no indication of scab or other fungoid disease. Grapes—The hot weather referred to in the first paragraph of this letter has been just what vines require for their rapid growth.

Notice General Federation of Women's clubs, San Francisco, California. Sale dates June 22nd and 23rd, 1912. Going limit June 30th. No stopovers allowed. Returning 60 days stop-offs allowed on return trip within 60 days. Rate fare and third, \$16.80. Your truly, A. S. ROSENBAUM, Agt.

The Daily Hint from Paris. Evening gown, faced with pompadour silk muslin, with flat side panels of lace, draped over the belt at sides and back. Tunes and tucker finely plaited. -Maison Laloux.

HIGHER PRICES FOR BEEF AT STOCKYARDS

PORTLAND, June 10.—Receipts for the last week were as follows: cattle 1236, calves 38, hogs 1973, sheep 4128, horses 44. Although there were a few more cattle on the market this week than last, the price stiffened up 15c on steers, the record sales of the week being three loads of light grass finished stuff, extra good, which brought 7.50. Most of the offerings were off grade and sold around 7c. Very light receipts in the cow division best sale at 6.40. Bulls, stags and veal calves held their own. The swine division remained about the same as heretofore, 7.75 being the top for the best. Market considered slightly weaker, however, and more discrimination was shown by buyers in sorting up the grades. Lambs came to the front in the mutton market, opening Monday at 6.75 they gradually declined until they reached 6c at the close of the week. Buyers report they are liberally supplied and no advance is looked for over the latter quotation. Ewes, yearlings, wethers and mixed lots took a corresponding downward slant, prices being about a quarter of a cent off on these classes.

MULKEY REPLIES TO CHARGES OF KELLY

Concerning Lawyer Kelly's remarks intended to discredit the coroner's inquest and its jury verdict, Prosecuting Attorney Mulkey says: "Naturally, Mr. Kelly is displeased with the verdict, for as counsel for Twoby Bros. he tried to prevent it. He was present throughout the inquest out of courtesy extended by the coroner, merely. He was permitted to question witnesses without limitation, and there was no partisan zeal for the state manifested by its officers. Mr. Kelly, as attorney, objected to but two questions asked by the state and these questions concerning the alleged drunkenness of an employe at the time of the explosion, and of the subsequent care-taker. The jury's verdict must have been based upon two very important facts elicited at the inquiry. First, that the powder used in the drill hole had been exposed to the direct rays of the sun from 8:00 o'clock until near 11:00 in the morning, thereby rendering such powder highly sensitive. Second, that powder was being tamped at the time of the explosion by the use of a steel drill. These facts were firmly established by testimony admissible in the most highly technical court, and against which was not imposed the slightest objection. Mr. Kelly now complains that the verdict was based upon some alleged irrelevant questions asked about a drunken employe. His zeal for the client he represents just now leads him to forget five men were killed outright and others were wounded by an explosion that would not have occurred if the powder men had been observing proper care. The testimony showed that the steel tamping ram was used for a period of fifteen to eighteen minutes prior to the explosion, all this occurring under the noontide rays of a blazing sun pouring its heat at right angles upon the surface where the premature explosion occurred. The verdict rendered by Senator Cameron, Wm. C. Deneff, E. Arnold, John B. Bennett and the Thompsons was not an expression of community prejudice. It was the calm deliberate judgment of six good men who had no personal interest in the outcome. These men were under oath. They patiently heard the evidence a full day, and by the questions frequently

LARGE ACREAGE OF SPUDS THIS YEAR

The Rogue River valley will this year produce the largest potato crop in its history. From three to four times as many acres have been planted to spuds as usual and from all indications the season is especially well adapted to them. The large amount of rain which fell during the spring has put the ground in the best possible condition for the seed and several carloads will be shipped out of the valley and, it is presumed, that this year no potatoes will be shipped in as has been done in the past. A drive throughout the valley will convince anyone at all familiar with conditions that the acreage devoted to potatoes this year is far heavier than it has ever been before. On every hand potato patches are to be seen and they all give promise of bumper crops. Especially in the Table Rock district is the increase noticeable. This is one of the best potato producing sections of the valley and has been extensively planted.

asked by individual jurors showed an intelligent interest in the case and an entire freedom from bias. Indeed, four of the six jurors I understand, are experienced powder men, representing in experience both the employe and the employer. As such they are better qualified to pass on the merits of the case than Mr. Kelly who was a partisan advocate. The fact is the prosecuting attorney at the close of the testimony promptly left the court room and the jury so far as he knows was alone.

The Journeymen Stone-Cutters' association reports that during the last year sixty-six local branches obtained a material increase in wages, the total aggregating close to \$300,000. In addition to this, twenty-four new locals have been added to the association.

The governor of Arizona has approved a bill passed by the legislature of that state, prohibiting exactions from workmen as the price of employment. The new law carefully defines the rates that may be legally charged for finding employment and provides punishment for its violation.

In ten years over \$84,000,000 have been spent on strikes in Germany.

New Today 160 acres out of Jacksonville on Bishop Creek, that is a fine grain and fruit farm as well as a wood and saw timber proposition. It has a good house and barn and there are fourteen acres of wheat and alfalfa, and an acre and a half of garden. Eighty acres is excellent farm land that can be easily irrigated, and the balance has three million feet of fine even saw timber. The tract lays handy to the proposed railway, and is only seven miles from Jacksonville and on good road. Daily mail. The price is \$25.00 an acre, \$500.00 cash and the balance may run five years at 6 per cent. Let me show you the place. Fifteen acres of fine full bearing Newtowns, and Comice and Bartlett pears is listed for sale. One of the best kept and best bearing orchards in the valley. Fine view, no smudging. For sale at an attractive price. List your property—buyers are calling. C. D. HOON Room 12, Jackson County Bank Bldg.
