PERKINS HELPED WITH \$15,000

WASHINGTON, July 22.—Former Senator Scott of West Virginia testified today before the senate campaign contributions investigating committee. He was a member of the republican national committee in 1904.

"George W. Perkins," said Senator Scott, "asked me that year regarding the situation in West Virginia. I said there was some doubt of the reelection of the republican candidate for governor. He said he was a friend of Colonel Roosevelt and would not like to see West Virginia go democratic, and then he gave \$15,000 to help the campaign there. I contributed nothing to the national fund, but gave \$30,000 or \$40,000 to the West Virginia fund."

Scott said he knew of no contributions by Morgan, Havemeyer or other trust magnates.

LITTLE JOURNEYS TO THE HOMES OF OREGON INDUSTRIES

(Written for the Mail Tribune by Col. E. Hofer, Manager Made in Oregon Campaign.)

No better work is being done for the temperance cause than the gradual substitution of milder drinks. The people are rapidly going away from the stronger and more fiery kind of beverages and the time will come when the hard drinker will be as great a curiosity as the woman later.

Four years ago there was invented and put on the market a soft drink that is going into general use all over the Pacific Coast and sales are now only limited by capacity of the present plant of the Puritan Manufacturing Company of East Portland.

This beverage is non-alcoholic, is colored a beautiful pink red and flavored by the pure fruit juices of the raspberries and loganberry. Oregon products and is not carbonated. It was discovered by Walter H. May, a young man who has followed soda-water making all his life, and quite accidentally fell upon something new.

Think of a perfectly delicious, sparkling, rose-colored wine flavor liquor, produced without pressure, not carbonated, refreshing, without use of carbonic acid gas, marble dust or sulphuric acid. No ethers or ethereal extracts, no saccharin or artificial sweetening, no aniline or coal tar coloring matter, a pure food product with the stamp and approval of the government.

We have all ready of the great fight the pure food champion, Dr. Wiley made to secure protection for the children against adulterated ice cream. As great credit belongs in another way to the Puritan Manufacturing Company for giving the consumer a pure drink product, that keeps clear and sweet after it is opened and does not lose its color when exposed to the light.

It gets its glow from the rosy red, sun-kissed berries raised on the fruit ranch of Oregon, and is registered under the Pure Food act of April 1910. It is now sold in four states on the Pacific Coast. It is preferable to carbonated drinks, which are charged with a gas made from the product of grain distilleries, because it is perfectly free from any alcoholic or acid product.

The R-Porter, made by the Puritan Manufacturing Company is an Oregon invention, made of all Oregon material, and by Oregon men, and Oregon people will find it on sale by their dealers at the grocery stores, in soft drink parlors and it is rapidly being taken up in all progressive drinking places.

The campaign for Made in Oregon products would not be complete without mention of the minor products, the little things that are consumed by the millions being the employers of the largest payroll. If Oregon people would give preference in what they eat and drink to made in Oregon products, many million dollars would be kept in this state.

PORTLAND'S FIRST CO-OPERATIVE STORE

PORTLAND, Ore., July 22.—As the result of investigations of the high cost of living, made by a committee appointed by Mayor Rushlight several months ago, the first co-operative grocery store in Portland was in full operation today.

The store was furnished and stocked at a cost of \$2,000, realized through the sale, at \$10 each, of memberships in the First Mutualist Association, the official name of the concern.

Benefits to the 200 members of the association will not accrue through the sale of groceries at less than the prevailing market price, but through the division of profits at the end of each three months, in proportion to the value of the purchases made by members during that period.

Any person may make purchases at the co-operative store, but members only are permitted to share in the profits.

KAISER ALLIED WITH MIKADO

BERLIN, July 22.—That the tour of Europe recently started by former Prince Katsura of Japan is to negotiate an alliance between the Mikado and the Kaiser is the assertion made in diplomatic circles here today.

It is announced that Japanese want to dissolve partnerships with the English and are prepared to guarantee protection to German interests in the Orient in the event of an Anglo-German war. The Kaiser is reported as looking askance at the plan, however, principally because he thinks it would embarrass him in the event of friction between Japan and the United States.

Prince Katsura, who is in St. Petersburg today, has said repeatedly that the tour is purely for pleasure.
